**New Way to Curl Hair Fine for Outdoor Girl**  
The silmerine method of curling the hair is the proper one before getting hot, boating or golfing, or indulging in any outdoor sport or exercise. This will not only give the hair the most beautiful wavy and curly appearance imaginable, but wind or heat will not take the curl out. The curling is quickly acquired and lasts much longer than where waving irons are used. Besides, the hair will be bright and lustrous, instead of dull and dead looking. When combed out it will be as nice and fluffy as if it had just been shampooed.  
Just get a bottle of liquid silmerine at any drug or department store, follow the accompanying directions, and you will be simply delighted with the result. This product is of course perfectly harmless and there is nothing sticky, greasy, or unpleasant about it.
