

### Thousands Visit Pure Food Show

**Tempting Food of Many Varieties Are Sampled by Visitors Who Throng Auditorium First Night of Exhibition—Manufacturers, Jobbers and Packers Are Represented.**

Doors of the Municipal Auditorium swung open yesterday to admit thousands of Omahans to a fairland of food, where lights and colors blend in harmony, and tempting food of a thousand varieties may be seen and sampled.

Those who attended the second annual pure food show of the Omaha Retail Grocers' association yesterday were unanimous in pronouncing it the most complete and beautiful ever seen here.

They found 70 booths, installed by as many leading manufacturers, jobbers and packers, and containing food products of the highest quality. They also found that the decorators had been active, for the food displays were enhanced by elaborate scroll work, vines and flower effects.

Added to these decorations were thousands of electric lights, shaded in a decorative manner, which cast a soft glow over the interior of the huge building.

**Closes Next Saturday.**

J. J. Cameron, secretary of the Retail Grocers' association, estimates that fully 60,000 people will visit the show during the week. Doors of the Auditorium will open Monday and each day this week at 1:30 p. m., remaining open until 10:30 in the evening.

The show will not close until Saturday night.

Practically every variety of vegetable, fruits, cereals, meats, fish and other food products produced in this country are on display.

R. Olsen's orchestra will furnish

music for the show both afternoon and evening.

Prizes will be given away each evening from the stage to those holding lucky numbers. These numbers will be given with all admissions to the show. A special program of stunts also will be carried out each evening.

**Country Store Feature.**

The South Side High school band, with 45 pieces, will give a concert Friday evening.

Thursday evening will be "Council Bluffs night" and a special attraction has been arranged for that occasion.

One of the big features of the show will be the country store. It will be in charge of C. F. Kelly, Louis Sommers, Fred Hannigan and Bert Howell.

Food show officers and members of the committee that has charge of the show are Ernest Buffett, Fred Hannigan, C. F. Kelly, J. F. Kirk, Louis Sommers, Bert Howell, William Rudloff, Ben Newman, C. V. Warfield, Sam Schaffer, D. J. Hughes, Lloyd Wallace and J. J.

**Royal  
Lemon  
Kleener**

Cameron, secretary and manager of the show.

Never before has as great a number of leading concerns placed exhibitions at a food show in Omaha as this year, according to Manager Cameron. Manufacturers, jobbers and packers making displays are as follows:

**Here They Are.**

er Cold Storage, Council Bluffs. Several of these concerns will occupy double booths.

**Convict, Attempting Escape, Forced By Hunger to Give Up**

Rawlins, Wyo., Oct. 16.—An onion diet for four days, without water, was all William Smith, convict, could stand. When he left his hiding place over the ceiling of the prison bakery for a drink of water and a breath of air he was captured and returned to his cell.

Smith escaped from the prison by placing a dummy in his cell to deceive the guards. He climbed through a small hole in the bakery ceiling. For four days Smith suffered as the hot sun-beating upon the prison roof made his hiding place almost unbearable from heat. A small bunch of onions was his only sustenance.

**Ice Making Machines Manufactured In Omaha**

One of the large and important industries of Omaha is the manufacture of ice-making machines by the Baker Ice Machine company, which was organized 16 years ago by J. L. Baker, who has ever since been the head of the corporation.

Mr. Baker took over a small and struggling plant and soon put it on its feet. He has seen it grow from a mere infant into a large-sized and prosperous factory, now giving employment to 120 skilled mechanics, and its output—the Baker ice machine—finds a ready market in all quarters of the civilized world.

Wherever it goes it advertises the city of Omaha.

This machine has been installed in seven of the leading hotels of

**Man Ruptured Appendix Cranking Car, Asks \$5,000**

Boston, Oct. 16.—Charging that the tank of his auto was filled with kerosene instead of gasoline, and that he in consequence cranked the car until he ruptured his appendix, Harry Carp, of Dorchester, filed suit for \$5,000 in the superior court.

The defendant is Morris Schloss, proprietor of a hardware store where Carp alleges he was supplied with kerosene in place of gasoline.

**Chicago Markets Accept Canuck Catch of Whitefish**

Edmonton, Alta., Oct. 16.—Chicago has put the seal of its gastro-nomic approval on whitefish from

northern Canada. Practically all the whitefish caught in Lesser Slave lake this summer went to tillitate Chicago palates.

Five fisheries were in operation of this lake in the pine and fir woods of northern Alberta. The summer fishing is restricted by law to 1,500,000 pounds and the entire output was sent to the Chicago market. Shipments were made in refrigerator cars by express train. Prices realized were 9 and 10 cents a pound.

**New Typewriter for the Blind Easily Learned**

Paris, Oct. 16.—A group of total blind people, after having received an hour's instruction, were able to take down ordinary conversation and spoken words, according to the new "breviography" system invented by the Frenchman, Duval.
