

Emergency Orders for Coal Shipments to Northwest Suspended

Washington, Oct. 28.—Emergency orders for preference in car supply

and priority in the movement of bituminous coal to Lake Erie ports for trans-shipment to the northwest were suspended indefinitely today by the Interstate Commerce commission.

stated, with extensive accumulations of coal at these ports and a large volume en route. Production of coal and car supply have been considerably increased, the commission added, and are believed adequate to take care of the northwest without the priority order.

shortage of coal for domestic use, for which transportation must be supplied before cold weather sets in. The suspension of the northwest order the statement added, "should enable the mines and railroads to take care of the central territory promptly and fully."

Britain Renounces Right to Confiscate Property of Germany

Paris, Oct. 28.—The French foreign office received official notification today that Great

Britain renounces the right of confiscation of German property in the United Kingdom. This has caused great surprise, which is freely expressed in French official circles. French officials emphasize the gravity of this move, as they fear Germany will make a similar request of France, which it is declared,

could not be granted. However, they point out that the renunciation by Great Britain is not as sweeping as reported at first. It was said at the foreign office that France would send a reply to the British note, but what form the reply would take could not be disclosed at this juncture.

Britain retains her rights in case of voluntary default by Germany. Can't See Triplets. London, Oct. 28.—John Davis, of St. Francis, will never see, all his good fortune. He's blind and the newly-elected father of triplets.
