However, offerings even at these advanced prices were rather disappointing and it was plainly evident that the country was not anxious to sell at the present time. Efforts were being made by shorts to cover and it was parily this demand which created the firmer feeling. The royal commission is still out of the market and it is being stated that the demand from this source will probably remain dormant for a while, until there is some betterment in the exchange situation.

New York Coffee.

New York, Aug. 6.—Still lower levels were reached in the market for coffee futures today, owing to the continued weakness of the Brazilian markets as reflected both in Milreis quotations and reports of lower cost and freight offers. The market opened at a decline of 10 to 13 points and active months sold about 19 to 20 points below last night's closing quotations with Derember touching 9,55c, compared with 10,80c, the high level of last Monday. There was considerable covering around these figures but unsettling European conditions restricted buying and last prices showed only moderate railies. December closed at 9,50c with the general list showing a net decline of 11 to 17 points.

CORN.

CORN.

though bullish early was materially modified by the break at the last. Wheat at the tap prices was up so over the previous day's close, showing an advance of nearly 42c from the low on Monday. The bulge was on war news, and it was the main strengthening factor most of the day. Buying early was not strong enough to hold values in the face of a reduction in the export demand with few bids in the market, and they out of the line.

Corn Affecta Wheat.

For the first time this week the break in corn had an influence on wheat trad-cer, and started the decline which extended to 12c from the top, with the close easy and the feeling uncertain. So long as exporters buy freely traders have confidence in value, but when they stop they become nervous. Hedging sales and profit taking was a factor in making the decline, which was also assisted by the drop in cash premiums at the last. The three southwestern markets had 655 cars against 613 cars a week ago and 724 cars last year.

General export demand for wheat to-day was poor, and only a few sales were read to the seaboard or guif. There is very little wheat sold for shipment from Chicago beyond August, and from the guif beyond October. Germany was reported as having taken 759,000 bushels wheat and 41,750,000 bushels rye recently.

Cash wheat premiums at Chicago closed 6672 lower, with No. 1 red and hard winter 12c over December at the last after sales as high as 19c over for hard early, buvers withdrawing from the market at the last. As compared with the previous day's close, hard winter was about 10c lower, No. 1 hard sold at 32.49@2.61. Receipts 194 cars, including 175 cars No. 1 and No. 2. Outside markets closed easy, Mills competed for the small offerings at Minneapolis, and prices there were 10@15c higher.

Selling Checks Advance.

War talk and dry weather over parts of the corn belt was reflected in a bulge \$55\\$c early, with general buying and stop order covering in evidence. Offerlings were limited on the way up until the offer prices was reached. Selling by the holders of offers checked the advance at \$1.53\\$mathsf{math} for September, which showed 20\\$c above the low of Monday.

Rumers that Russia and Poland signed an armistice brought in a wave of buying. The Armour Grain company, Jackson Bros. Stein-Alatrin, Nye-Jenks. Updite, Cement, Curtis & Leland sold heavily, and there was pressure on the market until the close. Cash Demand Good.

Pit Notes,

Some of the receiving houses say that there is a decided increase in the consignment notices of grain to Chicago as a result of the advance.

Hulburd, Warren & Chandler said the grain situation of late has been aggravated by small receipts and by a strong cash demand, spot wheat yesterday being 15\$\tilde{x}\$20c higher, spot corn 6c higher, and spot oats 4\$\tilde{x}\$6c higher. Furthermore, no rain was reported in the dry sections of the corn belt, and the forecast was for fair weather generally. Pit Notes.

rain was reported in the dry sections of the corn belt, and the forecast was for fair weather generally.

Minneapolis wires Shaffer & Stream: "Cash wheat 5c higher, A few cars of choice No. 1 dark sold 20c higher than yesterday's close. General average 10c higher.

Warehouse receipts for shipment of 1,199 bushels No. 2 vellow corn were canceled; 177 bushels No. 3 yellow and 574 bushels No. 3 mixed corn. Also 9,662 bushels No. 3 white oats and 1,002 bushels No. 2 rye.

Harris, Winthrop & Co. said: "There was a little more inquiry for provisions for Europe. Holders were much encouraged by the raily. In general, we regard provisions as having merit, and believe that purchases on the recessions are likely to prove profitable."

J. K. Riordan of Riordan, Martin & Co. has returned from the southwest, and is talking bearish on corn.
