

### Indians Visit Omaha, Remnants of a Noble Race

No Longer Do Tribes Roam Over Free Prairies—Now Perform for Palefaces' Money.

(Continued From Page One.)  
is the feeling that the old days were braver, better, even though he now is able to drive at 40 miles an hour in his big black car, live in a fine house built by the government, and send his children to learn all that any white child can know.

**Men of Heroic Mold**  
There have been men of heroic mold among the Omaha of old. Their chief when settlers began to pour into the Missouri valley in 1854 was, Siau-Ga-Ska, or Logan Fontenelle.

He was the son of the trader, Lucien Fontenelle, and his beautiful Indian wife, and the great grandson of a French nobleman.

The business ability of the Indians displayed itself then by the demand for \$10 for every settler.

It was he who signed the treaty selling the lands of the Omahas to the government.

**Chief Died Fighting**  
He died at 30 fighting the Sioux. After killing three of his adversaries, he fell, pierced with 14 arrows, and his scalplock was borne off by his foes.

Most ancient of the heroic chiefs of the Omahas was Blackbird, who ruled at the beginning of the 18th century.

The Indian legends concerning his supernatural powers differ widely from the accounts of the skeptical trappers and fur buyers who roamed this region.

**Killed By Will Power**  
The story they tell is that a trader kept Blackbird supplied with arsenic, which he used in ways to show his power.

From time to time he would predict the death of some member of the tribe, and even tell the symptoms.

Judicious use of the poison would prove his ability as a prophet, and then his reputation grew until it was said that he could cause the death of men by merely willing it.

To avoid the unpopularity that would have followed this deadly reputation, it is said that Blackbird would every now and then administer the arsenic to friends as well as enemies, thus indicating that he was without malice in his prognostications.

**Smallpox and Alcohol**  
With the influx of the white race came smallpox and alcohol, the twin curses of the native population.

Under their ravages the Omahas were cut in numbers until today but a few thousand remain.

There are those who say that the close confinement of civilization bleaches them out, and that as they grow wiser they grow weaker.

They do not criticize those members of the tribe who still live in their tents and keep their horses, cows or chickens in the solidly built government house, but say that they are showing the wrong way of maintaining as near primitive conditions as possible.

**Head of German Republic Seeks Job**

German President Worried About Making a Living After Term Expires.

Berlin, Sept. 25.—Friedrich Ebert, the harnessmaker president of the German republic, is worried about making a livelihood after his term expires, according to friends. It is expected that the first popular presidential election in Germany will be held in November. Ebert has the character of a provisional president elected by the national assembly.

Just what he shall do to earn a living for his family after November is said to worry President Ebert not a little. His salary is 100,000 marks a year (about \$2,500 in United States money). Of that amount he is compelled to pay 40,000 marks income tax, leaving him but 60,000 marks, or about \$1,500. That he cannot put much of that in a savings bank for the proverbial "rainy day" is obvious. In fact, his whole family works now. One son is a reporter on the socialist organ Vorwaerts, his other son works in an optical establishment, while a daughter is peeling potatoes, sweeping and making beds on a large farm where she is learning to become a "wirtschafterin," that is, managing housekeeper.

**Republic of France Sues Detroit Manufacturer**  
Detroit, Sept. 25.—Notice of suit by the Republic of France for \$150,000 was served on D. E. Hokin, president of the Michigan Steel and Metal company.

The Michigan Steel and Metal company is a sales corporation for castings and metal supplies.

Officials of the Detroit corporation refused to discuss the suit, saying they knew nothing of the cause of action, but it is reported that a war contract is the cause.

**Farmer Needs Step Ladder**  
To Harvest Crop of Corn  
Topeka, Kan., Sept. 25.—When C. B. Haukenberg, who has a farm on bottom land near Topeka, goes to harvest his corn this fall, he'll have to take a stepladder along in order to get the ears. Haukenberg has a four-acre field near this city, on two-thirds of which the ears of corn are higher on the stalks than he can reach. Nine per cent of the corn is 10 feet high and the average is 12 feet.

### Letters From Home-Made Father to Son

Women Suffer in Making Politics Uncomfortable  
BY ED STREETER

Dear Son,  
What with prohibition, the addition of a cuplwo to the town hall, a change of presidents, and the transplanting of wimmin from the home circle to the public square, this has been a stirring and memorable year.

