Fruit and Flowers By Airplane Filmy Lace and

Twice a week an airplane leaves Nice, loaded with more than 100 baskets of roses, carnations and other that 1 to 4 tablespoons of vinegar

The success of this venture suggests many others which promise profit for the promoter and pleasure for the public. Not only might the early fruits of the Midi be transported to Scandinavia, but something of the kind might be tried in the United States. The Florida fruits would find a market in New York, eager to get them on the day after they were picked. Then, too, in the late summer and early autumn, the perishable fruits which ripen in Canada but lose much of their flavor by

being picked when they are still un-ripe, would be quickly sold in southern cities. Indeed, this suc-cess of the Nice-Copenhagen floral service opens a wide range of agree-able possibilities.

A Word on Canning.

Recent experiments have proved kets of roses, carnations and other flowers for Copenhagen. Although the journey is lengthened by a detour to the west to avoid high hills, in 10 hours the plane has crossed France, Belgium, Holland and Germany to the capital of Denmark. When spring has come in the Riviera, the snow still lies in the streets of Copenhagen and the florists find ready markets for their French blossoms.

The success of this yenture sug-

Sometimes the re-opening of school finds many children below normal weight, with less strength than they should have, and really unable to stand the strain imposed by study.

This is the time when Father

John's Medicine will prove most ef-fective for them. The actual food clements which it contains are exactly what nature has provided to rebuild health and strength. This rebuilding food is so skillfully prepared by the scientific process of compounding the prescription for Father John's Medicine that it is quickly and easily taken up by a weakened system and the results are promptly evident in the in-creased and steadily gaining strength which the child shows under the treatment which Father John's Medicine affords.

For more than sixty years Father John's Medicine has been successfully used in thousands of homes as a standard medicine for all the family. It is guaranteed free from alcohol and dangerous drugs of any

A Simple Way To Remove Dandruff

never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of our dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, lossy, silky and soft, and look and SIMPLE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get two ounces of calonite—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads, hittle blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin. Pinching and squeezing only cause irritation, make large pores and do not get them out after they become hard. The calonite powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.
