

OBJECT TO RINE AS RECEIVER OF LOAN COMPANY

Stockholders Allege Appointee Is Close Personal Friend Of One of Principal Organizers Of Concern.

Noah Peterson of Stewart, Neb., representing 12 stockholders of the Missouri Valley Cattle Loan association, came to Omaha yesterday to protest formally against the appointment of John A. Rine, former city attorney, as receiver of this company, which was declared bankrupt by Federal Judge Woodruff two weeks ago. Mr. Peterson alleges that Jesse McNish, one of the principal organizers of the company, and Mr. Rine were schoolmates at Fremont and are also close friends. "I and my friends have invested too much hard-earned money in the Missouri Valley Cattle Loan company to overlook any details," said Mr. Peterson. "The stockholders are going to fight to the last ditch." A. L. Kreis, general manager of the Merriam Potash Products company, which grew out of the William Berg Potash company, asserts that the McNish, who is involved in the cattle loan proceedings, is W. A. McWhorter, one of the promoters of the William Berg Potash company and other companies. Court records show that the William Berg company was declared bankrupt following investigation by federal officials.

Keeping Healthy in Broiling Sun

When head feels heavy or stomach is acid, get quick relief with Dr. Caldwell's Syrup Pepsin.

In spite of the lighter foods we eat during summer months, it is the season of greatest dyspepsia and constipation. Many find it difficult to stand the heat. They exercise little and are always tired and half-sick.

It is good policy to take plenty of ripe fruit and vegetables, lots of cool, clear water and walks when the sun has set. But with all these precautions it is often impossible to regulate the daily elimination, with the result that thousands suffer from constipation, indigestion and similar ills.

There is nothing better for clogged-up bowels, for a stomach that refuses to work, than the well-known combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. It is America's standard relief for constipation. It has the great merit of being sure to act, yet acting mildly and without griping.

Thousands of mothers give Dr. Caldwell's Syrup Pepsin to infants, and it is especially popular in hot weather. Mrs. E. C. Wilson, who lives in Hugo, Okla., where the heat in summer is intense, is the mother of eight children. All of them, and including herself, maintain their health in spite of enervating heat by frequent use of Dr. Caldwell's Syrup Pepsin. See what it will do for you.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

The New Styles of 1920

Inspired From Days of Long Ago Individual and Distinctive In Line

TO WHOM do we owe homage for this era of individuality in dress? Time was—and not so long ago—that women considered it to be in good taste to wear clothes like or similar to those of every other woman. Those who did try to express their personality were considered eccentric and looked upon with a more to be pitied than a censured attitude. Times have changed. Women have changed. Today women are wide awake to the meaning of self-expression in dress—and designers, realizing that their success depends upon giving women what they demand, are concentrating all their creative ability on individual modes for individual women.

Suits Are Most Fashionable For Fall

Distinctive suits in the new, correct styles. This early showing features a goodly collection of handsome suits which typify the smartest styles, the choicest fabrics and the finest tailoring—and almost every day adds new arrivals to swell our showing. Of special interest are the

New Style Lines New Trimmings New Materials

New, Separate Skirts

A splendid showing of new separate skirts of beautiful woolen plaids, plain serges. The styles shown are the smartest and are in both regular and extra size, all neatly tailored and moderately priced.

Dresses Charmingly Styled

But this is not to be exclusively a suit season. One piece dresses are attracting equal attention. And the modes displayed are positively wonderful. If one looks best in a straight line dress she may wear it and feel assured of being correctly attired. If a dress of softer outline is most becoming one of the gracefully draped or tunic models would be the logical choice. For the street there are Tricotines, Serges, Duvetynes, Tricolettes and Jerseys. For afternoon, distinctive Satins, Charmouses, Tricolettes, Duvetynes, luxuriously trimmed.

Coats Of Character

Original designing. There's character in every fold of this season's coats—there's character in the large collars of cloth or fur, in every row of stitching and buttons. Materials are rich in weave—Lustrola, Frost Glow, Silvertone, Tinseltone, Duveltyne, Marvella, Siberian, Peach Bloom. Colorings are rich—Victory, Walnut, Mallard, Titian, French Blue, Deepest Browns and Navys. Fully 50 per cent of the coats are trimmed with fur—squirrel, kolinsky, nutria, raccoon. And just as worthy of attention as the outside are the linings of these coats—exquisitely patterned silks in original colorings.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and no matter how much dandruff you have, this simple remedy never fails.

THE FORD THIEF

Won't Touch Your Car When He Finds Your Manifold Locked With the

Ford-A-Lock

The advantage of this device is four-fold. It saves your car from thieves and joyriders—it makes theft insurance unnecessary—it will pay for itself every few months in the gas it saves—and it prevents carburetor trouble.

The manifold is a wonderful improvement over the ordinary Ford manifold. It provides a fresh air intake, automatically regulated to all engine speeds and a scientifically constructed mixing chamber in which every atom of gas is broken up and mixed with its proper air proportion.
