What's What

By HELEN DECIE.

Some women appear to believe that they are entitled to seats in trolley cars, even though all the available seating space is occupied by other women. So acute is their sense of what they deem to be their rightful accommodation that they "take it out" in annoying the seated passengers, as in the illustration, where one woman has placed a box of candy on a seat-occupant's shoulder, and another, a girl, is crushing with the weight of her magazines the hat of the seated passenger to the left of the scene.

School teachers and business girls are not given to this petty malice. If no seat is vacant when they enter the car they stand independently in such a way as not to interfere with the comfort of other passengers. Nor are the annoying leaneers invalids who need rest; they are chronic trouble-passers who have acquired the habit of shifting all their discomfort to other people's shoulders.

If universal suffrage shall serve to extirpate the feminine parasite, all mankind will bless "votes for women."

Earning Camp Fire Honors

On Saturday when you receive your tag in exchange for the donation you make to the Campfire Girls, it might interest you to know that

185 audiences tried it this way

MOST people know that the musical enjoyment which they get out of a phonograph depends upon one thing. That thing is the phonograph's realism.

This picture shows the best way to test a phonograph's realism. Miss Betsy Lane Shepherd, the famous soprano, is standing beside the New Edison, and singing in direct comparison with the New Edison's RE-CREATION of her voice.

185 audiences, aggregating more than 100,000 people, have actually heard this comparison. None could distinguish between her living voice and its RE-CREATION.

This is one of the phenomenal records of realism. The New Edison holds all other records of realism, too, because no other phonograph attempts this comparison-test—or could sustain it!

The NEW EDISON

"The Phonograph with a Soul!"

You try it this way

—the way we use in our store!—the Realism Test! Test the New Edison's Realism against the pleasure you know music can bring.

Tell us what kind of voice or instrument gives you truest musical enjoyment. Listen while we play your favorite on the New Edison. The Realism Test will enable you to gauge whether the New Edison's RE-CREATION gives you all of this enjoyment.

This is your test! It will help you determine what the New Edison's Realism means, in terms of your own musical enjoyment.

Ask for it! The "Personal Favorites" Realism Test.

Another thing to ask about is our Budget Plan. It disposes of the money question, in a way that will appeal to your common-sense and to your pocketbook.

Isaac Sadler D. A. R.

Major Isaac Sadler chapter D. A. R., will resume its meetings beginning Saturday afternoon, at the home of Mrs. E. E. Stanfield, 806 South Twenty-eighth avenue. Following the business session,

the bright colored wooden beads attached have a significant meaning to every campfire girl.

Home crafts are represented by orange in the campfire code; hand crafts by green; nature lore, blue; health, red; patriotism, red, white and blue and business, yellow. There are about 300 honors in these groups.

Josephine Hamlin and Ruth Grimmel are shown in the picture earning business and home craft honors.

As a girl receives honors she progresses from rank to rank, striving always to keep the law of the campfire which is to seek beauty, give service, pursue knowledge, be trustworthy, hold on to health, glorify work and be happy.

You may not be able to earn a real campfire honor bead but everyone will be given the chance to earn a local honor by purchasing one of the campfire tags on Saturday.

The money collected will be used to maintain the Omaha headquarters for a trained executive, as well as the training of individual guardians.

John L. Webster will speak on the "Landing of the Pilgrims." Six members of the chapter descended on the Mayflower, will tell of their early ancestors.

Miss Gertrude Veech will give the history of Stephen Hopkins; Mrs. Marjorie Bryant Evans will tell of John Alden; Miss Ida M. Crowell, William Bradford; Mesdames George N. Mechem and F. G. Blomquist, Elder William Brewster, and Mrs. Roland M. Jones, Dr. Samuel Fuller.

The Vogue for Lace
The present vogue for lace is widespread. Lace fans and lace scarfs in great variety are used. Stockings for evening wear have insets of rare old lace, and several of the new evening slippers are adorned with little bows of lace. Even satin mules are shown covered with ecru lace.

In Arabia it is the custom for the husbands to ride while the wives walk behind them.

Do You Know—III

Three Questions a Day for the Housewife.

1. How large a proportion of the world's population are wheat eaters?
2. What is a bisque?
3. Why does water sometimes appear softer after it has been boiled?

(These questions will be answered tomorrow by the Housewife.)

Answers to Yesterday's Questions.

1. Saratoga chips were originated by a colored chef at Saratoga, N. Y.
2. Food cooked in deep fat is more wholesome than food cooked in shallow fat because the deep fat covers it all at once and cooks the outside, so that the grease cannot penetrate.
3. New stockings should be washed before they are worn as they sometimes contain dressing that makes them wear out.
