

HARDING DEFIES GOVERNOR COX TO PROVE CHARGES

Declares Republican Party Invites Fullest Investigation Of Campaign Funds—Ridicules Democratic Story.

By PHILIP KINSLEY.
Chicago Tribune-Omaha Bee Leased Wire.
Marion, O., Aug. 23.—"Let him show it," was the reply of Senator Harding today to the charge of Governor Cox that the republicans had collected \$15,000,000 campaign fund and that many of the contributions were being made in violation of the \$1,000 limit announced at the beginning of the campaign.

"You may say that I join Chairman Hays in inviting investigation of any such charge," he said. "We court the fullest inquiry."

The senator ridiculed the \$15,000,000 story and said that he understood it cost about \$2,000,000 or \$3,000,000 to put on a good national campaign at this time.

The republicans did have a \$2,000,000 fund, he said, but this has been expended during the last two years, and the campaign is now being run on contributions that are coming in. He said that the fact would show that these contributions were not heavy and that the committee was having a hard time to finance its activities, as Chairman Hays has built up a pretentious organization which is functioning in states that have not been fully organized heretofore.

Cites Past Campaigns.
The senator mentioned some campaign costs of other years. The first McKinley campaign cost \$2,000,000. Mark Hanna had collected \$3,000,000 and turned back \$1,000,000. The second McKinley campaign cost more and Hanna had to "go on his knees," the senator said, to get enough to run it. Since then, he pointed out, the prices of everything have risen. This applies in particular to paper and clerical hire.

The senator said that, so far as he knew, the committee was adhering to the \$1,000 limit in contributions. He was asked if the committee would return contributions if it was out of a bank, for instance, took out a number of subscriptions in the names of employees. This, he said, was hypothetical and unlikely. If Governor Cox has any such information, let him come forward with it.

Suffrage Costs More.
He pointed out, however, that the admission of the women into the voting meant an expenditure of more money and effort in educating them, getting literature into their hands, organizing, etc.

The senator spent the day with Col. George Harvey and Capt. Joseph Medill Patterson. He is working out a little address to be delivered to the actors and actresses who will come here next Tuesday morning from New York. The advance man of the theatrical league arrived this morning and perfected arrangements with the Marion Civic association for this reception. All Marion will point in this entertainment.

Two Policemen Are Killed, In Morning Raid of Negro Club

Chicago, Aug. 23.—Policemen William Hennessy was killed and Policeman James Mulcahy died at a hospital early today of wounds inflicted when the two were attacked in the Beaux Arts club, a "black and tan" cafe in the south side black belt.

Police arrested three men who they say fired the shots and are holding more than 100 of the 200 men and women, both white and black, who were in the place.

Hirschey Miller, a municipal court bailiff, one of the three suspects arrested, confessed, police say, that he shot both policemen.

Man Files Suit for \$1,000 for Alleged Attack on His Son

The filing of a suit in district court yesterday by Clinton Mullane for \$1,000 in behalf of his minor son, William T., against Fred Woods, reverts back to an alienation suit brought by the elder Mullane against Woods and the divorce case between the Mullanes.

It is alleged in a petition filed by Mr. Mullane that Woods assaulted the younger Mullane, striking him on the head and chest. One lot separates the present homes of Mr. and Mrs. Mullane, and it is alleged that the Mullane boy was visiting his mother's house when attacked by Woods.

End Hearing on Application For Higher Shipping Rates

Washington, Aug. 23.—Hearings on the application of about 60 Great Lakes and coastal steamship lines filed with the shipping board for rate increases in conformity with advances granted to railroads were ended today. The board plans to act on the applications before next Thursday, when rail rates become effective.

Representatives of carriers and shippers testified, the latter making no protest against a general increase for water carriers, but arguing that part of the additional revenues go for "increased facilities."

Returns From Lake
Arthur Rosenblum, deputy county attorney, has returned from Lake Okoboji. He was accompanied by Mrs. Rosenblum.

