

CITY VIEW OF FARM WEALTH OUT OF FOCUS

So Declares Manager of Agricultural Bureau of Chamber of Commerce—Tells Why.

The prevalent city view of the farmers as rolling in wealth is greatly out of focus, according to H. F. McIntosh, manager of the agricultural bureau of the Chamber of Commerce. Loose talk of the billions of revenue from the harvest fields give an entirely wrong opinion of the size of the farmers' incomes, he declares.

Don't "DIAMOND DYES"

GIRLS! MAKE A LEMON BLEACH

Lemons Whiten and Double Beauty of the Skin
Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White which can be had at any drug store, shake well and you have a quarter pint of harmless and delightful lemon bleach for few cents.

FOR BURNING FEET

DRY FOOT ANTI-SEPTIC LOTION

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quickly by a simple method that just dissolves them. To do this get about two ounces of calomel powder from your druggist—sprinkle a little on a hot, wet sponge—rub over the blackheads briefly for a few seconds—and wash off. You'll wonder where the blackheads have gone. The calomel powder and the hot water have just dissolved them. Picking and squeezing blackheads only open the pores of the skin and leave them open and unclean—and unless the blackheads are big and soft they will not come out, while the simple application of calomel powder and water dissolves them right out, leaving the skin soft and the pores in their natural condition. It will instantly relieve the feverish, sore, stinging, burning, itching, throbbing, tender, swollen, and offensive odor of the feet.

only in the last three years, with good yields and higher prices, that the farmers have had a real surplus of money.

Fed to Hogs.
"The thing that is often overlooked is that the farmers don't sell all they raise. Much of their corn is fed to hogs and cattle, and the oats to the horses. Then the receipts from what he actually sends to market are not all velvet. The cost of production, which has gone up greatly, must be taken out. In addition to this, in many parts of the country, living costs are high. The average farmer has to buy a good deal and pay city prices, plus the freight.

Not a Profiteer.
"If we are to figure as in any other line of business, when you take out income on the farmers' investment, their profits are nowhere as large as some imagine."
"The farmer is not a profiteer. He is today doing well in Nebraska, but his income is not yet sufficient to produce any sudden movement of city folks back to the soil. The motor car for him is a business proposition and not a pleasure vehicle. There are no luxuries in his life, and many of his pleasures are in the things that put his living conditions lower than that of most workmen in the cities."

Will Have Big Melon Feed At Modern Woodmen Picnic
The Modern Woodmen of America of the Second congressional district will hold its annual picnic and outing Saturday, August 28, at Elmwood park, afternoon and evening. A big melon watermelon feed is on the program, with the usual races and contests for prizes, and a ball game, Beech camp against Magnolia camp.
State Manager E. E. Kester will deliver an illustrated lecture on tuberculosis and what the society is doing in Colorado. John F. Harris of Rock Island, Ill., editor of the Modern Woodmen Journal, will address the gathering.

How to Make Your Own Complexion Treatment at Home

A Free Ointment Prescription Does Its Work Overnight.

New York—"It is my own discovery, and it takes just one night to get such marvelous results," says Mae Edna Wilder, when her friends ask her about her wonderful complexion and the improved appearance of her hands and arms. "You can do the same thing if you follow my advice," she says. "I feel it my duty to tell every girl and woman what this wonderful prescription did for me. Just think of it! All this change in a single night! I never tire of telling others just what brought about such remarkable results. It makes the skin transparent, that removed every defect from my face, neck, hands and arms. Until you try it you can form no idea of the marvelous change it will make in just one application. The prescription which you can prepare at your own home is as follows: Go to any grocery and get 10c worth of ordinary oatmeal, and from any department or drug store a bottle of Derwillo. Prepare the ointment as directed in every package of Derwillo. Before applying Derwillo cleanse the skin thoroughly with a good cleansing cream. (Liska cold cream I have found to be the best). The first application will astonish you. It makes the skin transparent, smooth and velvety. I especially recommend it for dark, sallow skin, shiny nose, freckles, tan, sun spots, coarse pores, rough skin, redness, wrinkles and, in fact, every blemish the face, hands and arms are heir to. If your neck or chest is discolored from exposure, apply this combination there and the objectionable defect will disappear. It is so simple, so absolutely harmless and will not produce or stimulate a growth of hair. Since short sleeves are in vogue it is necessary to have beautiful hands and arms and no matter how rough and ungainly the hands and arms, or what abuses they have had through hard work and exposure to sun and wind, this combination will work a wonderful transformation. Thousands who are using it report the same results I have had."