I always knew wimmin would get the vote sooner or later. Once a woman makes up her mind she wants a thing the biggest kindness you can do the neighbors is to let her have it.

The trouble is wimmin aint got no ideas of rules when they go after things. With the men, now, its all laid down and above board. The first thing they do when they want something is to make speeches to each other and write the papers.

Then they go to work for a decent length of time which is a pleasin agreeabel way to protest against anything under the sun. Its some-thin theyve set their heart on gettin more than usual over your an occasional brick at the sheriff. Then, havin got the thing out of the sistem they forget all about it.

Wimmin, havin no such rules, you cant tell what theyre goin to do next. Its some-thin like goin to the dentist. It aint the amount he hurts that worries you so much as wondenan wheres he goin to land next.

**Kill 'Em or Give 'In**  
They got us at a disadvantage right from the start, of course, cause we got to be polite to em. Now if a man came up behind you an bashed your derby down over your nose I guess you know what would happen to him without my goin into the grewsome details. With a woman its difrent. After youve pried it off and got the dents knocked out all you can say is "Really Madam, this is annoyin of you." When that kind of thing has gone on long enough it comes down to a question of murder or given em what they want.

That was a nice polite thing of Tennessee to do fer the ladies, if they hadnt gone an changed their minds the last minut. Never take your hat off to a woman an then pretend you did it just to scratch your head. It wont make a hit. Pooch says Tennessee reminds him of a man gettin up to give a woman his seat in the street car an then

judicious use of the poison would prove his ability as a prophet, and then his reputation grew until it was said that he could cause the death of men by merely willing it.

To avoid the unpopularity that would have followed this deadly reputation, it is said that Blackbird would every now and then administer the arsenic to friends as well as enemies, thus indicating that he was without malice in his prognostications.

Those that couldn't swim would be drowned in a sea of beer.

want gettin on well with his wife an of course we ferget about Rule. Folks reported a lot of loud talkin floatin out of the Punkleberry house of nights an Pooch like to got his eye put out by a plate which came through the window while he was takin a nayborly interest.

Then one afternoon who should drop into the store but Eb himself. Ebs the kind of a democrat what

hisses the elephants when the circus comes to town so we was right sprised to see him walk right in unarm'd. "I calculate you've come over to vote republican too," says Pooch wimkin. At which everybody laughs hoarsey.

Eb acts as if he seen a gost. "Land o' Goshen," he says violent like. "How did you fellows find that out?" "After that it warn't no sprise at

### Greek "Society Generals" Gone

Morale of Military Strengthened by Real Fighting Men for Leaders.

By JOHN CLAYTON.  
Chicago Tribune-Omaha-Des Moines Foreign News Service.

Desdageath, Sept. 25.—Young King Alexander of Greece has once more endeared himself to the hearts of his troops. During the offensive in Thrace he followed his army into the battle area, and by his presence there inspired his troops to an even higher morale than they showed in Asia Minor.

There's no doubt about it the Greek is a different soldier today from what he was in the disastrous Turkish war. Certainly he was present in overwhelming numbers, but he has proved himself well disciplined, sturdy on the march and keen for fighting.

Venizelos is responsible for this change, and in his desires he has had the hearty accord of the king. For he has removed from high commands the socially important but valueless generals of the old regime and placed at the head of the Greek forces men whose chief qualifications are knowledge of modern tactics.

The commander in Thrace, who directed the operations against Thayar's men, Zymbrakakis, was one of the first of the high officers in the Greek army to support Venizelos' cause. He backed the premier because he saw in the rebel forces an opportunity of advancement which he might have lost under the system of court preference, and he saw also that Greece must follow Venizelos if she chose the honorable road.

In the completion of the Turacian campaign he sees the achievement of

### French Drama Temples Are Short of Funds, May Close

Paris, Sept. 25.—Unless the French government consents to award them another 500,000 francs yearly by way of subsidy, the famous triumvirate of classical French playhouses, the Opera, Opera-Comique and Comedie-Francaise, may have to close.

Their subsidy is already more than 3,000,000 francs apiece. In spite of the high cost of their seats the Opera and Comedie-Francaise have never known a financial success. The Opera-Comique is moribund, but invariably shows a substantial deficit every year.

