Danderine is "Beauty-Tonic"

Immediately after a "Danderine" massage, your hair takes on new life, lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken. Don't let your hair stay lifeless, colorless, plain or scraggly. You, too, want lots

of long, strong hair, glistening with beauty. A 35-cent bottle of delightful "Danderine" freshens your scalp, checks dandruff and falling hair. This stimulating "beauty- tonic" gives to thin, dull, fading hair that youthful brightness and abundant thickness—All Drug Counters!

"The workmanship on a Cadillac is simply perfect. There is no other word for it. It is far and away superior to anything I have seen elsewhere. The infinite pains taken over the infinitely small jobs are most impressive."

From an interview with the distinguished English designer, Mr. Lawrence H. Pomeroy, published in The Motor, the English National Motor Journal, August 4, 1920.

We have never spoken as strongly of the Cadillac as does this generous English critic.

Respecting the patriotic pride of England, France and Italy in their own splendid products, we have never made invidious claims of Cadillac superiority.

But, as we have said before, the group of men whose life is bound up in the betterment of the Cadillac, would be less than human if they did not experience a deep satisfaction at such tributes from European sources.

Surely, it is no slight thing for these men to be told, or for Cadillac owners to hear, that America's great car is also proclaimed the great car of the world!

We feel that there is no impropriety in publishing the facts, since England has so generously disclosed them.

We feel that every man, woman and child in the more than one hundred thousand homes in which the Cadillac is a household institution, will derive an added pride in their owner-

ship, of which we have no right to deprive them.

It would be hypocritical for us to pretend that we believe that the English engineer who is quoted above has overstated the case in his reference to Cadillac workmanship.

"Infinite pains taken over the infinitely small jobs"—in these words he has given a true and graphic picture of the rigid rules that govern Cadillac manufacture.

Spurred on by the overwhelming tributes paid to Cadillac performance by foreign observers and American military men in the world war, Cadillac craftsmen have redoubled, during the past two years, the unflagging zeal that actuated them during the preceding fifteen years.

The Cadillac has been honored by being pronounced the greatest car extant of any size or any price, at home or abroad.

We accept the heavy responsibility which this world leadership implies, and pledge ourselves that we will endeavor to the utmost to continue to deserve it.
