

Red Agitation Not at Peak, Says Foe of Radicals

Investigations Show Plans for
Reign of Terror by Social-
ists and I. W. W.—Hay-
wood Now in N. Y.

Chicago, Sept. 18.—The red agitation has not yet reached its peak in America, and further outrages may be expected, said Attorney Frank Comerford, who successfully prosecuted the 20 communist leaders here.

Mr. Comerford made a first-hand study of bolshevism in Russia and is unusually well informed as to the plans and operations of the reds. He continued:

"The conspirators to destroy this government are the socialists, I. W. W. and communists. They have formed a merger. The I. W. W. is the most formidable of these, because, under the guise of labor, it has become a nucleus of red forces."

"Big Bill" Haywood, head of the I. W. W., is being sought more as a matter of protection than for any other reason. Capt. Edward J. Brennan of the secret service agents of the Department of Justice here, said he had sent special agents to all the red headquarters to check all the leaders who are absent from Chicago at present. This may give the New York authorities something tangible to work upon.

Haywood in New York.
"We have known that Haywood has been in New York and other eastern cities for two weeks," said Captain Brennan. "I have been apprised of his whereabouts at all times. There is nothing I can do concerning Haywood. He is at liberty on bond to go where he pleases."

Meanwhile the police and federal forces are closely guarding La Salle street buildings. A guard also has been thrown around the city hall. The guard on the La Salle street was doubled during the noon hour.

Alexandria Jaunuksa, alias John Alexander, was arrested here after a search that began before the war. He was editor of the *Daily Classen Kampf* (The Class Struggle), a radical organ. Jaunuksa was generally rated as chief propagandist for communist movement in America. Jaunuksa admitted that he came to Chicago from New York to evade the draft and that his propaganda work throughout the midwest had been literally financed by eastern radicals. Police and federal authorities believe this man is the "brains of the reds" in this country.

Planned Train Wreck.
An intercepted letter to a Chicago merchant from a well-known communist leader in New York also may give a valuable line on the investigation. The suspect is a shoe dealer, who admits he is a communist.

The plot to wreck an Illinois Central railroad train and murder all the survivors was a part of the general reign of terror. One of the conspirators weakened at the thought of playing helpless woman and children and exposed this plot, but it is assumed similar plots are in progress in other places, being conducted by I. W. W. and bolsheviks who are not troubled by any qualms of conscience.

Although driven back from Warsaw, Trotsky points out, the soviet army still occupies approximately 400 of the 600 versts covered in the advance.

Ohio Nominee Splits With Cox On State Ideas

Democratic Candidate for
Governor Issues Platform
Of His Own—Gets Others
to Join With Him.

Chicago, Ill., Sept. 18.—(Special Telegram.)—James M. Cox, democratic candidate for president, has been repudiated by Vic Donahey, democratic candidate for governor of Ohio and, according to Ohio men familiar with the facts, who were in Chicago today, Donahey has issued his own platform for consideration of Ohio voters.

In this platform, entitled "Vic Donahey's platform," he not only sets forth ideas widely divergent from those of Mr. Cox, but the democratic candidates for lieutenant governor, secretary of state, auditor, treasurer and attorney general have subscribed to the Donahey platform. This remarkable development, it is declared by those who know conditions, signifies a big split as between Cox and Donahey, and makes Cox still weaker than he would otherwise be in Ohio.

Auditor Since 1913.
Briefly, the facts are that Donahey has served as auditor since 1913. That is the year Cox entered the governorship. When Donahey was nominated for governor some weeks ago, he apparently did not care to stand on the platform adopted by the Cox-controlled convention, which chiefly extolled the record of Cox as governor of Ohio.

The result was he issued his own platform, calling it "Vic Donahey's platform." It contains about 10,000 words. It is being widely distributed in Ohio, and contains ideas as to state government which do not at all agree with the Cox notions. Among other things, Mr. Donahey hits a hard rap at the enormous number of boards and commissions created by the legislature since he has been in office. He hits at payment of fancy salaries to experts from other states who have been

paid "fancy salaries" for promulgating theories of government. Nearly all these commissions were created at the express demand of Mr. Cox and all by legislatures which he controlled.

Many Thrusts at Cox.
"The condition of Ohio laws is a travesty on intelligence," says Mr. Donahey, at one point in his platform.

He caustically criticizes some of the "progressive measures," "legislative indigestion" and "twice as much law as is necessary for the peace of her citizens."

Many direct and indirect thrusts at the Cox record are taken. For instance, Donahey declares that if elected he will see to it that the 80 departments of state government are not so many asylums for politicians of my own party."

**Stunt Airplane Wrecked
Traveling at High Speed**
Julesburg, Colo., Sept. 18.—An airplane traveling at 80 miles an hour and piloted by George Myers dived headlong into the ground in an attempt to lift "Dare Devil" Duncan from an automobile traveling 60 miles an hour. A long rope ladder hanging from the plane caught

the rear of the moving automobile and lifted the machine fully 10 feet into the air. The plane struck the ground headlong and was completely wrecked. Myers was only slightly bruised.

Market Active Some Advances

A number of issues have advanced marketwise the past week. An interesting feature is the fact that while the oil issues during the past week have occupied the position as market leaders there were increases in other specialties as well, including mines and iron rails.

We have devoted upon the wisdom of applying common sense logic to one's stock market commitments. Investment and speculation alike, of course, have one object in view—the making of profits.

The indications for favorable active stock markets and upturning prices from now on are decidedly promising; sooner or later a closer relationship between values and quotations will be established.