### Feathered Gowns Feature Of London Fall Styles

London, Sept. 25.—Feathered gowns are predicted as the fall fashion surprise. Exclusive customers are being shown dress models in capucine charmuse adorned with cock feathers.

The name in the name given to the newest of colors, a curious copper shade. The feathers are used in clusters at the waist and the sash draperies also bear tufts of the feathers.

### King Gone, Woman Cries, Then Finds Kitten Stole It

Paris, Ky., Sept. 25.—The police were baffled. The diamond ring was gone and no trace or clue had been left by burglars.

Pretty Miss Effie O'Donnell, owner of the diamond, wept. She had given up all hope. She noticed her pet kitten was rolling about on the floor as if in pain, and going to the kitten found her ring fastened firmly over one of the cat's front paws.

**French Establish Premier European Air Mail Route**  
Paris, Sept. 25.—The first intercontinental air mail has been established by the French between Paris and Brussels. Letters will be transported between France and Belgium by air for 15 cents.

Other air mails are to be arranged between Vienna and Rome, Madrid, Geneva, Paris and Budapest.

**ECZEMA CAN BE CURED**

**Free Proof To You**

All I want is your name and address so I can send you a free trial treatment. I want you to try this treatment—quick, all—last!

I have been in the Retail Drug Business for 20 years. I am Secretary of the Indiana State Board of Pharmacy and President of the Retail Druggists' Association. Nearly everyone in Fort Wayne knows me and knows about my successful treatment. Over fourteen thousand five hundred men, women and children outside of Fort Wayne have, according to their own statements, been cured by this treatment since I first made this offer public.

If you have eczema, itch, salt rheum, tetter, severe itch, etc., my treatment has cured the worst form in five to ten days. Send me your name and address on the coupon below and get the trial treatment I want to send you FREE! The wonders accomplished in your own case will be proof.

**A. C. MUTZELL, Drugist, 3742 West Main St., Fort Wayne, Ind.**

### How Iron In The Blood Helps Push You Forward To Health, Success and Power

While Lack of Iron May Drag You Backward To the Depths Of Weakness, Ill-Health and Despair—Physician Explains Why

**Men Of Iron Will, Strong Determination and Purposeful Action are Men Of Blood and Iron—THE KIND OF MEN ORGANIC IRON—LIKE NUXATED IRON—HELPS MAKE**

By Building Red Blood, Strength and Endurance

There are thousands of men who can look back to the time when they seemed to be on the road to success yet who today are nervous wrecks, business failures and physical and mental weaklings, all through a lack of sufficient iron in their red blood corpuscles," says Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner. "They have lost sight of the fact that a sound, strong body, brimming over with vital force and energy is the basis of all real achievement and as a result they are breaking down at a time when they should be enjoying that perfect bodily health which cries defiance to failure and disease. Yet the moment they get the right kind of iron in their blood to give increased strength and endurance, they gain physical poise and fitness, mental alertness and the tireless energy that carries them to the top. I strongly advise every man who is fagged out by worry, long hours and overwork to build up his strength, energy and endurance by taking some form of organic iron—Nuxated Iron—for I consider it one of the foremost blood and body builders, the best to which I have ever had recourse."

Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City, says: "Weakened by the heavy drains upon their nerve force and physical strength, many men are back had in life by lack of iron in the blood. Their thin, pale, watery blood has utterly lost power to send energy and power through the body and as a result they are lacking in strength and endurance and are unable to drop back among the weaklings and failures—beaten because their blood is literally starving for health-giving iron. Today, it is red blood—rich in iron—such as Nuxated Iron helps to build that gives men the force, energy and power to conquer obstacles and become virtually masters of their own destinies. Time and again I have seen Nuxated Iron begin to give weak, nervous men new vigor, energy and endurance in only two weeks' time."

**Manufacturers' Note:** Nuxated Iron, which is well known to druggists everywhere, like the other inorganic iron products it is easily assimilated and does not irritate the stomach. Each tablet contains 1/2 centigram of pure iron and the words Nuxated Iron are stamped into each bottle, so that the public may not be misled into accepting inferior substitutes. The manufacturers guarantee successful and strictly satisfactory results to every purchaser of their well-refined product. It is dispensed by all good druggists.