Mrs. G. V. writes: "Oatmeal and Derwillo have worked miracles with my complexion. I had many deep wrinkles and a sallow, rough skin. My hands and arms were covered with freckles. After eight weeks' use of Mae Edna Wilder's wonderful complexion prescription these objectionable defects have entirely vanished. I look ten years younger and advise every girl and woman to try it and feel confident after one or two applications they will use it continuously and be just as favorably impressed with it as I am. I recommend it to all of my friends."

NOTE: To get the best effect be sure to follow the complete directions contained in every package of Derwillo, and do not think that any one can use it, and an inexperienced girl or woman can afford it. Department stores and druggists guarantee that there will be a noticeable improvement after the first application or they will refund the money. It is sold in all cities at all drug counters under a money refund guarantee, including The Standard and McConnell, The Boston and The Merritt Stores.

Letters From Home-Made Father to Son

Literature Has Its Uses, Buy the Home-Made Father Limits Them.
By ED STREETER.
(Author of the famous "Dere Mable" Letters.)

Dear Sun,
Yure letter of the 2nd instandy is in hand. I dont understand why you want to study English all the rest of the time yun he ever leaged. Seems like followin the line o college resistance, as the fello says when he fell down stares. English was about all you knew when you went to college. It seems to bad to come out the same way.
As fer this businis o bein a man o letters, as you call it, judgin by them you send me I'd give up the idear. I just read em all gen. I'd say you had more talent fer bein a collector. It aint that I object to literchore. I don't, cause I owe a lot to it. Yure granfater, who, as I often told you was my fater before me, made me read a chapter in the "Pilgrim's Progress" whenever I was late anywhere. Today I got the reputashun o bein the most punkshun man in town. An Dandy's "Inferno" once saved me from the worst tannin he ever give me—tho it spoiled the book.
My advice to you, my boy, is if you want to make your livin with yure pen come home an raise hogs. There was a time when two-thirds o the folks did nothin but work an one third did nothin at all. Those was the days fer writers. They'd sit around in their fater-in-laws front parlor an scratch away with a fether pen til they piled up a book as big as the Milford city directry. Then the third what didn't do nothin would all read it an fit dools over what they'd writ. They'd make the best discripshun of a sun set.
How to Become a Writer.
That's all changed. If you want to write today you dont shut yureself up with a lot o books. You go over the falls in a bath tub or around the

"You Go Over the Falls in a Bath Tub."

frinstance. He would have made his fortune out o that overcoat affair. Yure cusin Bert Snoppin was over from Milford last week. I dont guess yun know him, he aint been in Milford long. Fust he was a miner. Then he was a carpenter. The work got to heavy fer him so he moved to Milford an set up as a dentist. He's a great sport an shaperen a tack. It makes yure muther figety. She cant tell when he's fumm'n and when he's talkin straight. Like the day he got here he says he needed a rest cause a dentist work got on the nerves so. Yure muther says a man like that went come to no good end.
I didnt know him when he fust came. He used to dress clumsy an had a beard. He says when he took up dentish he had to cut off the beard. It got in his costumers eyes. Now he's as smart a dresser as yun'd want to see. Takin off his beard made him spruce up I guess, hein more out in the public, as it was. He wears cloth top shoes an carries two rist watches. One of em tells Standard time an the other Paduch.
Ragtime.
This businis of savin daylight has created a lot o ill feelin in this seckshun. When it fust came out there was a meetin o all the towns hereabouts. Things went nice til Hurrasho Briggs what was representin Lyvdale got up an says he wasn't going to let Paduch nor no place like it dictate what time it was in Lyvdale. This started the row an everybody set up different time just out o spite. Things is so mixed up now that then Mint Pebble drove over from Lyvdale to Acropolis the other afternoon he found everybody in bed. He went to see Amos Rugg about a boss. Mrs. Rugg stuck her head out the windo an says he warent nutthin but a wutless of ragscalyun to be wanderin round that hour o night.
Besides bein a sport yure Cusin Bert is a great hand at entertane. He plays "Anny Lowry" an "The last o Rosa Summer" something buh-lid on an flute. He used to know "Turkey in the Straw" but he says cigeroots has got him. Coupl o nights ago they had him playin over at the church festival. It made everybody sad cepin old Capin Jurniper what's deaf as a post an doddarin. The Capin was dozin in the back of the room. When Bert was finishin he woked up an says, "I think I hear the wind blowin up a storm." Some thought he said it jest to be cantankerous.
Berts good at tricks too. We ast thing he done was to borry a gold watch from Pooch Frisbee. Then he wraps it up in a hankcheef, lays it on the floor an pounds it with a

Forged Italian Bank Notes Hard to Detect
Rome, Aug. 21.—Newspapers here are publishing warnings against forged Italian bank notes of 1,000 lire, which are being circulated. So admirably have the forgers imitated the real note that the spurious ones are almost impossible of detection.
It is said that some months ago a confidential warning reached the Italian government of a plan of the bolchevik government to forge on an immense scale bank notes of the United States, England, Italy, France, Spain and Greece to pay the soviet's expenditures abroad.

