What's What

By HELEN DECIE

In the great American game the highest stakes may be won occasionally by bluff, rather than by cards in hand, so that with an adept at poker, four-of-a-kind, raised again and again may frighten away—say, the holder of a pair of packs. But when the four-flusher happens to raise a player holding a full house or four aces or a straight flush or even a plain unassorted five-card flush he is forced to throw his hand into the discard when his bluff is called and his weakness exposed. The four-flusher in society bluffs his way along for a time, but sooner or later his gauge is discovered, his character assets are evaluated at their actual worthlessness, his bluff is called and his reputation is thrown into the discard.

Escaped an Operation

There is nothing in the world a woman so much fears as a surgical operation. Often they are necessary, but often not; and many have been avoided by the timely use of that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound. If you are suffering from some dread ailment peculiar to your sex, why not profit by the experience of these two women whose letters follow?

These Two Women Saved from Operations.

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells they would unfit me entirely for my household. I suffered for months and the doctor said that my trouble was organic ulcers and I would have to have an operation. That was a awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and since then I have been a well woman, able to take care of my household and family without any trouble or a day's pain. I am ready and thankful to swear by your medicine any time. I am forty-four years old and have not had a day's illness of any kind for three years."—Mrs. H. KORNIG, 617 Ellis Blvd., Cedar Rapids, Iowa.

The dotted lines indicate the figure contour when uncorseted.

You may have this contour in either back-lace or front-lace style.

The dotted lines—

The dotted lines show a development which is a source of annoyance to many women whose figures are otherwise slender and fashionable.

This type of figure requires special corseting to adjust the faulty lines and distribute the fullness which has settled at the thigh. A Redfern Corset has been designed to do just this.

Redfern Corsets are for individual types of figure, and no matter what your type of figure, there is a Redfern which will subdue its faults and bring out its best lines.
