The Flapper's First Corset

Wise mothers realize that the training of a pretty figure starts while the girl is still a flapper. The simply boned little corsets that keep the figure in place in no way hamper freedom of movement. The self-consciousness of this age can largely be overcome by a softly boned corset and brassiere.

Special Attention to Fitting School Girls

We will give our special attention every Saturday from 9 to 12 to the fitting of these corsets for the school girl. Mothers can be perfectly assured that this service will be rendered satisfactorily even though they themselves are unable to come with their daughters. The girls, as well as the mothers will be delighted with these new models. They are made of plain and fancy materials in both flesh and white, sizes 19 to 30.
