

MESOPOTAMIAN EVENTS MAY LEAD TO BRITISH WAR

Country Is In State of Anarchistic Rebellion Against English Rule, Officials Report.

London, Aug. 21.—Fears are expressed here that recent events in Mesopotamia will involve Great Britain in a costly military campaign. Official reports show that the country is in a state of anarchistic rebellion against the British administration, particularly northeast and west of Bagdad and between Bagdad and Mohul. British garrisons have been invested, railways cut and British officers murdered. According to official accounts, the situation is much more serious than has been revealed in the official dispatches. Only last night the India office issued a statement confirming the disaster to a British force in Mesopotamia, last Sunday. It adds that the wife of Mr. Buchanan, an irrigation officer who was killed, was reported to be safe and being well treated. Her child is believed to be with her.

Arabs Aid English.
The news contained in the Bombay dispatch telling of the killing of the Britishers was the first intimation that Arab levies were fighting on the side of the British. Already there are 70,000 British and Indian troops in Mesopotamia, and 10,000 or more with artillery are on their way thither from India, but apparently many more such reinforcements will be required to restore order.

The revolt is presumed to be against the methods of the British administration, which are wholly in the hands of the British political and military officers. Under the mandate Mesopotamia Great Britain undertakes to establish local autonomy, and the Arabs complain that they are allowed no share in the administration.

French Bail in Syria.
The liberal press here complains bitterly of the alleged failure of the French government in Syria and of the British in Mesopotamia to carry out their undertakings and establish native governments, and there is strong sentiment expressed against fighting the Arabs who were Great Britain's allies in the great war.

The British government has appointed the brother of Prince Feisal, the king of Syria, as the ruler in the British sphere and summoned Arab representatives to meet at Bagdad to form a constitution for the Arab state in accordance with the mandate. However, under the existing conditions, with the Arabs apparently trying to invest Bagdad, there is considered to be little prospect of such an assembly meeting.

The moderate organs of liberal opinion while deprecating involving the country in a new war in Mesopotamia, admit the need of restoring

Widow Identifies Body as That of Missing Doctor

Mrs. Emma Campbell, widow of Dr. Harry E. Campbell, one-time famous Pittsburgh physician, photographed in New York City, where she identified the body of her husband.

Dr. Campbell three years ago was one of the leading physicians in Pittsburgh. He left Pittsburgh at that time and went to New York, where for three years he worked as a dishwasher in a Broadway restaurant.

He was found dead in a New York rooming house. Death was due to natural causes. Overcome by grief, Mrs. Campbell was unable to throw light on the mysterious motive which impelled her aged husband to quit his practice to work as a menial in New York.

Freighter Sinks With Loss of Life After Colliding With Another Vessel In Lake.

Sault Ste. Marie, Mich., Aug. 21.—The lives of 25 persons, one of them a woman, are believed to have been lost last night when the steamer Superior City, a freighter, sank four and one-half miles northeast of Whitefish Point in Lake Superior after colliding with the steamer Wilbur J. King.

Four members of the crew, including Capt. Edward Sawyer of Albion, Mich., were saved. Names of the missing could not be learned today, as all records of the boat were lost. The missing woman was the wife of the second engineer, Captain Sawyer would make no statement except that the night was clear.

Walter Richter, boatswain, one of the survivors brought here by the Turner, is in a hospital, seriously injured.

The captain's alarm signal rang just two minutes before the crash, said Richter. "If we had had two minutes more no lives would have been lost. The King struck us just aft of amidships on the port side and the impact took away the entire stern. Several boats were torn away while the men were attempting to launch them."

Richter reached a floating hatch cover and later was rescued by the Turner. Richter's home is in Lorain, O.

Other survivors were Gal Lehn of Chicago, second mate, and Peter Jacobson of Cleveland, wheelman.

The increased charges at issue amount to about 18 per cent, according to E. W. Heus, president of the Kansas City Live Stock exchange.
