Ice Cream Soda Gains Popularity in Gay Paree

Paris, Sept. 26 .- After making a somewhat disappointing start the ice cream soda is slowly gaining ground in Paris in competition with the ican alcoholic drinks, ranging from vermouth chassis to the kick-pro-ducing martini and Jack Rose cock-

It is a bit too early to make any predictions, but it seems likely that the number of soda fiends will have at least tripled before another year rolls round. For the first time in history Paris is really taking to the tall glass of fizz and syrup and seven soda emporiums now sport them-selves upon the boulevards.

Foreign Delegates Ready to Renew Drive Against Liquor In Their Countries.

Washington, Sept. 26.—Armed with information on the victory of prohibition in the United States, forcign delegates to the International Cengress Against Alcoholism were ready to return home and conduct

among their own peoples drives against intoxicating liquor. Richmond Pearson Hobson placed before the congress resolutions intended to aid the advocates of world prohibition. The congress, being un-anthorized to act, referred the reso-lutions to the international commitce, which governs its session,

Mr. Hobson, in his resolutions, urged the application of the "scrum of education" to the anti-prohibitionists of countries where the open bar room still holds sway. He declared that the campaign of education emplayed to bring about prohibition in the United States was the best method for drys in other countries

Introduction of the resolutions followed their adoption by the exec-utive committee of the World Probition federation, which met here in connection with the congress.
Committees from the Women's Christian Temperance union and the World League Against Alcoholism Mr. Hobson said, also were giving the proposals consideration. The World federation also adopt-

Gasoline Supplies Dwindle in Spite of Boost in Production

Washington, Sept. 26. —Gasoline oroduction for 1920 maintains a consistent increase over the production of 1919, but stocks of gasoline are lower than the production and are relatively lower than those of July 31, 1919, says the bureau of mines, in a report issued today. On July 31, 1919, the stocks of gasoline at the refineries amounted to 38 days' supply, whereas on July 31, 1920, the stocks were reduced to 25 days' supply on hand. There were special trains from New York, with Boston, Philadel-phia, Pittsburgh, Louisville, Cincinnati and Minneapolis coaches. J. P. Kazar of Bloomington, Ill. was the spokesman for the salesmen. After assuring Senator Harding of support on election day and urging a return to sound business principles in government affairs, he spoke of two special things of interest to salesmen.