Jack and Olive Sail

Mr. & Mrs. Jack Pickford. Jack Pickford, brother of "Our Mary," and his wife, Olive Thomas, both famous in the film world, photographed aboard the steamship Imperator, which sailed from New York recently. The Pickfords are going abroad for a short pleasure trip.

WORLD CONGRESS GREAT BRITAIN OF DRYS TO MEET WILL RECOGNIZE IN WASHINGTON EGYPT VERY SOON

International Meeting Against Alcoholism to Hold Annual Convention Week of September 31.

Washington, Aug. 23.—For the first time since its organization in 1880, the International Congress Against Alcoholism will hold its annual convention this year outside of Europe, meeting here September 21, and remaining in session for a week, under the auspices of the State department.

Sessions will be held in the Hall of the Americas of the Pan-American union building and the civic center auditorium of the Central high school, with an official reception to delegates and members of congress in attendance at the capitol on the night of the opening day, where a pageant illustrating America's progress in the world-battle against alcohol will be presented.

The prime minister of the Netherlands, Jonker Charles Buijs de Boerbroek, of The Hague, as president of the permanent international committee of the congress, has issued invitations to every country with which the United States maintains diplomatic relations, 31 of which already have accepted. The congress, which is a strictly scientific body, engaged in the study of the effects of prohibition in the United States. It will also examine the results of the war in connection with alcoholism in the various countries.

The proposal for beer and light wines in the United States from the economic and political view points, will be discussed by Dr. Harvey W. Wiley, the pure food expert; legal aspects of prohibition by Attorney General A. Mitchell Palmer and war prohibition in its relation to the war activity in the United States by Secretary of the Navy Daniels.

Mrs. Ella A. Biele of Brooklyn, N. Y., a candidate for congress, will speak on women's relation to the anti-alcohol movement in America. Alcohol and criminality will be discussed by Dr. Ley, professor of psychiatry at the University of Brussels; wine as a cause of alcoholism by Professor Dr. P. Amaldi, director of the Hospital for the Insane at Florence; beer as a cause of alcoholism, by Mme. Dr. Dazynska of Warsaw; the alcohol problem in Great Britain, by Theodore Neild, J. P., England, and the fight against alcoholism in France by M. J. Mettel of Paris.

Chief of Police and Escaping Negro Are Killed in Gun Battle

Winston Salem, N. C., Aug. 23.—Chief of Police Matthews of Walnut Cove, N. C., and Walter Martin of Madison, are dead and a negro is seriously wounded as the result of a battle in the road near Walnut Cove between sheriff's posse and three Madison, N. C., escaping prisoners. The shooting was the result of a row at a carnival dance hall at which observers assert the negro insisted on dancing with white girls. Several Madison men, including Martin and the negro, were arrested. En route to the mayor's office they escaped in an automobile.

Chief Matthews formed one of the posse, which overtook the fleeing prisoners near Walnut Cove. A summons to surrender met with a fusillade and Matthews was shot through the stomach. Crumpled in his seat he shot and killed Walter Martin. The negro was trailed for a couple of miles by a trail of blood but was lost in a swamp.

Larsen Plane Completes Transcontinental Flight

New York, Aug. 23.—The Larsen all-metal airplane arrived last night at the flying field at Central Park, Long Island, completing the round trip transcontinental flight to Los Angeles.

The plane was piloted by Bert Acosta. Among the passengers were Eddie Rickenbacker, J. M. Larsen and B. E. Allene of Cleveland.

COX DEMANDS INFORMATION ON G. O. P. FUNDS

Democratic Candidate Says Statement of Hays Not Satisfactory Reply To Charges.

Dayton, O., Aug. 23.—A request on Will H. Hays, chairman of the republican national committee, for information regarding republican campaign funds was made by Governor Cox, who declared that Mr. Hays' statement yesterday was not a reply to the governor's charges that the republicans were raising a fund of \$15,000,000.

