

### Leflang Says Assets Worth Only \$142,000

#### Plaintiff Leaves Stand After Nearly Two Days' Examination — Trial May Last All Week.

Joseph C. Leflang left the witness stand in District Judge Sears' court yesterday afternoon after nearly two days' examination and cross-examination in his suit for a divorce from his wife, Caroline Leflang. Most of the time yesterday afternoon was taken up in cross-examination by Mrs. Leflang's attorneys regarding the amount of his present assets. Mr. Leflang presented an itemized statement of these totaling \$142,000 and cross-examination failed to reveal any more.

He said he paid about \$4,000 federal income tax on his income of last year which was between \$35,000 and \$40,000, but that most of that income was derived from the sale of some of his shares in the Lexington Milling Co.

After brief testimony by two witnesses for the plaintiff this morning, Mrs. Leflang's side of the case will be taken up.

Attorneys estimate that the hearing will not end before Saturday. Testimony regarding two sisters known in court as "Martha" and "Hazel" and letters alleged to have been written to "Martha" by Arthur C. Leflang, occupied the morning session yesterday.

Leflang admitted he had called on "Martha" and "Hazel" at their apartments in Chicago on a trip last taken taken by himself and his wife, for the purpose of obtaining these letters. He testified that efforts had been made to sell these letters to his wife.

He said that when they arrived in New York he and his wife, with their children, were taken to the Biltmore hotel and refused, he declared, to tell who wrote it.

"On our return through Chicago I called at the same apartments," Leflang said, "to learn whether they had written the letter and to give them notice to stop writing. While I was there Mrs. Leflang appeared with two policemen and three of her private detectives."

Leflang testified that his wife had demanded \$200,000, claiming this amount was necessary to insure the \$1,000 a month income she claimed necessary to maintain her station in life.

### I'M THE GUY

I'M THE GUY who plants himself on the street corner so as not to miss anything that's going on, and makes everybody turning that corner walk around him. I'm not worrying about the space I'm taking up, or whose way I'm in, or how I discommode others. I plant myself where I want to be, and if I want to make root there for a whole afternoon, that's my affair. I don't see why I should move out of YOUR way just because YOU want a little room on the sidewalk. That would discommode ME.

I'm entitled to as much of the sidewalk as I occupy, and where I want to hold down my share of it is up to me. If you object to dodging around me or stumbling over me, don't turn the corner—keep going straight ahead. I don't care where you want to go. For all of me you can go to Kamchatka.

### Rupture Kills 7,000 Annually

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment. But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known. The PLAPAO PAD when adhered closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—responsive. To be used whilst you are doing what you sleep. No straps, buckles or springs attached. Learn how to close the hernial opening as nature intended so the rupture can't come down. Send for the PLAPAO PAD, FREE, to Block 840, St. Louis, Mo., for FREE trial Plapao and the information necessary.

### Embargo on Big Corn Is Placed by Auburn Bankers

Auburn, Neb., Oct. 6.—(Special).—Nemaha county banks have placed an embargo on farmers bringing in any more giant cornstalks or ears of corn for display in the lobbies of the banks. So great has been the competition for the past few weeks on the part of farmers trying to show the largest ears and the tallest stalks of corn, that space in the lobbies has been crowded, and it has been a problem on the part of the bank employes to find space for the exhibits.

### Tentative Wage Scale Is Fixed for Corn Huskers

Auburn, Neb., Oct. 6.—(Special).—Farmers in this vicinity have entered into a tentative agreement to pay corn shuckers 8 cents a bushel for gathering the crop this year, provided the price does not drop lower. With the growing demand for jobs on the part of men, who have been displaced from factory work in the east, this price may eventually drop to 6 cents per bushel.
