# For the Stouter Figure of Average Height

THE Redfern Corset here illustrated has been especially designed for this type of figure. The dotted lines indicate the contour when the figure is uncorseted, and it is this flesh which the Redfern Corset controls, holding it firmly in modish, clean-cut lines.

And, this is only one of the many types of figure for which there are special Redfern Corsets. No matter what your type of figure there is a model which will add to your grace and poise.

In choosing your next corset, ask for the Redfern model best suited to your requirements. You will be as delighted with its comfort as with the silhouette it affords.
