

Opportunities In Furnishing The Home

Does the present day housewife appreciate her opportunity in the home furnishing? Good taste is due, in a measure, to education, enterprise and resourcefulness. As some women have more leisure than men, they have a better chance to become experts in interior decoration, competent to judge good craftsmanship as applied to home furnishing.

Tub the Silks

The following axioms touch the high spots of laundering silk: 1. Use only neutral soap. 2. Have the wash water lukewarm. 3. Have all rinse waters lukewarm. 4. Squeeze, not rub, out the soil. 5. Squeeze out the water—do not wring. 6. Hang the silks up to "breathe" in the air, but not the sun. 7. Roll separately. 8. Iron with only a medium-hot iron.

Maraschino Cherries and Ice Cream

Rich Vanilla Ice Cream combined with wholesome Maraschino Cherries is a mighty fine combination. We have made thousands of gallons of it in the years that have passed. It's a general favorite in Omaha, and so we are offering it again as the Sunday Special Ice Cream for this Sunday. Most Harding dealers will supply you and there is one close by.

What's What

Informality becomes disrespectful when the man of the house exhibits himself to visitors in the shirt-sleeved disarray of a houseman. There is something uncouth about a coatless man who wears a vest—certainly not a garment designed for ornament. No doubt, if this type of man should take off his vest, he would show the world the color, texture and office of his suspenders.

Helpful Hints

Swiss chard is one of the newer vegetables used as greens and likewise one of the best. It develops large leaf stems and very little root. It can be planted early in the suburban garden and the young plants pulled out in thinning can be used for greens. Later the tender, fleshy leaf stems left in the row may be pulled off and used for greens. When finally thinned out, the plants should stand six to eight inches apart in the row.
