MISS DURUINY DALTON

New York—When Miss Dorothy Dalton, the beautiful actress who was selected for the leading role in that mammoth New York production, "Aphrodite," was questioned as to the secret of her phenomenal success, she unhesitatingly said, "My complexion." When asked further details she explained: "Every one of my friends always raved about the texture and coloring of my skin, and I have no doubt but that my first engagement was made possible through the reputation I had acquired for a beautiful complexion. Managers are like ordinary mortals, they admire a beautiful skin as much as anytirl or woman can have is a beautiful skin and complexion. It is easy to have this if one will spend only a little time in taking care of the skin. A girl may have irregular featrues, but if she possesses a beautiful omplexion she will attract attention anywhere. I am slways glad to bell any girl or woman just how she may possess a skin like mine. Here is the recipe: Night and morning cleanse the skin first with warm water, then apply a good cold cream (Liska cold cream I have found to be the best): after massaging it into the skin take off the superfulous erseam with a soft cloth. Then before going out during the day or evening I apply Derwillo, a simple tollet preparation which can be purchased at the toilet or the summer of the summer of

Beauty of the Skin

Massage this sweetly fragrant lotion into the face, neck, arms and ands each day, then shortly note the beauty of your skin.

Famous stage beauties use lemon uice to bleach and bring that soft, clear, rosy-white complexion. Lemons have always been used as a freckle, sunburn and tan remover.

M. Selleck roved the raging main during the days when pirate ships were being hunted. The greatest dread was the possibility of being attacked by these pirates, the desperadoes of the sea. It was the custom for the pirate boat to draw

against them.

When Mr. Selleck took passage at the age of 13 on a freighter plying between the states and Cuba, he put in at a Cuban isle with a load of lumber, his boat to return with a load of sugar. He witnessed a pirate boat brought in under a crew of a Spanish man-of-war. He recalls here were about 15 pirates, all longbearded and with long hair. The sails of the pirate boat were bullet-ridden and the pirates, he remem bers, were a "hard-boiled" lot.

End of the Pirates. "We were told that these pirates had their rendezvous in the Isle o Pines," said Mr. Selleck. "We were also told that the pirates were to be put to death according to a Spanish custom of the straight-jacket and dripping water on their heads. It was understood that this was the last pirate boat brought in by the Spanish, because reports of the terrible death penalty inflicted fright ened the pirates from the seas."

Who Tells How Organic Iron Like Nuxated Iron Helps Build Rich Red Blood, Strengthen the Nerves and Make Tired, Worn-out and Run-Down Men Look and Feel Years Younger.

He may be in his thirties or he may be close to sixty but no matter what his years, a man looks and feels old when the iron in his blood runs low. His strength slips away and his vitality dwindles, he no longer tackles his work with the old-time vim and energy, and he lacks the endurance to put in long hours. The lines of care and worry creep into his face, his skin loses its healthful glow and becomes sallow, sagging and

wrinkled. To all appearances he is an old man though still young in years. Nature is giving him her warning signs that he lacks sufficient iron in his system to build fresh energy, strength and endurance, to keep his body healthy, his nerves steady and his mind clear and active and unless he quickly replenishes the iron in his blood, he steadily becomes more nervous and weak until the final breakdown comes. How to Lose Your Tan, Freckles or Wrinkles

A day's motoring, an afternoon on the tennis court or golf links, a sunbath on the beach or exposure on a water trip, often brings on a deep tan or vivid crims son or, more perplexing still, a vigorous crop of freekles. A very necessary thing then is mercollized wax, which removes tan, redness or freekles quite asily. It literally peels off the affected akin—just a little at a time, so there's no hurt or inconvenience. As the akin comes off in almost invisibe flaky particles, no trace of the treatment is shown. Get an ounce of mercollized wax at your druggist's and use this nightly as you would cold cream, washing it off mornings.
