**Blood Poisoning Causes** Additional Waste **By Democrats Is** Brought to Light Attack of Mountain Fever

Charges of Misappropriation Of Government Funds for **Political Purposes Laid** Before Committee.

By ARTHUR SEARS HENNING. Chicago Tribune-Omaha Bee Leased Wire. will be held today at 2 p. m. from the

cratic waste of public funds and inefficiency of administration appears while hunting big game in the Wyoto be influencing voters in the presi- ming mountains two weeks ago, redential election quite as much, if sulting in blood poison, caused his not more, than the Wilson league of death.

nations issue, it transpired tonight that there are to be still further revelations of the character of the democratic stewardship of the last eight years. I have learned on unimpeachable

authority that serious accusations der, of the misappropriation of government funds by various departments, chiefly for political purposes, and of shielding of influential offenders, have been laid before Senator Ken-yon of Iowa, chairman of the sen-

ate subcommittee, which recently investigated campaign expenditures. Senator Kenyon has determined that there shall be a thorough inquiry into these charges and intends to bring the matter before congress December, with a view to initiating investigation by the standing committees of the house and senate created many years ago to supervise expenditures in the several de-

partments. Plans Full Probe.

This proposed investigation is in-tended to shed light on the following matters:

To what extent public funds have been diverted to finance the expenses of political workers in democratic conventions, as was shown to have been done by the Department of Justice, in the case of numerous assistants to the attorney general who went to San Francisco to aid the campaign of Mr. Palmer for nomination. There were several hundred government employes in and about the convention, and the inquiry would disclose whether they all went at government expense and where there was a similar use of public funds in the case of the demo-cratic convention at St. Louis in

2. To what extent wealthy evaders of income taxes have been enabled to escape prosecution by employing as counsel, democratic leaders wielding powerful influence in Washington. The Kenyon committee heard considerable testimony relating to the compromise of claims had spent Saturday night adrift in of evaded taxes against the officials a crippled sciplane while submarine of two Pennsylvania steel concerns chasers searched up and down the who had retained former Congressattorney general's nomination campaign. State Department **Makes Statement On Jap Question** 

Published Report Declares U. S. Won't Countenance Any Alien Law Conflicting With Existing Treaties.

Washington, Nov. 1 (By The Associated Press.)-The State department declared today in a formal statement that no outcome of the movement in California to recast state laws affecting alien land tenure "will be acceptable to the country at large that does not ac-cord with existing and applicable provisions of law and, what is equally important, with the natural instinct of justice." The statement was the first issued on the California land question, which long has been a matter of conversation between the depart-ment and the Japanese ambassador

to Washington. The fact that it was issued on the eve of the election in California at which the proposed new state law is to be voted upon was declared by State department officials to have no political significance.

THE MULTIGRAPH SENIOR This is complete, compact equipment that turns out high quality print-ing and form typewriting at very low cost-averaging a saving of from 25% to 75%. It is simple and easy to operate; rapid and convenient. Electrically driven, with printing ink attachment, automatic paper feed. signature device, automatic platen release and wide printing surface. Easy payments if desired.

THE MULTIGRAPH JUNIOR This is a wonderfully efficient equipment for concerns which have a limited amount of work. It does both form type-writing and office printing and produces the same high quality of work as the Senior Equipment, but it is hand-operated only and cannot be equipped with electric power, automatic feed and signature device ents as can the Senior. Easy payments if

Easier to tell whom it doesn't help-the firm that doesn't use it. Of course, there are some firms who can't use the Multigraph, but only a few, and our sales slogan, "You can't buy a Multigraph unless you need it," takes care of them.

Just to give you some idea of the firms that can and do, here's a brief list of users and uses!

Don't bother to read the whole list. Pick out the firms and uses in your own line. Then figure that there are hundreds of others not listed. And that in these dog-eat-dog, high pressure, low supply days anything that saves money, earns money and makes money the way the Multigraph does is worth at least a hearing.

Then reach for your phone, or call your stenogra-pher, and arrange for that hearing. You'll get facts and figures applied to your business.
