"Old Man Dollar Goes Back to Work Monday"

FOR the last few years your dollar has not done the work it did before the world war began.

You may put it either way, that the price of everything in the world has gone up and up, or that the buying power of the dollar has as steadily gone down.

No matter which, your dollars and our dollars have not been working for us as they formerly did.

But Now "Old Man Dollar" Is Getting Back on the Job

Due to the recent sharp break in the markets, your dollar will now do almost twice as much work as it did before.

Sunday we shall announce in the daily papers a merchandise event so unusual as to border on the sensational.

It is not a "special sale" nor a "reduction" sale, indeed it is not a "sale" of any kind. It is merely a partial return to normal prices that we are very happy to make, enabling us once more to be of
