## Buying Opportunities for The Needs of the Individual

There is hardly a man or woman living today who has not put off buying many needed things--some of them actual necessities, others those little luxuries to which we were more accustomed in the days when prices were not so objectionably high as they have been until lately.

Now, with the old price levels almost restored, we all find we need so many things which can again be had--and bought with real satisfaction.

The bureau drawers are not so full of heavy underwear and hosiery as in former years. Handkerchiefs, gloves, shoes, neckwear and those little articles of dress so necessary to our comfort (and happiness), can now be replaced without regret at the price paid.

New coats, suits and dresses will be welcomed, with the coming of the sharp winter days, at the lowered price levels--and sweaters, overcoats and furs can be bought without a sigh of unhappiness as the price is named.

Silks, dress goods, petticoats, notions, and those little things so dear to a woman's heart again are within reach, and can be had without self-reproach of extravagance.

Burgess-Nash Co. is no less happy to be able to offer these lines at greatly lower price levels, than you are to buy them. **Come to the store Monday--they are ready for you in wondrous array, and at smile-provoking prices:**

### Coffee Takes Sudden Advance on Market; Rises Three Points

New York, Oct. 30.--Coffee made a sensational climb in the market today, advancing from 98 to 101 points, while rapid trading during the spurt of quotations was the heaviest in several months.

Powerful factors in the upturn included Brazilian cables, saying it was believed the loan had passed and advising purchases here, together with active support from large local interests who were re-entering the market after recent liquidation, and heavy buying of contracts against reported large sales to the Navy department.

The close was virtually the best point of the day, with December at 8.23 cents; March, 8.93 cents, and May 9.25 cents.

An engineer has estimated that the three main rivers of British Guiana can be harnessed to develop 800,000 horsepower.

### Slacker Hunger Striker Demands To Be Murdered

Conscientious Objector, Serving Prison Term for Desertion, Grows Tired of Forcible Feeding.

By Universal News Service.  
Washington, Oct. 30.--Benjamin J. Salmon, a conscientious objector serving a five-year term of imprisonment in the technical charge of desertion, and who, for the past 107 days has been on hunger strike, today wrote to President Wilson from St. Elizabeths hospital demanding that he be "murdered outright" instead of being longer subjected to the torture of forcible feeding.

Salmon went on hunger strike immediately after the sentence of five years was imposed at Fort Douglas. He was removed to St. Elizabeths hospital last July.

Salmon was recently engaged for Salmon by the Civil Liberties union of New York, a writ of habeas corpus was obtained calling on the hospital authorities and the War department to show cause as to why Salmon should not be released. The court held that Salmon is sane and upheld the sentence.

In his letter to the president, Salmon says:  
"On July 13, while still confined in Fort Douglas prison, I went on a liberty or death hunger strike. For 13 days I was allowed to starve. Then the authorities began to forcibly feed me. Forcible feeding has been continued ever since, although on numerous occasions I have been allowed to go without food."

"Today is the 107th day of my hunger strike. I still refuse to eat and I will continue to refuse to eat. Since you will not release me, will you be kind enough to murder me outright? Forcible feeding does not solve the problem; it is murder on the installment plan; the little bit of liquid food is merely torture; each day finds me a little weaker."

"You know that my only crime is refusal to kill. The attempt to brand me as a lunatic has been foiled and I have been railroaded to St. Elizabeths because I went on a hunger strike. Although I have been declared sane after two months' observation by a competent board of physicians, I am still held in an insane asylum and confined in a building set aside for insane criminals."
