ALL DRUGGISTS SELL IT

The Weak or the Strong One If you see before you a strong and safe bridge leading to

your goal, would you ignore it and choose some insecure and tottering structure?-

If you were offered sure aid in time of trouble would you hesitate to accept it? -The answer is simple — you would choose what all evidence showed to be the safe way — and you would risk nothing in

Why then do some women risk one of their most pre-cious possessions — their health — in trying medicines of unknown value, when everybody knows that the most successful remedy for woman's ills is Lydis E. Pinkham's Vegetable Compound. Here is more proof:

Reading, Pa.—"I had organic in-flammation, pains in the side and back which were so sharp that they pulled me to my knees, and I could not walk. I had an operation and still I failed, and in the eight years I suffered I had four doctors and none helped me. My mother-in-law ad-vised me to take Lydia E. Pinkham's Verestable Compound. I was then vised me to take Lydia E. Pinkham's Vegetable Compound. I was then in bed, and after the first bottle I could be out of bed, then I took Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine and also used the Sanative Wash. I still take the medicine and am able now to do myown housework. My friends say, 'My! but you look well—what do you do? Who is your doctor?' and there is only one answer, 'Lydia E. Pinkham's medicines.'' — Mrs. Wm. Strim, 500 Douglas Street, Reading, Pa.

Gainesville, Tex.—"For three years I suffered untold agony each month with pains in myside. I found only temporary relief in doctor's medicine or anything else I took until my husband and I saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results, and advised me to try it. I was then in bed part of the time, and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound, and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go sbout my work, and do my housework besides. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. M. STEPHERS, 208 Harvey St., Gainesville, Texas. Don't Experiment - Insist Upon

Rupture Kills 7,000 Annually

ADVERTISEMENT

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false propagainst a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the yeakened truceles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The FLAPAO method is unquestionably the most attentific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or chiff out of place, therefore, cannot chafe

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. To be used whilst you work and whilst you work and whilst you work and whilst you work are aprings attached.

Learn how to close the hernial opening as mature intended so the rupture CAN'T nome down. Send your name today to PLAPAO CO., Block 940. St. Louis, Mo., for FREE trial Plepso and the information necessary.
