PUT AT LEAST

GERMAN MARKS.

\$300 INTO

Are you among the few who are aware of the tremendous profits that can be realized by an option on German marks? It is the coming investment field. We know of no investment that offers greater possibilities for profits today than the purchase of six month options on marks.

\$300 controls 100,000 marks—possible prof-its, \$19,000. Probable profits, if marks go to 1290 or half their normal value of 23,80, would be \$7,500.

Germany is rapidly getting to work. Her factories are humming. Her industries are beginning to show old time efficiency. Her industries were affected mostly by the shortage of raw materials and labor. As these are now becoming more and more plentiful, there is absolutely he room for doubt as to Germany's complete recovery, and the return of the mark to its normal level.

lence, our advice to every man who ap-prehends the extraordinary opportunity to invest at least \$200 at once in an option on German marks.

You can obtain six-month options on marks as follows:

\$350 controls 100,000 marks. Possible profits, \$19,000. \$150 controls 45,000 marks. Possible profits, \$8,500. \$75 controls 20,000 marks. Possible profits, \$3,600. \$40 controls 10,000 marks. Possible profits, \$1,900.

Owing to fluctuations in exchange rates we urge immediate action. Now is the time to buy options on German marks. The calling rate is low, due to the unsettled conditions in Europe. Do not wait to buy either the currency or the options when conditions are settled, for when that time comes the marks will have appreciated in experts predict a substantial rise in German marks. Act now. There is no risk beyond cost of option, and there are no margin calls. Send remittance at once for any of the options listed, while the opportunity exists.

Mail orders promptly filled. Send checks or wire orders. Circular D-24 on request
