What's What

In some European countries, as with "the chosen people" in this country, betrothal is a solemn affair to be announced in set terms and celebrated with a certain degree of festal ceremony. Over here we are more casual. Formal announcement (by the parents of the fiancee) is a matter of choice and not of prescribed regulation.
"All the world loves a lover," it is true; but it is equally certain that lovers do not love all the world, and it is the preference of only their relatives and intimate friends shall know that he has placed the solitaire on her finger, they are but exercising their undeniable American right to their own ideas of "lite, liberty and pursuit of happiness."

Problems That Perplex

Answered By
BEATRICE FAIRFAX

Blackie: I do not have the address of the Dolly Sisters. There is a magazine, "The Billboard," which could probably give you the desired information.

L. M. C.: Certainly your 14-year-old daughter is under your supervision and authority. The law will not only enable you to compel her to return home, but you will be doing the girl an injustice if you do not take her back. Perhaps she is with you again before now, for children her age do not stay "run away" long. Study your child when she does come home, and try to understand why she ran away. Girls her age are often high strung and nervous, and mothers should endeavor to gain their confidence. Children do not love their parents or trust them unless parents merit the affection and confidence, sentimental remarks to the contrary notwithstanding.

Jealousy is Selfishness.
Dear Miss Fairfax, Omaha Bee: Do jealousy and true love go together?

Washing Won't Rid Head of Dandruff
The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.
Do this tonight and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.
You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

SURE WAY TO GET RID OF BLACKHEADS
There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.
To do this get two ounces of calomine powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin—pinching and squeezing only cause irritation, make large pores, and do not get them out after they become hard. The calomine powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.
