

**Seek Hired Hand
On Serious Charge**

Allege He Attempted to Murder Woman in Home Near Kearney With Rifle.

Kearney, Neb., Sept. 14.—(Special.)—An attempt was made last night to murder Mrs. Christina Jacobson of Riverdale. Frank Schwab, a former hired hand, is being sought as the alleged assailant. Schwab was discharged following an altercation over rental lands. When he left the Jacobson premises he took a 22-caliber rifle with him. On Saturday night he appeared at Riverdale and purchased some ammunition for this gun and several hours later he called at the Jacobson residence, pounding on the window and awakening the occupants. But when no one responded he fired through the window. Mrs. Jacobson attempted to communicate with neighbors by phone, but failed. It was later discovered that the wires had been cut. The assailant then pounded in the door while Mrs. Jacobson and her two children fled for safety by a rear door, through a corn field to the home of a neighbor. About six shots were fired by her pursuer in the darkness. Upon arrival of the deputy sheriff a posse of about 200 made a hurried search of the surrounding country, but failed to find their man. At daylight the search was resumed, but no trace of Schwab has been found.

THE MOST BEAUTIFUL CAR IN AMERICA

Announcing a New
PAIGE

To the general motoring public we extend a very cordial invitation to visit our show rooms and inspect a motor car that represents the supreme achievement of the Paige engineering and designing staff.

Today and for the coming week, we shall hold "Open House" in recognition of a most important event in Paige history. For today, we introduce a six-cylinder car that establishes a new standard of automobile value, and creates for itself an altogether unique position in Motordom.

This new Paige Model is unique and distinctive because it is a car without a legitimate competitor. From every standpoint of luxurious motoring it is only comparable with the very finest and

most expensive motor carriages of this country and Europe. Yet—by virtue of its cost alone—it is a member of the popular priced field.

These are indeed strong statements, but we make them with absolute confidence.

If you are inclined to be skeptical, please remember that you have yet to see the most beautiful body design that has ever been produced—a power plant that is capable of seventy-five miles per hour—and a chassis that expresses the last word in strictly modern engineering.

The newest and greatest of all Paiges is here and ready for your inspection. We shall gladly arrange for demonstration upon request.