"I was very much gratified," said Governor Cox, "that Mr. Hays made his response, but as I read his statement, it's no denial. He says the irregular preliminary estimate is \$3,000,000. That doesn't mean anything. I want Mr. Hays to tell us into how many subdivisions the country was divided by the republican managers. I want him to tell us how many subdivisions there are and what territories each covers, and incidentally, I want him to tell what the quota was that was imposed on each district."

The governor received a telegram from Senator Reed, democratic member of the senate investigating committee, saying the committee would resume its inquiry tomorrow at Chicago, and that everything essential would go into "careful and thorough investigation."

Governor Cox will speak next Wednesday at Princeton and Evansville, Ind., at Pittsburgh on Thursday, New Haven, Conn., on Friday and in New York on Saturday.

Governor Cox was informed of legal made tonight by Senator Harding of the \$15,000,000 fund charges. The governor said that he had no comment to make at this time.

WOMEN JURIES TO MAKE WINDY CITY SAFE FOR HUBBIES

Chicago, Aug. 23.—Chicago's unenviable record of jury leniency toward women murderers in general, and husband killers in particular, which for years has kept the criminal court judiciary in a state bordering on frenzy, is rapidly nearing an end, according to a statement by Judge Frank E. Johnston, jr., who says juries of the near future will be composed of men and women.

"And when women judge members of their own sex," remarks the judge, "it is a sure thing that no mere sentimentality will effect the prisoner's release. Women juries will vote to convict a guilty woman every time and we intend to make Chicago safe for husbands."

The ratification of the suffrage amendment by the required number of states duly qualifies women as legal voters. The statute relative to the choice of jurors states that they shall be chosen from electors possessing necessary legal characteristics. The suffrage amendment places women on a legal par with masculine voters.

Chicago attorneys are practically unanimous in agreeing that women are now eligible to serve in the jury box.

"However," Judge Johnston says, "there are a great many difficulties in the way of having mixed juries and very likely the whole matter will have to be worked out by experimentation."

Then there is the question whether women are too inclined to permit their emotion to guide their decision as to make them capable of meting out justice. Prominent women attorneys interviewed believe women would display leniency, especially toward men, and that the experiment might work well in civil cases if judges were careful to explain the points of law. However, the matter is to be threshed out by jury commissioners this coming week.

West Virginia Coal Mine Power House Is Destroyed by Dynamite

Huntington, W. Va., Aug. 23.—After an unsuccessful effort had been made to decoy the state police from the mine by a telephone message describing disorder at Rawl, two miles distant, according to officials of that organization, the power house of the Borderland Coal Corporation's mine No. 2 was blown up by dynamite. There was no loss of life. The Borderland company mine have been operating continuously since the strike of coal miners in this region. Damage is estimated at \$5,000.

No fatalities resulted from the pitched battle between miners and mine guards at Mohawk, McDowell county, Saturday, according to reports reaching here.

Marshal Foch Plans Visit to United States

Metz, Aug. 23.—Marshal Foch will visit the United States when the European situation permits, he said. The French knight, James A. Flaherty of the Knights of Columbus, in response to a formal invitation extended by Mr. Flaherty.

Marshal Foch was the principal speaker. Capt. Andre Tardieu, another speaker, caused some surprise when he said:

"You may not know that France provided you with 80 per cent of your airplanes, 60 per cent of your guns and 50 per cent of your war supplies."

PHYSICIANS JEER GLAND THEORY OF KANSAS DOCTOR

Records Show Exponent of "Elixir of Youth" Formerly Arrested Under Dry Laws.

Chicago Tribune-Omaha Bee Leased Wire.
Chicago, Aug. 23.—The fame of Dr. J. R. Brinkley, exponent of the Toggengut goat gland, apparently was on the decline last night.

Following exposition of the views of prominent physicians regarding Doctor Brinkley's claims, numerous others have come forward with statements regarding the practicability of the "goat gland elixir of youth."

In addition, a number of other facts have come to light regarding Doctor Brinkley and his activities.

