

What Do You Know?

(Here's a chance to make your wit worth money. Each day The Bee will publish a series of questions. They cover things which you should know. The first complete list of correct answers and the name of the winner will be published on the day indicated below. Be sure to give your views and address in full. Address "Question Editor," Omaha Bee.)

1. Who is Secretary of Commerce in President Wilson's cabinet?
2. What president served in congress after he was president?
3. What rank does the United States hold in merchant marine?
4. How many stars is General Pershing entitled to wear as insignia of his rank?
5. Where is the Nebraska state penitentiary located? (Answers Published Saturday)

Saturday's Answers.

1. Which office is the highest rank, an army captain or a navy lieutenant? The two ranks are the same.
2. What Presidents have been elected, despite the fact that they received fewer votes than their opponents? Rutherford B. Hayes, 1876 and Grover Cleveland, 1888.
3. What governor receives the lowest salary? Governor McKelvie of Nebraska, \$2500 a year.
4. Who first reached the South pole? Roald Amundsen in 1911.
5. When was the University of Nebraska founded? 1869.

Winner: No correct answers received.

More Truth Than Poetry

By JAMES J. MONTAGUE

SIC TRANSIT.

Many former Russian noblemen are now doing farm work in France and Flanders.

As the sun rises high in the soft morning sky
O'er the bullrisky marshes of Flanders,
There passes along in a zig-zagging throng,
A covey of geese and ganders,
And though they are cursed by Alexis the Worst
They pay but small heed to his presence,
For a ringing rebuke from a former Grand Duke
Doesn't hurt any more than a peasant's.

The little mauve cows that are turned out to browse
On the fields to the southward of Cressy
Are chewing their cud as they stand in the mud
Where their legs get exceedingly messy;
And but little they think as they bend down to drink
In the stream by its willow embowered,
"That's an eminent Russ who's attending on us,
Instead of a regular cow-herd."

The onions that grow on the hillside at Meaux,
The bean vines that burgeon near Calais,
The beets on the Aisne and the gourds on the Seine,
And the squash in the Epervy valley,
Don't know that the chaps with the whisker-laced mops
Who hoe 'em and weed 'em and thin 'em,
And do other rough work, have all names known to Burke,
With ten or twelve consonants in 'em.

Common Sense

Show Your Appreciation.
By J. J. MUNDY.

Of course, old man, you may expect your wife to do all she can to save you money but when she does something out of the ordinary—something you have always hired done, it would give her a good bit of encouragement if you would give her in money what you would otherwise have paid for the job.

Never thought of doing such a thing, did you?

Whatever she has done you have taken for granted and as a matter of course and often you omitted any expression of thanks.

It isn't the right way to do, now, is it?

Most husbands give too little credit to their wives for the work they do.

You may think it is silly to compliment your wife or reward her in some way for something she is not accustomed to doing and for which you have always paid out money.

But down in your heart you know you like to be praised for doing something which you feel has been well done.

You make it appear that you do not care for compliments, but you do.

Well, so does your wife, and you should be more generous with your compliments to her and make your financial gifts as surprisingly large as you can afford.

You will more than get back your interest.

I'M THE GUY

I'M THE GUY, the office tight-wad, who never "chips in" on anything.

Why should I? The money I earn is for me and my needs, not for throwing away on others.

If some guy is chump enough to get married why should I kick in to help him buy a wedding present? It isn't my wedding! I won't get any good from the present.

And if one of the force dies, why should I contribute for flowers that he won't ever see and that will only be wasted?

And if anyone gets sick and has no money to pay for a hospital room or a nurse or a doctor what concern is that of mine?

If he was so improvident that all his money is spent why should I dig into my savings to help him out?

If I chipped in once, they'd expect it of me every time. And my money looks too good to me to let go of any of it unless I'm going to get full value of it for myself.

So pass your lists around to someone else. Count me out.

WHY?—

Do We Have Toothache?
Copyright, 1920, Webster Syndicate, Inc.

Aches and pains in general are the signals flashed to the brain by nerves which have been bruised, injured or exposed, and in the case of toothache, the signal means that the nerve of the tooth is either very close to the surface, or else in actual contact with the air. When the latter condition occurs, the ache is, of course, extremely sharp, very painful, and practically continuous, for the delicate sensitive nerves of the teeth are intended by nature to be imbedded in the hard bony structure which surrounds them, and any interference with this, produces a pain which sends us scurrying to the dentist.

The warmth of the mouth, together with the constant presence of the saliva, results in a condition which forms an ideal breeding place for bacteria of many kinds. Myriads of these seek refuge between the teeth and in other places where the ordinary brushing does not dislodge them. In time, they eat through the outer coating of enamel and into the dentine which forms the major portion of the tooth, in much the same way that an augur would bore through a piece of wood. The moment that the cavity caused by the decay approaches the vicinity of the nerve, the latter sends out its warning signals—at first an occasional twinge, then an ache and finally a throbbing, darting, flame of pain that announces imminent danger to the nerve. Toothache, therefore, which is distinctly unpleasant, is really one of nature's methods of calling attention to the necessity of repair work.

AN OUTRAGE.
How the profiteers must have hated to see Ponsi get all that money.
A BUSTED SIMILE.
"As gentle as a lamb," since the McGraw accident, sounds a bit ironical.

SUSPICIOUSLY QUIET.
D'Annunzio must be writing that play he was doing the work for last winter.

Contract Authorized for Frannie Irrigation Unit
Washington, D. C., Aug. 31.—(Special Telegraph)—The secretary of the interior has authorized the reclamation service to enter into contract with W. Downer of Deavor, Wyo. for the construction of a portion of the lateral system of the Shoshone Irrigation Project, Wyo. The work involved excavation of 42,000 cubic yards of material in the vicinity of Frannie.

The government of Algeria will distribute French sugar beet seed to farmers in an endeavor to experiment with the production of beet sugar.

No Orchestras in Omaha Moving Picture Theaters And the Reason Why---

To meet the 60 per cent increase in salary demanded for moving picture theater orchestras by the Omaha Musicians Assn. the managers of the undersigned theaters would be involuntarily forced to raise admission prices as did other theaters when they met the increase in musicians' wage scale.

But—

We Refuse to "Pass the Buck" to the Public

We have tried to be more than fair with the musicians. We offered them a 43 per cent increase in wages, which would be approximately \$40,000 increase in the annual payroll of the four undersigned theaters.

Musicians Work 4 1/2 Hours a Day

This is the total actual working time allowed in moving picture theaters by the Musicians' Association. Thus it plainly can be seen ample opportunity is afforded musicians to derive financial benefit from hours outside of the theater. And many avail themselves of this opportunity.

Musicians Are Reasonable in Other Cities

Kansas City musicians have accepted the wage increase offered by the theater managers as reasonable and fair. Des Moines musicians are asking salaries equivalent to the 43 per cent increase offered to the Omaha musicians. Lincoln musicians have accepted salaries much less than those offered to the Omaha musicians.

And the Public Should Know

that the managers of the undersigned theaters have ALWAYS been fair with all employes when their demands were within reason. The musicians' demands are NOT within reason! They have walked out of the undersigned theaters, refusing a 43 per cent increase in salaries. To meet the musicians' 60 per cent increase demand we would have to raise admission prices. This, in justice to the public, we WILL NOT do!
