

General Federation of Clubs Ends Important Business Session

Mrs. Addison E. Sheldon, Lincoln, director of General Federation Women's clubs from Nebraska, has returned from Washington, D. C., where she attended the board meeting of the general federation, September 14 to 16. She reports a most excellent session.

Mrs. A. E. Sheldon

Of the 63 members of the board, three-fourths of which are serving for the first time, 40 were present throughout the entire meeting.

Departments of Work.
The work of the general federation is organized under six departments, as follows:
1. Fine Arts, Mrs. Rose Berry, Berkeley, Cal., chairman.
2. Applied Education, Mrs. John D. Sherman, Chicago, chairman.
3. American Citizenship, Mrs. Percy Pennington, Texas, chairman.
4. Public Welfare, Mrs. Elmer Blair, New York City, chairman.
5. Legislation, Mrs. E. F. White, Indianapolis, chairman.
6. Press and Publicity, Mrs. J. J. Read, Fayetteville, Ark., chairman.

These chairmen, members of the general federation board, presented programs of work for discussion and adoption. Under each of these departments are grouped one or more divisions with chairmen and in some instances the divisions have committees for special work in states where such work is needed. The plan as a whole has been worked out in response to requests from all over the country that the machinery be simplified and its parts more closely coordinated.

Committees to Aid Departments.
Besides these departments there is the other work of the general federation board which will be carried on during this biennium by committees thus expediting the work and saving each board member definite responsibility.

Magazine Discontinued.
The board reluctantly recommended to the general federation magazine incorporation that its publication be discontinued and its books closed. This was done because it is found that the state workers do not think it possible to raise the \$20,000 in subscriptions asked for by the magazine board at the Des Moines biennial for 1920-1921 very soon as requested. The general federation has already advanced from its treasury about \$18,000 in the interest of the magazine and cannot spare further sums necessary to tide it over this period of the high cost of publication.

Bulletin to Appear.
The press department will publish a modest bulletin "The General Federation News" which will go to all workers and to those clubs having direct membership in the general federation. State federations may make arrangements to buy at cost an additional number sufficient to supply each club in the state.

New Interests.
The plan of turning the spotlight on certain new interests by placing them under the direction of the vice presidents is continued. Mrs. W. S. Jennings, Jacksonville, Fla., first vice president, will assist in trying to place a home demonstration agent in every county; Mrs. J. R. Schermerhorn, East Orange, N. J., second vice president, will have charge of the Volunteer Social Service bureau movement.

National Headquarters.
National headquarters established in Maryland building, 1410 H street, N. W., Washington, D. C., during previous administration are continued. Club women are urged to make large use of this home in our nation's capital.

Five Issues.
The General Federation of Women's Clubs will concentrate its efforts on five national issues:
(a) Fess bill in interest of home economics.
(b) Smith-Towner bill in interest of department of education.
(c) Sheppard-Towner maternity bill.
(d) The national library service bill.
(e) Independent citizenship for married women.

These bills may be had by sending to national general federation headquarters. Emphasis will also be placed upon the interests of women in industry, also upon the state censorship of motion pictures, the resolution favoring which was passed at Hot Springs and reaffirmed at Des Moines. The legislative chairman, Mrs. W. H. L. Hodges, was appointed to serve as a member of legislative committee of National League of Women Voters.

Utah Hostess to Council.
Utah is to be hostess to the council to be held next June at Salt Lake City.
The program will emphasize three features:
1. It is to be a council.
2. Ample time allowed for state president's conferences.
3. Presenting in pageant, art and music the unique history of that great region.

Biennial at Chautauqua.
The invitations of the Chautauqua Woman's club and of the board of managers of Chautauqua institution to hold the 1922 biennial at Chautauqua, New York were heartily accepted.

The grounds, hotels, cottages, pavilions, and halls will be turned over to the general federation during the convention period, thus assuring a wholly unique and most attractive setting.

tea given by Mrs. A. S. Burleson, wife of the postmaster general at her home in honor of the General Federation of Women's Clubs. She was assisted in receiving by Secretary of State Bainbridge Colby, Secretary of Labor William Wilson. Ladies connected with the cabinet assisted the hostess during the afternoon.

The Washington Art club entertained delightfully September 15 at a dinner and reception for Mrs. Thomas Winter, president, and the board at its club house, which is one of the historic old homes of Washington.

Visits to headquarters and to the Department of Labor and Agriculture occupied the forenoon of one day.

A Strong Board.
The board as a whole, according to Mrs. Sheldon, impresses one as a group of experienced wide-awake, purposeful club women who are willing to work and who have both vision and courage. "National Consciousness" was a term frequently heard. Seventeen members are also state presidents. The part taken by each member was characterized by "adequate brevity," no one failing to stop when she had finished her speech, Mrs. Sheldon reports. "The spirit of harmony and co-operation grew with each session. It became evident that the board was growing more and more devoted to our leader, Mrs. Thomas G. Winter, and it was quite as evident that Mrs. Winter is not disappointed in her board. The biennium should be characterized by progress if it fulfills its promise."

To Nebraska!
Mrs. Sheldon comes back to Nebraska more deeply pleased with her native state than ever before. The water and woods and mountains of New York and Pennsylvania are full of picturesque beauty and make a strong appeal from that standpoint, she declares. "But among the agricultural states passed through no other compares favorably with our own from standpoints of general attractiveness of the landscape, good appearance of the farms and farm buildings and towns and people seen in passing."

ADVERTISMENT.
DIAMOND DYES
Any Woman can Dye now

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye any old, faded garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods, a new, rich, fadeless color.

To Help Nature Shed a Bad Complexion

Beauty devotees are enthusiastic over the rejuvenating qualities of ordinary mercerized wool. Nothing discovered within recent years accomplishes so much, so quickly, without harm or inconvenience. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding complexion defects, it removes them. It actually takes off the aged, faded, yellow, freckled or blotchy surface skin, and gradually, this is Nature's way of renewing complexion. When the natural process is retarded because of defective circulation or nerve tone, mercerized wool comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried mercerized wool, get an ounce of it at the drugstore, use nights like cold cream, washing it off mornings—and have the surprise of your life!

Another natural beautifying treatment—for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of powdered talc in a half pint of witch hazel. This is a really and almost instantaneously effective.

COLORADO SPRINGS and MANITOU

Fall and Winter Are Days of Fine Sport—in the Pikes Peak Region

"Why on earth don't you people tell us about such glorious weather?" asked an eastern woman who, through accident but good fortune, spent ten days in the Pikes Peak region last winter.

She had thought of this region—where plain and mountain meet—as "snowed in" with the beginning of fall.

She saw people enjoying the outdoors; saw them hiking, motoring, golfing.

October, November are glorious. December and January see more days of golf than is possible in summer in many places.

If you can take a fall vacation, try a new, restful, upbuilding kind.

A handsome new booklet tells you interesting things about this region. Just write for it.

THE CHAMBER OF COMMERCE
124 Independence Building, Colorado Springs, Colo.

The Store of **Thomas Kilpatrick Co**
Established in 1870

Fall Fabric Sale

The opportune dress material is WOOL, and never more popular than now. Tricotine and Serge for Dresses. Velour and Silvertone for Suits. Suedes and Duvelyn for Coats. We make for Monday special price inducements. The warm weather is making corn—thank you, but it won't last long.