For instance, at Junction City, Kan., the court records there show that Doctor Brinkley—while ostensibly curing scores of various ailments in his hospital—was arrested on February 27 on a charge of violating the Kansas state liquor law.

On March 20, Doctor Brinkley appeared before District Judge R. L. King at Marion, Kan., and entered a plea of guilty to the charge of violating the prohibition law. For this offense he was fined \$300 and sentenced to 90 days in the county jail.

Further search of the records, according to Doctor Francis H. Sheppard, had failed to disclose any license issued to Doctor Brinkley.

Legal action, it was predicted, would be started in the next few days. Among the physicians who disputed Doctor Brinkley's claim was Dr. Arthur Dean DeVan, former president of the American Medical association, who characterized the transplantation of goat glands as "rot."

"It is a scientific fact," he explained, "that any foreign gland introduced into the human body must disappear within a short time. This is as elementary and uncontroversial as that two and two are four."

According to Dr. Orlando F. Scott "gland transplantation cannot possibly do any good. Rather it will do harm because of the mental depression that is certain to follow when the patient realizes he has been fooled. To mislead a person suffering from disease is criminal."

3,000 Red Prisoners In Parade In Warsaw

Warsaw, Aug. 23.—(By The Associated Press.)—Warsaw yesterday witnessed a sight which gave the population more confidence than any incident since the Polish counter-offensive began. It was a procession of 3,000 prisoners, followed by six bolshevik cannon, drawn by skittish horses in rope harness. The horses were the size of American Indian ponies. The Russians and their equipment were taken Friday north-west of Warsaw. The prisoners were indifferent. Some were mirthful. Others gazed curiously upon the crowd.

The allied military observers consider that the Poles have won a victory in their present offensive, but they say that the danger has not passed entirely. The Poles have advanced rapidly at various points where the reds have retreated. Sometimes they are out of contact with the enemy. Northwest of Warsaw the bolsheviks are reported to be showing more of an inclination to fight.

Italian Premier Has Promised Socialists To Recognize Soviets

London, Aug. 23.—That Premier Giolitti of Italy waited to talk with Premier Lloyd George of Great Britain before replying to the American note relative to withholding recognition from soviet Russia is pointed out as significant in a Lucerne dispatch to the London Times.

Premier Giolitti, the dispatch says, is in full agreement with President Wilson as to the maintenance of Polish independence, but has given Italian socialists a pledge that he will grant recognition to the soviet government. There is reason to believe, the dispatch adds, that Mr. Lloyd George approves the Italian position as to the urgency and expediency of extending such recognition as soon as peace is concluded between Poland and Russia.

"The Italian point of view," it concludes, "is that the soviet government cannot continue to exist following the restoration to peaceful conditions in Russia."

German Leader In London To Meet With Lloyd George

Paris, Aug. 23.—Dr. Walter Rathenau, German industrial leader, arrived at Lucerne on Sunday and Konstantin Fehrenbach, German chancellor, is expected there today, according to information received at this city. Dr. Fehrenbach is understood to have asked Premier Lloyd George for a conference.

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over 20 years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pains. Put in boxes of 12 tablets cost less. Druggists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacturing Monoaceticacidester of Salicylic acid.

JAPAN AND GREAT BRITAIN STIRRED OVER JONES LAW

United States Shipping Act Cause of Grave Concern To Trading Circles, Reports Say.

Chicago Tribune-Omaha Bee Leased Wire.
Washington, Aug. 23.—Advices have reached Washington that both Great Britain and Japan are much exercised over the new United States shipping law.

The information from Tokio is that the act, known as the Jones law, is a cause of grave concern in Japanese trading and shipping circles, in view of what is felt to be its possible menace to cargo transportation of Japanese steamship companies operating service to the United States. Provisions of the law in favor of merchandise carried in American vessels is being regarded abroad as a measure aimed at the expulsion of the Japanese and British shipping from American waters, and the opinion is held that enforcement of the law would exclude these foreign interests.

