Cattle—The week opened out with almost as large a run of cattle as were here on last Monday, around 14,300 head being on sale. Fat cattle of all kinds showed a slight reaction from the big advance from the close of last week, hardly any good corn feds were here and the western beef looked 10c to 25c lower, with cows and heifers declining 25c more. Stockers and feeders demand was very broad and the market was strong to in many cases 25c higher.

Chicago Grain

By CHARLES D. MICHAELS.

Chicago, Aug. 30.-Weakness and lower prices with lighter trading and poor support from the leader of last week featured the grain prices, with the close near the lowreal worth than all of the other est. A break of 13 to 15 cents in four hours taken together. In this period the handicap of 10 per cent call money was overcome in the railroad group, and the general price

marked by recessions of industrial shares, into moderate strength.

Trading was inactive most of the day and because of a lack of interest outside of the purlicus of the street, it would be easy to attach much importance to purchases of railroad issues. Nevertheless, there was something to be said about the quality of a market which could surmount the onus of a stiff money rate coincident with the presentations of the past week's bank statements, showing additional evidence of an increase of the crop moving strain upon credit. Shares of roads which transport coal as a major freight item, were prominent, including B. & O., Chesapenke & Ohio, Lackawanna & Reading and the street read into the movement a response to the president's approval of 17 to 22 per cent wage increase for hard coal miners.

Watch Labor Conditions. marked by recessions of industrial 2%@3%c, oats 3%@3%c, rye 1½@2c and barley ¼@½c.

Export buying of wheat futures which has been the main factor in sustaining extent, of late was not in evidence to any extent although fourses who have been active in that line were at it at times. Hedg-sales were more numerous and with the pressure from the local and professional traders in general, prices sild off 4 to 5c from Saturday's finish and closed at \$2.33 for December and \$2.29½ for March. Good buying orders in hands of commission houses for December at \$2.33 sustained values at the last.

Cash Premiums Unchanged.

Cash Premiums Unchanged. Cash premiums held well with offerings not large. While 1,000,000 bushels were said of have been sold for export late Saturday, no fresh business was reported during the day.

Frem'ums on cash wheat at Chicago were unchanged to 2c lower on winters with No. 1 grades sold at 29@23c over

Watch Labor Conditions.

Labor conditions were brought sharply to the attention of the financial district by the unexpected tieup of Brooklyn's street railways and through cabled comment throughout industrial centers of England over the threatened coal strike in the British fields. Another sharp break of cotion quotations at New York followed the lend of Liverpool, where the possibility of a fuel shortage appears to add a deeper bearish tinge to unsettlement previously discernible in the market over a decline of the consumption of textile goods in Britain and on the continent. Doubtless, the local traction strike was all the more dampening upon security market sentiment because there has been less talk of labor unrest since the rail-December demanding on billing with hard \$2.54@2.58, while No. 1 red hard \$2.54@2.58, while No. 1 red was
\$2.55@2.56%. Countdy shippers, who were
short, were the best buyers. Springs 1@5c
lower with dark No. 1 northern 19%@24c
and regular No. 1 northern 18%@24c
and regular No. 1 northern 18%@24

sertion heard in responsible quarters, that workers in many lines are showing greater efficiency than a few months ago. In respect to credit, however, the horizon remains bereft of indications of a change. The federal reserve system's rediscounts and outstanding circulation reached new high record totals last week and there is reason to expect some further expansion before the peak of autumn credit requirements is shaped.

Money Not Encouraging Corn Demand Slow.

Many local professionals who were out in the country over Sunday found the crop in better condition than expected. Reports indicated that the movement of old corn would be restricted only by the number of cars available. Demand for cash corn was slow.

ers were in the market. Spot sales were Questions confronting the grain trade e how freely are exporters to continue buy wheat and how freely will farmers ill on a declining marko. Should the port demand continue le ge higher prices e expected unless receipts increase.

see it. Facilities in not the same consideration and the oddays ago. One operator after it was through part of western Illinois a trip mers there will sell regardless of says fast receipts are a question of the

wheat.

Export demand for wheat is a turning to the Canadian as it is cheaper than the American, said a Winnipeg man who has been in New York for months. We are likely to have lower prices for a time but wheat may advance later.

Foreign reports are less favorable. Dry weather is claimed in parts of Argentina. In Sweden heavy rains have caused some damage, while the food situation in Portugai is reported as serious. Crops were considerably below normal.

"In the course of the next two or three years prices will probably reach a preyears prices will probably reach a preyear prices will be pauses now and then, but the general tendency will be downward."

CHICAGO CLOSING PRICES.

New York, Aug. 30.—There was some buying for either Brazilian or European account in coffee early today accompanied by reports that the coffee exchange at Hamburg had petitioned the government to remove the embargo on importations. This created some little interest here and the opening was 17 and 22 points higher, but the advance met scattered selling which became little more active following reports of an easier turn in Santos. December sold off from 8.96c to 8.80c and May from 9.78c to 9.50c or back to about Friday's closing quotations with the market closing net unchanged to 8 points lower. September, 8.10c; October, 8.30c; December, 8.75c; January, 8.95c; March, 9.80c; May. 9.50c; July, 9.70c.

Spot coffee was reported in moderate demand with Rio 7s quoted at 8% 25 Santoz 4s at 14015/1c. New York, Aug. 30.—Flour—Quiet; spring patents, \$12.25@13.25; spring clears, \$9.76@10.75; winter straights, \$11.00@13.00.