## WARNING!

The "Bayer Cross" on tablets is the thumb-print which positively identifies genuine Aspirin prescribed by physicians for over 20 years, and proved safe by millions.

**Safety first! Insist upon an unbroken "Bayer package" containing proper directions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago and for Pain generally. Made and owned strictly by Americans.**

### Eye Specialist and Medical Author Report on Wonderful Remedy To Strengthen Eyesight

Say It Strengthens Eyesight 50% in One Week's Time in Many Instances

New York.—Dr. Smith, a well known eye specialist, and Dr. Judkins, a Massachusetts physician and medical author, make the following reports after a thorough test of a popular remedy for the eyes:

Says Dr. Smith: "When my attention was first called to it I was inclined to be skeptical. But it is a rule of mine to give every new treatment a chance to prove its value. Having specialized in eye work for many years I feel qualified to express an intelligent opinion on remedies for the eyes. Since this one has created such a sensation I welcomed the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that some of the results I have accomplished with Bon-Opto not only astonish myself, but also other physicians with whom I have talked about it, and I advise every thoughtful physician to give Bon-Opto the same careful trial I have and there is no doubt in my mind that he will come to the conclusion I have, that it opens the door for the cure of many eye troubles which heretofore were difficult to cure with other remedies. I have had many cases of individuals who had worn glasses for years tell me they have dispensed with them through the use of Bon-Opto. In my own practice I have seen it strengthen the eyesight more than 50 per cent in one week's time. I have also used it with surprising results in cases of work-strained eyes, pink eye, inflamed lids, catarrhal conjunctivitis, smarting, itching, burning, itching eyes, eyes weakened from colds, smoke, sun, dust and wind, watery eyes, blurred vision, and, in fact, many other conditions too numerous to mention in this report. A new and striking case that has just been brought to my attention is that of a girl 12 years old. Two prominent eye specialists after a thorough examination, decided, according to her father, that she had lost the sight of her right eye, and the left must be removed. While awaiting an opportunity for the operation and still undecided as to its wisdom, her father was told it would do no harm to use Bon-Opto. In less than three days a marked improvement was noticed. At the end of a week the inflammation had almost disappeared, and at the end of six weeks the eye was pronounced saved. Just think what the savior of that eye means to this little girl! Another case is that of a lady 55 years old. She came to me with dull vision and extreme inflammation of the lids and the conjunctiva was almost raw. After two weeks' use of Bon-Opto the lids were absolutely normal and her eyes are as bright as many a girl of 16."

Dr. Judkins, Massachusetts physician and medical author, formerly chief of clinics in the Union General Hospital, Boston, Mass., and formerly house surgeon at the New England Eye and Ear Infirmary of Portland, Maine, says: "I have found occlusis too prone to operate and opticians too willing to prescribe glasses, while neglecting the simple formulae which form the basis of Bon-Opto, which in my opinion, is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eyesight will soon make eye-glasses old-fashioned and the use of Bon-Opto as common as that of the tooth brush. I am thoroughly convinced from my experience with Bon-Opto that it will strengthen the eyesight at least 50 per cent in one week's time in many instances."

Victims of eye strain and other eye weaknesses who find that according to Dr. Smith and Judkins there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable remedy and many who once wore glasses say they have laid them aside. One man says after using it: "I was almost blind. Could not see to read at all. Now I can read everything without any glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. The left must be removed. What a wonderful lady who used it says: 'Without glasses, but seemed hazy with it; without atmosphere,

5c per corn  
Ends it quickly and completely

When you suffer a corn please remember this: Less than five cents and a moment's time will end it by a touch.

Apply liquid Blue-jay or a Blue-jay Plaster. The pain will stop. And soon the corn, however old, will loosen and come out.

Millions of people have proved this. Every night a myriad of corns are ended in this way.

Corns are becoming rarer and rarer, as everybody knows. The reason lies in Blue-jay. It has solved the corn problem for all who find it.

Don't pare corns and pad them. Don't cling to old harsh treatments. Apply this scientific method—watch it act.

Then remember that every corn can be ended in that quick, gentle way. Order the Blue-jay now—your druggist sells it.