Heavy Rains in Oklahoma And Texas Tie Up Trains
Wichita Falls, Tex., Aug. 20.—At least two railroad bridges were swept away, washouts on several roads took place and a freight embargo was put on by one road as a result of heavy rains in western Texas and Oklahoma along the Missouri, Kansas and Texas railway from Wichita Falls to its terminal point, Forgan, Okl., near the Kansas border. High water in the Red, Canadian, Peace and Salt Fork rivers has resulted. The Salt Fork branch of the Red river reached the highest stage in its history.

Wage Increase to Have Little Effect on Prices

(By International News Service.)
New York, Aug. 21.—An regards to the recent granting of increases to railway workers, the Guaranty Trust company says, that the increase in the prices of foods because of the railroad pay boost will be so negligible as not to be noticed, if any at all, and warns consumers against profiteers who use the increase as an excuse for price jumps.

"The new rates will go into effect this month and the various railroads are now preparing the detailed schedules under which the increases will be applied. It is generally agreed that by its decision the commission has given a great impulse to the process of readjustment in this country, and it is regarded as especially significant for the light which it throws upon the future attitude of the commission toward its greatly enlarged powers and responsibilities under the transportation act of 1920.

Public Should Be Warned.
"The public should be forewarned and forearmed against any attempts to take advantage of the freight rate advance for the purpose of justifying profiteering. While it is true that in the case of some articles and commodities small increases in price may be justified, nevertheless, the amounts which any instance could fairly be added to the present prices are a very small fraction of the whole and, in the case of practically every article or commodity of daily consumption the increases in transportation charges are relatively so small as to be practically negligible."

Millions in Taxation.
"The business interests are convinced that the policy of the commission will lean to the constructive side. In this the commission appears likely to have a stronger public support than heretofore, because of the experiment in government management and the widespread reaction to the prevailing lack of freight equipment. It has cost the people millions in taxation, but there seems no doubt that a wholesome lesson in the importance of an efficient transportation system has been taught during the last two years.

What the effect of the increased rates on prices of commodities will be only the facts of the future can determine. Some of the railroads themselves have undertaken to show that there should be no large in-

What to Use and Avoid On Faces that Perspire

Skin, to be healthy, must breathe. It also must perspire—must expel, through the pores, its share of the body's waste material. Certain creams and powders clog the pores, interfering both with elimination and breathing, especially during the heated period. If more women understood this, there would be fewer self-rained complexions. If they would use ordinary mercolized wax instead of cosmetics they would have healthy complexions. This remarkable substance actually absorbs a bad skin, also unclogs the pores. Result: The fresher, younger under-skin is permitted to breathe and to show itself. The exquisite complexion gradually peeps out, one free from any appearance of artificiality. Obtain an ounce of mercolized wax from your druggist and try it. Apply nightly like cold cream for a week or two, washing it off morning.

To remove wrinkles, here's a marvelously effective treatment, which also acts naturally and harmlessly: Dissolve an ounce of powdered azoxaline in a half pint witch hazel and use as a wash lotion.

Liquid or Plaster

They end corns now in this scientific way

People who know—millions of them—now end all corns in this way.

They apply Blue-jay, either in liquid or in plaster form. It means but a touch and takes but a jiffy.

The corn pain stops. Then the Blue-jay gently undermines the corn so it loosens and comes out.

The modern way
Blue-jay was invented by a chemist who studied corns.
It is made by a laboratory of world-wide repute.

Old-time treatments were harsh and inefficient. Blue-jay is gentle, quick and sure.

Now all corns are needless. All these pains can be avoided. To let corns remain while you pare and pad them is folly.

You can stop a corn ache the moment it appears. You can end a corn completely before it can develop.

Blue-jay has proved these facts to millions. It will prove them to you—and tonight—if you let it.

Quit the old methods of dealing with corns and see what this new way means. Your druggist sells Blue-jay.
