

America Demanding Action, Not Words, Roosevelt Declares

Salt Lake City, Aug. 27.—America's demanding action, not words, something definite and concrete in

the way of a constructive program, declared Franklin D. Roosevelt, democratic vice presidential nominee, in an address at the Mormon Tabernacle. America wants a real rule of the people, not a rule for the few and by the few, he said.

Referring to the league of nations, Mr. Roosevelt declared that if the democrats were elected to office in November "the league will be

ratified within 60 days after they take office." He said he was convinced the American people will declare themselves for the league at the coming elections so as to make impossible a repetition of the horrors of 1914, and that republicans and democrats alike will help speed up the ratification.

Mr. Roosevelt declared the document is designed to bring the world back to a peace footing and to keep men out of war. "I am against all wars," he said, "and I am anxious to see the league adopted and put into force."

HOT DISCUSSION ON PROPOSAL TO EXCLUDE JAPS

Measure Similar to One Regarding Chinese Put Forward at Meeting of League in Southwest.

By The Associated Press. Denver, Aug. 27.—A proposal that the United States adopt a Japanese exclusion act similar to the measure now in force regarding Chinese led to a heated debate in the convention of the League of the Southwest here Thursday. The discussion will be continued tomorrow.

Prof. E. S. Parker, instructor in the Manual Arts High school of Los Angeles, opposed the resolution.

Mr. De Motte declared that the Japanese were a menace not only to California, but to the entire nation. He declared that one-fifth of the area of the Imperial valley was farmed by Orientals and that the birth rate among Japanese was making great increases in the number of them in California, which he estimated at 87,000. He questioned the loyalty of the Japanese, and declared that a definite plan was under way to "Japanize" America.

Professor Parker declared agitation for exclusion of Japanese was "a foot ball to be played with by California politicians." He defended the Japanese as thrifty and necessary in agricultural communities which, he declared, Americans were deserting for cities.

SUGAR PROFITS REACHED HIGHEST MARK DURING 1917

Report of Tariff Commission Shows Average of 40 Cents Per-Hundred.

Chicago Tribune-Omaha Bee Leased Wire. Washington, Aug. 27.—The United States tariff commission in a report on refined sugar issued today says that profits and returns on productive investment in sugar in the United States were the highest in 1917. The report shows that, averaging by refineries, they were 10.6 cents per hundred pounds in 1914, 40 cents in 1917, 13 cents in 1918 and 31.6 cents in 1919. Reckoning by average poundage, the variations in returns on productive investment were 8.64 per cent in 1914, 28 per cent in 1917, 10.32 per cent in 1918 and 19.67 per cent in 1919.
