# KANSAS STRIVES SET RECORD

Discrepancy Between Federal and State Forecasters Expected to Be Cleared by Report.

Topeka, Kan., Aug. 20.-More light on the size of the Kansas wheat crop-whether it will be Kansas' second or third largest—is expected tomorrow when the Kansas state board of agriculture issues its monthly estimate. Question has been raised by a difference of 26,000,000 bushels between estimates of state and federal authorities.

The discrepancy turns on different means employed in calculating acreage in wheat, according to a state-ment from the Kansas agricultural

#### Difference in Figures.

The state board says it based its report on the wheat acreage as shown by figures turned in this year by assessors of the 105 counties of the state. The assessors' returns increased the wheat acreage esti-mated last fall 1,574,964 acres. In its July estimate the state board used the total acreage shown on the assessors' reports, 8,943,098 acres. The report of the federal statistician issued on August 10 used the acreage estimated last fall, 7,725,000. This makes a difference of 1,218,098

It is the custom of the federal statisticians not to accept the assessors' acreage figures until the final report on the yield, after threshing is completed," said Secretary J. C. Mohler of the state board. "This difference in acreage practically 'accounts for the discrepancy at this time. I am certain that later reports on the crop will not show less than 150,000,000 bushels."

Estimates 156 Million. Meanwhile Clyde M. Reed, a judge of the state industrial relations court, who is supervising the struggle the state is making to furnish grain cars with which to haul the 1920 wheat crop to market, has made public an estimate, based on threshing returns, that the crop will ex-

ceed 156,000,000 bushels. The record Kansas wheat crop was grown in 1914. It amounted to 180,924,885, bushels. Thus, Secretary Mohler claims, this year's crop is the second largest on record, Federal Crop Statistician Edward C. Paxton's August report said this was the third largest crop, his estimate of 143,049,000 bushels being smaller than both the 1914 crop and hat year's yield of 146,000,000 bushing statistics from 2,200 correspondents practically one for exemples.

spondents, practically one for every township of 36 square miles; the federal statistician has 1,800 corre-

#### Railroads Agree on Embargo on Coal to lidewater Points

Washington, Aug. 20 .- An immediate embargo on the movement of coal to tidewater except upon a definite showing that the coal upon arrival at piers would be unloaded into vessels with reasonable promptness, has been agreed upon by the railroads, it was announced today by the American Railroad associa-

In a statement the association said that at a conference held yesterday by Chairman Willard of the Assoclation of Railway Executives and Col. D. B. Wentz, president of the Nationa! , Coal association with representatives of the commission on car service of the American Railroad ssociation, tidewater coal carrying lines serving Hampton Roads and the north, various tidewater coal exchanges and the American Wholesale Trade Coal association, it was decided, that such changes should be made in the regulations of the idewater coal exchange which handles shipments through New York, Philadelphia and Baltimore as would result in penalizing the hold-ing of bituminous coal by individual members of the exchange beyond the free time permitted in established coal demurrage tariffs.

#### Aged Veteran of War Of '65 Seeks to Have His Record Cleared

Leavenworth, Kan., Aug. 20.dent of Joplin, Mo., appeared today at the United States disciplinary barracks at Fort Leavenworth and asled that he be locked up as a difference or else that his civil war record be cleared. King wept while telling his story to Lieutenant Colonel Rosenbaum, assistant commandant of the prison. Colonel Rosenbaum refused to hold the aged yeteran and said the matter would

be investigated. King had documents to show that he was honorably discharged February 10, 1865, on a surgeon's certificate of disability issued by the adjutant general of Missouri.

He also showed papers from the

oureau of records and pensions in Washington, which stated that he had twice deserted in 1864, being convicted of desertion by a court martial between the time of the two Should King's alleged offenses. record be cleared, army officers de-clared he would be entitled to more than \$20,000 in back pension.

#### He Returns Gift of King

**Because Sons Penniless** London, Aug. 20.—Because his two sons who fought in the war are unemployed and penniless in spite of their willingness to work, the care-taker of the landing stage of the Royal Yacht squadron at Cowes re-turned to King George a diamond scarf pin the king's gift at the end of the yachting week.

"Until those who served his ma-

jesty's country during the war," read the note accompanying the returned gift, "are provided with houses and employment, I would rather not accept any ritte from his
