Hogs—Only 1,000 hogs were received for today's trade, and demand from all quarters had a fait degree of activity at slightly higher prigs. Packing droves were put up at a serieral advance of 16 10c. with a few hogs selling steady to strong. The yards were cleared in good season, Bulk of receipts changed hands at \$1.506 14.25. with best light hogs making a top of \$14.75.

Sheep—Something like 7,000 sheep were received today and good killing grades were rather scarce; best lambs here, shipment of, well-finished come-backs, brought \$12.00; trade was quoted generally steady. Good cows were in fair received up to \$5.25 and fat aged wethers would likely sell up to \$7.00 ft. The feeder market was a lively affair from the start at prices 100 15c higher, several leads of good feeding lambs went out at \$12.60.

compares with 741,000,000 on the same date linst year. The total on hand the first of this mouth represented 471,000,000 at other points of accumulation. Last year on October 1, farmers held E15,000,000 hushels mills and elevators and 25,000,000 hushels. mills and elevators 142,000,000,000 hushels. The department reported that during the first quarter of the present season from July 1 to October 1, the farmer marketed 271,000,000 hushels compared with 450,000,000 lisst year, a reduction of nearly 25 per cent. The crop this year plus the carry-over from 1319 is estimated at 783,000,000 or about 17 per cent less than last year. These figures were said to indicate that farm marketings during the first quarter have been relatively smaller than in any similar period last year. Total supplies in all positions, conditions, there is less wheat on hand than last year and two years ago. The big decreases are in the mill and elevator stocks and at terminals. Farm stocks are 38,000,000 bushels under last year and 85.76 per cent two years ago, as shown by the grain corporation figures. Viewed 4rom the total supplies as compared with hast year, the statement is bullish. When Canadian supplies are considered, it makes a material difference.

Considerable change has come in the mental stitude of the grain trade the past few days, owing to agritation by farmers disastified with present low prices. Country elevator operators have little grain in which there is no loss and bulges aring out sales by them. The public in general is not increasing its interests on the buying side of grains despite the holding artifude of the farmers.

Houses in the southwest claimed they made the largest purchases of wheat from in menths. Others who were good buvers Konday, said they got nothing yesterday. A very large export business was put through in cash wheat via the guil and the seaboard during the past from interior elevators yestendies the holding artifude of domestic and Canadian at 2-9-0,000 hushels.
