Grand Island, Neb., Sept. 3.—(Special.)—Clarence Newman, 35, and Mrs. Carl Leffelbein, 45, were asphyxiated at Palmer today when the woman failed in an effort to rescue Newman, who had been over-

come by gas while excavating for a cistern. Newman was excavating a second cistern alongside a former one in close proximity to later drain the filled excavation. The narrow wall between gave way unexpectedly when the woman attempted to rescue the prostrate workman. STOCK RAISERS ASKED TO MEET WITH PACKERS

Conference of Stockmen, Rail Officials and Bankers Called to Discuss Plans for Financing Production.

Chicago, Sept. 3.—Representatives of the Chicago packers today sent letters to stock raisers, railroad officials and bankers of the middle-west and far west, asking them to attend a conference here on September 10 to discuss plans for financing increased production of live stock. The letter urged bankers, packers, live stock producers, railway representatives and others interested to meet here with representatives of the federal reserve banks to find out whether there is not a better plan by which the live stock industry can be protected and financed to the end that confidence and normal food production be restored and abnormal shipments of young and breeding live stock be stopped. The letter was signed by J. Ogden Armaco, Thomas E. Wilson and L. F. Swift of the packers; Hale Holden, president of the Chicago, Burlington & Quincy railroad; J. C. Underwood, president of the Wyoming Stock Growers' association; J. M. Wilson, president of the Wyoming Wool Growers' association; J. S. Howard, president of the American Farm Bureau federation; O. G. Smith, president of the National Farm congress, Kearney, Neb., and others. "The summer of 1920 has produced one of the greatest crops of hay, corn, nature and other feeds known in the history of the country," the letter said. "However, the farmers and feeders find it very difficult to secure funds with which to purchase live stock for their usual operations."
