

BELFAST RIOT RENEWED AND FOUR KILLED

Unionist Quarter Scene of Serious Disorders—Troops Fire to Clear Streets—Young Woman Wounded.

CURFEW LAW WILL BE INTRODUCED TUESDAY

Disturbance More Violent Than Any Yet Experienced in City—Shipyard Employes Attacked on Way to Work.

By The Associated Press. Belfast, Aug. 30.—Rioting and destruction of property was renewed in this city early this morning, the unionist quarter being the scene of serious disorders.

Shipyard employes, who were unarmed, were on their way to work at 8:30 o'clock this morning when they were attacked, it is charged by the police, by Sinn Feiners and shooting soon began. The soldiers checked the trouble.

Unionist Quarter Hit. At an early hour this morning other disorders occurred in the neighborhood of Ewarts row, a unionist quarter, which was attacked by Sinn Feiners yesterday. Shops were wrecked, and to clear the streets the troops opened fire from an armored car.

A party of shipyard workers, headed by a man carrying the Union flag, proceeded up North street and turned into a nationalist locality. Shots were fired and the ranks of the shipyard workers were reduced by several who were rushed to a hospital.

Woman Among Dead. There have been 135 fires since Wednesday.

Today's rioting was said by the police to be the worst Belfast has seen. Up to 1 o'clock this afternoon it was definitely known that 20 deaths had occurred as a result of the disorders. These included Grace Orr, a young woman who was shot when troops opened fire to clear a street in the unionist quarter.

Numerous persons with bullet wounds were admitted to the Royal Victoria and Mater hospitals. Many Shops Wrecked. The fighting between Sinn Feiners and unionist shipyard workers in many shops were wrecked in York and North streets. Soldiers got between the combatants in York street and kept them apart. There were numerous baton charges by the police. The military held York street with armored cars at midday. A girl in a green blouse was killed in the Sinn Fein attack in York street.

Before 2 o'clock the death list was increased by the shooting of a small boy by a sniper. A curfew law will be introduced in Belfast tomorrow night, extending from 10:30 p. m. to 3 o'clock in the morning.

The four persons killed today today were the result of a rioting up to 15 persons, 11 having died as a result of wounds received in rioting that broke out early Saturday evening. Nine persons were killed outright during the rioting of that night while two died later of injuries. In addition to the death list, 40 persons were injured.

New York, Aug. 30.—Forty-two steamship companies and freight brokers, including virtually all the big transatlantic lines, were indicted by the federal grand jury here today on charges of conspiracy and restraint of trade in violation of the Sherman anti-trust law.

An injunction and dissolution suit against the defendants named in the indictments as members of the Steamship Freight Brokers' association and the Associated Freight Conferences was ordered simultaneously. The indictment charged and the petition in the suit alleged that the defendants, on January 1, 1917, conspired and have continuously violated the Sherman law by restraining interstate trade and foreign commerce in grain, oil, lumber, coal and other commodities and manufactured articles produced throughout the United States and in foreign countries.

Dr. George L. Miller, Civic Worker and Editor, Dies

Dr. George L. Miller, "Father of Omaha," and the plant where his "Omaha Daily Herald" was first published. This plant was located on the second floor of the building at Thirteenth and Douglas streets, the first floor of which was occupied by a saloon.

Dr. George L. Miller, 90 years old, founder of the Omaha Daily Herald in 1865, died Saturday night at the home of his niece, Mrs. Nellie Johnson, 128 North Thirty-fifth street, following an illness of more than 10 years.

Funeral services will be held today at 2 o'clock from the home. Burial will be in Forest Lawn cemetery. Dr. Miller was clerk of the first territorial legislature in 1856 and was elected a member of the territorial council. In 1861, he was appointed by President Lincoln as postmaster at old Fort Kearney, which position he held for three years during the Indian uprisings. He was acting surgeon with General Harney in the campaigns against the Sioux and other Indian tribes.

Built First Hotel. Dr. Miller came to Omaha to practice medicine, after graduating in the east with honors following his revolt from an apprenticeship to a spinner at York Mills when he was 16 years old. He was city physician in Syracuse, N. Y., where he married Miss Elizabeth Dickinson, who accompanied him to Omaha. Medical practice was slack here, and he secured the government contract to supply federal troops with corn.

When Miller served as editor of the Herald, which he founded in 1865, for 17 years, with which he wielded political and social influence throughout the state. When the location of the east terminal of the Union Pacific railroad was uppermost, Dr. Miller took a leading part in the fight to secure it for Omaha, working both here and in New York. With Ezra Millard and Augustus Kountze in New York, fighting for relocation of the bridge over the Missouri to be changed back from Bellevue to Omaha and Council Bluffs, Dr. Miller was summoned to the conference and turned the tide through Vice President Durant of the Union Pacific.