Feeling in the British shipping world is said to be running high, one message having been sent to interests here from England to the effect that the new shipping law, if enforced, will do more to disturb British-American relations than any law now on the American statute books.

"Certain shipping interests in Japan," says the statement, "have cancelled their decision to build an aggregate of 1,000,000 tons of shipping, and the Jones merchant marine law, which has placed the flag on the high seas to stay, is given as the main reason for this retrenchment. It is reported that Japanese shipping interests are aroused, and will petition their government to secure

an amelioration of the provisions of the Jones law. All of which is a pretty healthy sign that the national republican legislature put over a big thing for your Uncle Samuel when the Jones merchant marine law was passed."

Evening Gown Worn By Mrs. Wilson Placed In National Museum

Chicago Tribune-Omaha Bee Leased Wire.
Washington, Aug. 23.—An evening gown worn by Mrs. Woodrow Wilson has just been added to the historic collection of gowns worn by the wives of the presidents in the United States national museum. The dress, mounted on a mannequin, is of black velvet, trimmed with jet and lined with electric blue silk. It was worn at a Pan-American ball in Washington just after Mrs. Wilson's marriage to the president.

Mrs. Wilson, it has been learned, arranged the gown on the figure herself, draping it to her own satisfaction. The figure has been placed in a glass case and completes a collection of gowns worn on historic occasions by wives of the presidents from the time of Martha Washington.

Eight Killed When Electric Train Hits Big Passenger Truck

Camden, N. J., Aug. 23.—A Pennsylvania railroad electric train struck an auto bus containing 15 persons here last night, killing eight of the occupants and injuring four others. The bus was carrying passengers to Fairview, a suburb. It had halted while a steam train passed south. The driver, it is said, evidently mistook the waving of a flag by the crossing watchman as a signal to proceed, and started across the tracks just as an electric train came rushing north. An 18-year-old girl and two babies were tossed into the railroad station and were dead when picked up. Two men and three women also were killed.

BOLSHEVIK ARMY SENDS WIRELESS CALLS FOR HELP

Interrupted Messages Ask for Ammunition and Supplies—Rear Endangered by Polish Advance.

By The Associated Press.
Warsaw, Aug. 23.—The bolshevik army northwest of Warsaw, between the Vistula and Prussia, are sending wireless appeals for help. The intercepted messages reportedly have asked bolshevik headquarters for ammunition and supplies.

The bolsheviks wireless repeatedly has requested information concerning the location of these troops, the rear of which is endangered by the Polish advances.

The vanguard of this red army has reached points about 100 kilometers south of Danzig, so near the Camp Grappe region around Graudenz that the French officers advised the American typhus expedition to move to Danzig. This the Americans did. The American consulate, which moved from Warsaw to Graudenz when Warsaw was threatened, also proceeded to Danzig on the advice of the French.

Military authorities announced that the Poles have captured 35,000 prisoners today in the counter attack against the bolsheviks. Many guns, thousands of rifles, hundreds of machine guns and munition carts and great number of horses also have been taken. Thousands of Russians are thought to be cut off in the forests awaiting an opportunity to surrender.

Among the 300 bolshevik soldiers killed in the fighting at Mlaw were found, it is claimed, a German officer and several German soldiers.

Lighting Fixtures—Burgess-Granden Co.—Adv.

Brandeis Stores

SETS THE PACE FOR GROWING OMAHA

Suits of Authenticity for Misses and Small Women

We are now showing copies and originals from Paris and the leading fashion artists of this country.

No expense has been spared to uphold our reputation of being the first to acquaint the women of this city with the new suits for Fall, 1920.

A Touch of Fur for Smartness
Fur lavishly applied enriches the effectiveness of advance suit modes, and the materials are

Duvet de Laine, Velours de Laine, Tricotine, Chamoistyne, Peachbloom

And for colors, these lovely creations for 1920 cling tenaciously to the various charming shades of brown.

Brandeis Stores—Second Floor—West
