

SUFFS CERTAIN TENNESSEE WILL REMAIN LOYAL

Suffrage Strength Again Proved When Adjournment Motion Is Given Majority of Two Votes.

Nashville, Tenn., Aug. 21.—Suffrage leaders were preparing today to clinch their victory by closing the last parliamentary loophole through which Tennessee's approval of the federal suffrage amendment might be rescinded.

They were confident after the adjournment of the house Friday without a vote on reconsideration of their ability to sweep aside the last obstacle to form a certification of the action of the legislature to Secretary Colby at Washington.

Some parliamentarians including Attorney General Thompson contended that Friday's action was final. Others, including suffrage adherents, however, took an opposite view.

Suffs Show Strength.

Attorney General Thompson contended that Walker's failure to act Friday settled the question of reconsideration, and that the resolution now was ready for engrossing and certification to Washington. Others, however, maintained that the motion stood on the journal as a matter of record and unacted upon, and that to remove all doubt it must be disposed of.

Washington, Aug. 21.—Although ratification of the suffrage amendment is held to cancel all conflicting state laws and constitutional provisions, a statement given out last night by the National Women's party said further legislative or executive action might be needed in several states before adequate election machinery was set up to permit all women to vote in November.

Alice Paul, chairman of the party, wired today to attorneys general in doubtful states asking if the roads to the polls would be open to women as soon as the ratification of the amendment had been proclaimed.

Nine doubtful states—Alabama, Connecticut, Delaware, Florida, Louisiana, South Carolina, Tennessee, Maryland and Vermont—remained to be heard from on the point, as party officials have been informed that adequate steps would be taken in all others, the statement said.

In 30 of the states, it added, full participation was insured by the fact that they already had more or less complete voting powers under state laws.

Vegetable Market Takes Slump in Big Eastern Centers

Washington, Aug. 21.—Potatoes and fruits and vegetables generally reached the season's low price level to date last week, according to a Department of Agriculture market summary issued today. At \$3 a barrel, reached in New York, potato prices to grocers are now lower than they were to be, considering the cost of production, the statement said.

In western cities, potatoes are higher than in the east, and the price range is from \$4 to \$5 a barrel.

Onions at 70 cents a bushel and cabbage at \$20 a ton, the statement said, "are going at radical prices." Canteloupe, watermelon and green tuffs and summer fruits generally have suffered a severe reaction from the high market of spring and early summer.

The first of western boxed apples to reach Chicago are bringing from 2.50 to \$3, against a \$4 price early in the season.

Truth in Fabric Bill Is Given Endorsement At Farmers' Meeting

Salt Lake City, Aug. 21.—Endorsement of the truth in fabrics bill, an extension by congress of credit to Germany and a plea for co-operation among the sugar beet growers, were the main features of the western state conference of the American Farm Bureau federation, which met at the hotel Utah today.

A motion was adopted approving the enactment of the true fabric law and asking representatives in congress to do all they can to effect its passage. The conference also passed a motion favoring extension of German credits to enable that country to purchase agricultural products.

Guy Silver of Washington, D. C., representing the American Bureau federation, reviewed the wool situation as it exists in America and foreign countries and read reports showing that at present there is no wool shortage but, on the contrary, a surplus of low grade wool, which is one of the principal causes of the present demoralization of the wool market.

He visited Mayor Smith and other democratic Omahans and eagerly sought information on the state political situation.

"I am not in a position just now to make any statement on the Nebraska situation," said Mr. Thompson, "but I am confident that if the people of the country could express themselves just now on the league of nations, regardless of their party affiliations, the result would be in favor of the league."

Mr. Thompson said he intended to get into the front line of the fighting.

Noted Theatrical Man Called in Probe of "Stage Tea" Drinks

New York, Aug. 21.—Arthur Hammerstein, theatrical producer, was the principal of some 200 witnesses summoned to appear today before a grand jury investigating charges that he caused distribution of whisky to "a surprised, but delighted, audience" at the opening performance of a musical comedy Tuesday night.

Others subpoenaed included dramatic critics, press agents and chorus girls, who are alleged to have passed out tiny one-ounce bottles, which Mr. Hammerstein claimed contained "stage tea."

J. S. Shelvin, federal prohibition enforcement agent, said the government had one bottle which, he said, contained about four drops of pure whisky, to offer as evidence.

The witnesses were examined and were ordered to appear again next Monday, when the case may be presented to the grand jury.

KLINE MUST PAY \$4,500 ALIMONY TO HIS EX-WIFE

District Court Order Directs Settlement by Soft Drink Dispenser Who Inherited \$40,000.

Edward G. Kline, soft drink dispenser, after a year and a half of a stormy financial and marital career, was ordered Friday in district court to pay \$4,500 to his divorced wife, Minnie Kline, "in settlement in full of all claims," and to place \$1,650 in a trust fund to be paid \$25 monthly for support of his 14-year-old son, Lyle.

Kline inherited \$40,000 a year ago at the death of his father in Iowa. His wife divorced him. Adelbert McLaren, 2820 Seward street, sued him for \$10,000 for alleged alienation of affections of Edith McLaren. Kline married Claramond Hummel in Chicago last May. Claramond had the marriage annulled when she discovered she had not been divorced from her other husband the required six months.

Minnie Kline then sued for half her divorced husband's fortune, or \$20,000. It is claimed they compromised on the \$4,500, but the compromise was contested.

Kline was ordered to pay her \$300 attorney's fees and \$20 a month for the support of their son. On May 24 Minnie Kline appealed to the court \$20 was not sufficient.

And now comes the action of the court Friday.