Dr. Miller worked incessantly for the election of Tilden as president of the United States in the campaign of 1876 and would have been secretary of the interior if Tilden had not been counted out. He was mentioned for postmaster general under President Cleveland, but pre-ferred to remain in Omaha. (Continued on Page Two, Column Four.)

WILSON PUTS O. K. ON ANTHRACITE MINERS' AWARD

Contract Miners Given 20 Per Cent Increase, While Company Men Receive 17 Per Cent.

Washington, Aug. 30.—President Wilson today approved the majority report of the anthracite coal commission increasing the wages of contract miners 20 per cent over present rates.

Miners employed as company men are given an increase of 17 per cent and the same amount is given "consideration miners" and miners' laborers and monthly men. The findings, the report said, would fix a minimum rate of 52 1/2 cents per hour for the lower paid men in the anthracite industry.

The president struck out of the report a provision fixing the terms of retroactive payments under the award which, he said, was outside the commission's jurisdiction. Thomas Kennedy, chairman of the miners' scale committee, had protested this feature of the award, he said.

Anthracite mine workers will receive about \$18,000,000 in back pay under the retroactive feature and the total increase awarded to the 175,000 miners will average, the commission said, "at least \$85,000,000" annually. The majority report declared that the award "offers no justification for any advance in the retail prices of coal, but on the other hand, is consistent with a decline in prices." The minority report was signed by Commissioner Ferry.

GUARD UNITS IN READINESS IN OKLAHOMA

Adjutant General Takes Precautions Against Any Race Riots Growing Out of Lynching of Negro.

ARMED NEGROES IN AUTO REPORTED AT ARCADIA

Governor Orders Removal of Sheriff From Office — Declares Excuses Offered by Jailors Are "Too Flimsy."

Oklahoma City, Aug. 30.—Directions that all national guard units in Oklahoma City be held in readiness for duty in connection with possible race trouble growing out of the lynching of Claude Chandler, a negro, here last night, were issued today by Adjutant General C. F. Barrett.

Six motor cars containing armed negroes are reported to have left Edmond, about 15 miles north of here, and three automobiles also containing negroes are reported to have left Arcadia, about 25 miles northeast of here, for Oklahoma City, according to messages received at the office of County Attorney Cargill here shortly after noon. It was said at the county attorney's office that Cargill was arming his deputies.

A telephone message from the city marshal at Arcadia to authorities here said that three cars containing 12 negroes had stopped there for a short time and departed in the direction of Oklahoma City. The marshal said, however, that he was unable to see any weapons and that they appeared to be in a friendly pursuit.

Charging that the sheriffs of Tulsa and Oklahoma counties were "in collusion with the leaders of the mob or else were wholly unfit by lack of physical courage to discharge the duties of their office," Governor Robertson sent a letter today directing that immediate steps be taken to remove the sheriffs from office.

Excuses offered by the jailors were characterized by the governor as being "too flimsy" and as "stock excuses." "They should be made to suffer the consequences," the executive wrote. "They should be summarily removed from office."

ADmits MAny DRY AGENTS ARE TAKING BRIBES

Prohibition Commissioner Tells of Plan Adopted to Prevent Corruption of Officials.

Washington, Aug. 30.—Hundreds of prohibition agents in New York and other cities have been guilty of taking bribes from local saloon keepers for protection.

This was admitted today at the office of Prohibition Commissioner Kramer. "We have adopted a plan of shifting agents from one 'zone' to another with great frequency in New York and other cities," said one official. "In this way no agent will be in a district long enough to form dangerous affiliations. Also we have organized a 'special intelligence unit' under the Treasury department, whose duty it is to oversee the work of the agents, just as inspectors in the Postoffice department look out for dishonesty on the part of its employees."

If agents sometimes accept bribes it is worth remembering that the best salary we can pay them is \$1,500 a year. Our appropriation for enforcing prohibition throughout the United States is only \$4,500,000. The police department of New York City has an appropriation of \$25,000,000.

The only solution is an appropriation big enough for the job. "The work of a prohibition agent is hard, dangerous and poorly paid. Three of our men have been killed in the moonshine districts this year. A few weeks ago an agent had both hands broken in making a 'pull' in Philadelphia. "A few days ago some of our men, unarmed, stopped a truck loaded with whisky in the Italian district of Philadelphia. In a moment they were surrounded by a threatening crowd. Some were badly beaten up before the police arrived. "Many agents have been beaten up in New York.

"Since one of our agents, Stewart McMullen, shot a taxicab driver in New York last March, we have given strict orders against gun play. McMullen is in the Tombs and his family is being supported by contributions from his friends on the force. "These men are engaged in more exciting and dangerous work than that of the average soldier. The \$1,500 pay is not enough."
