

DENVER UNION MEN TO OPERATE JITNEY LINES

'50 Automobiles to Compete With Street Cars—Charges Filed Against Nine Alleged Rioters.

Denver, Aug. 14.—Legal action to punish the leaders of the mobs which were active last Thursday and Friday nights in connection with the strike of street carmen, was begun Friday, while union leaders were planning the establishment of a line of jitney busses to compete with street cars operated by strike-breakers.

According to A. H. Burt of Salt Lake City, international organizer of the union, tentative plans for the operation of 150 automobiles were made at a conference today. Information against nine men, alleged to have been leaders of the mob which invaded the plant of the Denver Post a week ago last night, were filed in the court of Justice of the Peace William A. Rice Friday. They were sworn to by City Detective Harry Lane. The total damage done by the mob to the Post plant is estimated at \$25,000 in the information.

Those named in the information are W. L. De Witt, L. F. McKee, Wesley Goodfellow, James Rigger, Lewis Tennenbaum, Glenn Slifer, Theodore Olson, C. J. Ewing and J. J. Steele. The police received reports of several bombs being placed on car tracks Friday, but only in one instance did the explosions interrupt service. A bomb on the track was exploded by a car at Thirtieth and Stout streets. It blew the body of the car from the tracks, but the body settled back into place. As a result of the rioting during the strike, Denver's police force will be increased by 100 men as soon as the additional members can be recruited, it was announced by Frank M. Downer, city manager of safety and excise today. Gov. Oliver H. Shoup today refused a request from the Colorado State Federation of Labor, meeting at Pueblo, that he bring pressure to bear upon the Denver Tramway company to cause discharge of strike breakers and reinstatement of striking trainmen.

Strict Conservation Is Urged to Prevent Newsprint Famine

New York, Aug. 14.—Despite importation of German and Scandinavian paper in small quantities and the fact that domestic factories are being constructed, the shortage of news print still is acute and can only be combated by strict conservation, according to a statement tonight by the paper committee of the American Newspaper Publishers' association.

The practice of conservation in the past few months, however, the statement said, has been reflected in current quotations of the spot market, which has declined to about 11 cents a pound with occasional futures quoted at 10 cents. For various assigned reasons, certain manufacturers are offering less paper for contracts next year than they sold to American publishers this year, the statement continued. Several mills under construction that were supposed to be in operation soon, have been delayed in completion.

Increase in Express Rates Has Been Granted

Washington, Aug. 14.—Authority to increase express rates 12 1/2 per cent was granted the American Railway Express Company Friday by the Interstate Commerce commission.

The increase by unofficial estimates will add \$35,500,000 to the annual income of the company. The commission's decision does not take into consideration the recent award of the railroad board of increased wages amounting \$43,000,000 to express company employes and it is expected the company soon will apply for an additional advance to meet new wage scales.

Rates on milk and cream are further increased to correspond with the advance of 20 per cent for transportation of such commodities authorized by the railroads except where there are no competing roads between the affected points, in which case an advance of 12 1/2 per cent is authorized.

Volstead Act Is Worrying Apple Shippers' Association

Chicago, Aug. 14.—A recipe that would prevent apple cider from becoming hard cider and one which would not be subject to violation of the Volstead law was sought in speeches before the convention of the International Apple Shippers' association today.

R. C. Phillips of Rochester, N. Y., secretary, said that the one-tenth of 1 per cent preservative allowed in making cider was not sufficient to prevent cider from having a "kick."

Oldfield Put in Charge of Demo Congressional Drive

Washington, Aug. 14.—Representative W. A. Oldfield of Arkansas has been selected to take charge of the democratic congressional campaign headquarters in New York, according to a statement today by Chairman Flood of the congressional committee. The New York office as well as assisting congressional campaigns in its district, will serve to keep the congressional committee in touch with the national democratic committee.

Roosevelt Is Scheduled for Speeches in South Dakota

St. Paul, Minn., Aug. 14.—Franklin D. Roosevelt, democratic vice presidential candidate, early today was en route to Sioux Falls, S. D., where, this morning, he is scheduled to make the first of a series of campaign addresses in South Dakota. His also will be given today at Mitchell and Salem.

Friendly Little Street Urchin Finds Refuge Here

Howard, 11-year-old adopted son of Mr. and Mrs. E. A. Singer, 5022 Underwood avenue, was the youngest member of a large family, living in a congested district of Pittsburgh, when the Singers found him.

Now Howard is the undisputed, if youthful, king of the pretty Singer home. He has a large, airy room of his own, a green lawn to play on, and best of all, he has three thoroughbred English Maltese dogs, white, fluffy, playful little pups, to keep him company.

At the age of 4, Howard, with his 8-year-old brother, Dick, left his six other brothers and sisters to live with the Singers in Chicago. Some time later the Singers moved to Omaha, but his mother would not permit either him or his brother to accompany them.

Loved Boy.

"We had become greatly attached to the two boys and were nearly heartbroken at losing them," said Mrs. Singer. "When we learned several weeks ago we could get Howard back again, we jumped at the chance. His family had moved to Bakersfield, Cal., so we asked Thomas Quinlan of Omaha, who was on the coast, to bring him back to Omaha. "He reached here July 12, on his 11th birthday. Now we have legally adopted him, so no one can take him from us, can they, Howard?"

Little Chap Happy.

Howard smiled happily and shook his head. He is a bright-eyed, quiet-mannered little fellow, but he has an engaging smile that never fails to win friends. "I'm proud of my dogs," admitted Mrs. Singer. They are thoroughbreds. But I'm more proud of Howard, for I'm sure he is a thoroughbred, too, even though his pedigree isn't as long as that of the dogs."

So Howard, former street urchin of Pittsburgh, now plays with "Wee Folks," "Dimple" and "Rowdy Boy, jr.," and roughs them about the yard as if his ancestors, too, came from a noble English family.

U. S. Champion Athlete Has Suspension Ban Raised

Antwerp, Aug. 14.—The reinstatement of Dan Ahlstrom of the Illinois A. C., dismissed yesterday from the American Olympic team on charges of insubordination, was announced this noon.

Ahern apologized this morning in the presence of both the American committees. They accepted his apology and he was restored to his former standing on the team, closing the incident.

World's Dearest Newspaper

Paris, Aug. 14.—The Near East News, a four-page daily costing 10 Georgian rubles, is the only up-to-date English newspaper available for American relief workers south of the Caucasus. American Red Cross officers, who are establishing scholarship privileges for Armenian students in the colleges of Constantinople and Jerusalem, find it their only means of contact with their outside world.

Villa Reaches Tlahualilo

Mexico City, Aug. 14.—Francisco Villa and his men reached Tlahualilo, state of Durango, Thursday night, according to a message from Gen. Eugenio Martinez. Tlahualilo is the place where it was reported Villa's men would be mustered out.

The High Cost of Clothes Is Offset by the Low Cost of Cleanliness

In spite of high costs it is easy to maintain an attractive wardrobe.

It costs but little to keep clothes clean and presentable.

Shirts must give a few weeks' extra wear, blouses must do their duty a little longer than usual.

Our careful, intelligent laundry service is unusually valuable for this reason.

And remember there is nothing mysterious about our methods. Pure water, pure soap, the same materials as you would choose yourself.

We take the washday worry out of hot days and render skilled service at low cost.
