

NEBRASKA TEACHERS!

HEALTH FOR YOU WHO ARE ILL EDUCATION *for* YOU WHO ARE WELL

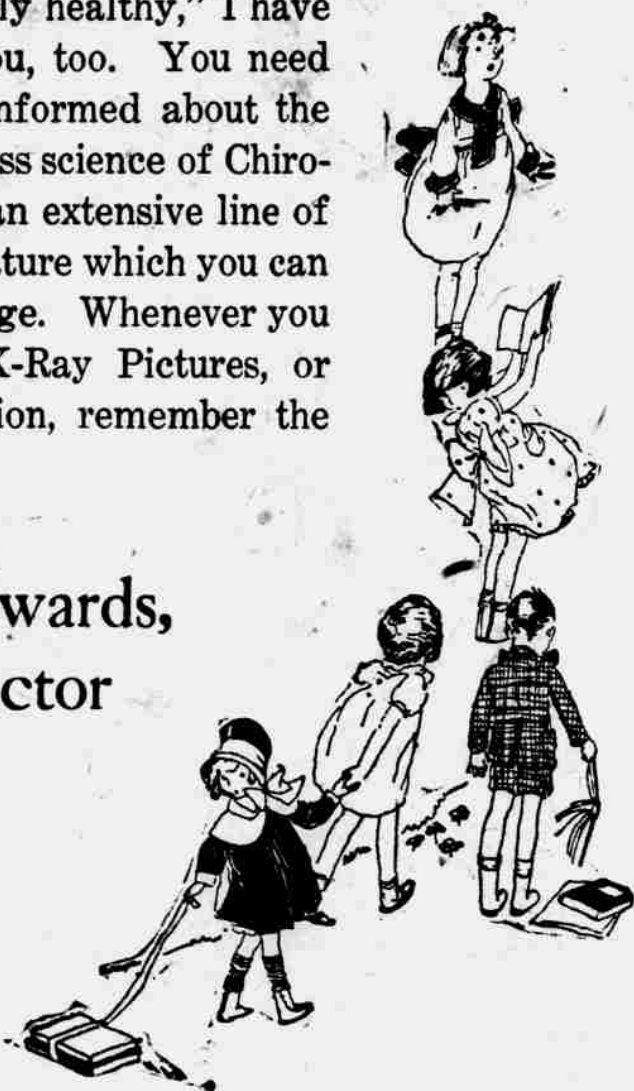

Opportunity Is Knocking For You and Your Pupils

C ALL at my office and grasp this opportunity. I feel a friendly interest in YOU because you are teachers. My father was a teacher. My two sisters, U. of N. '94, are teachers in Los Angeles, and my mother, Mrs. Emma W. Edwards, taught for many years in Nebraska and is known and loved by many of you. I have many teachers among my patients. I know that YOU are under constant nervous strain in your school work. Do you leave the school room with a light step and a clear brain, able to enjoy some outdoor sport or other recreation? If not you are handicapped by lack of life power. I can make YOU 100 per cent alive—100 per cent efficient. I know from twenty-five years, first as a physician and then as a chiropractor, **THAT CHIROPRACTIC IS WHAT YOU NEED.**

If you are one of the lucky ones who are "perfectly healthy," I have something for you, too. You need to be correctly informed about the wonderful drugless science of Chiropractic. I have an extensive line of educational literature which you can have free of charge. Whenever you desire Health, X-Ray Pictures, or Health Information, remember the name,

Lee W. Edwards,
Chiropractor

VITALITY is "Human Electricity." The human body is the health machine and if it is not developing sufficient health power to make you full of life and joy your machine needs adjusting.

Picture the one-story school building of twenty years ago. Why do you prefer the modern school buildings with up-to-date equipment to the little red school house on the hill?

The American people are the most progressive nation on earth because they are eager to accept the more advanced ideas in education and science. Education is the foundation of our country—no thinking person will deny this.

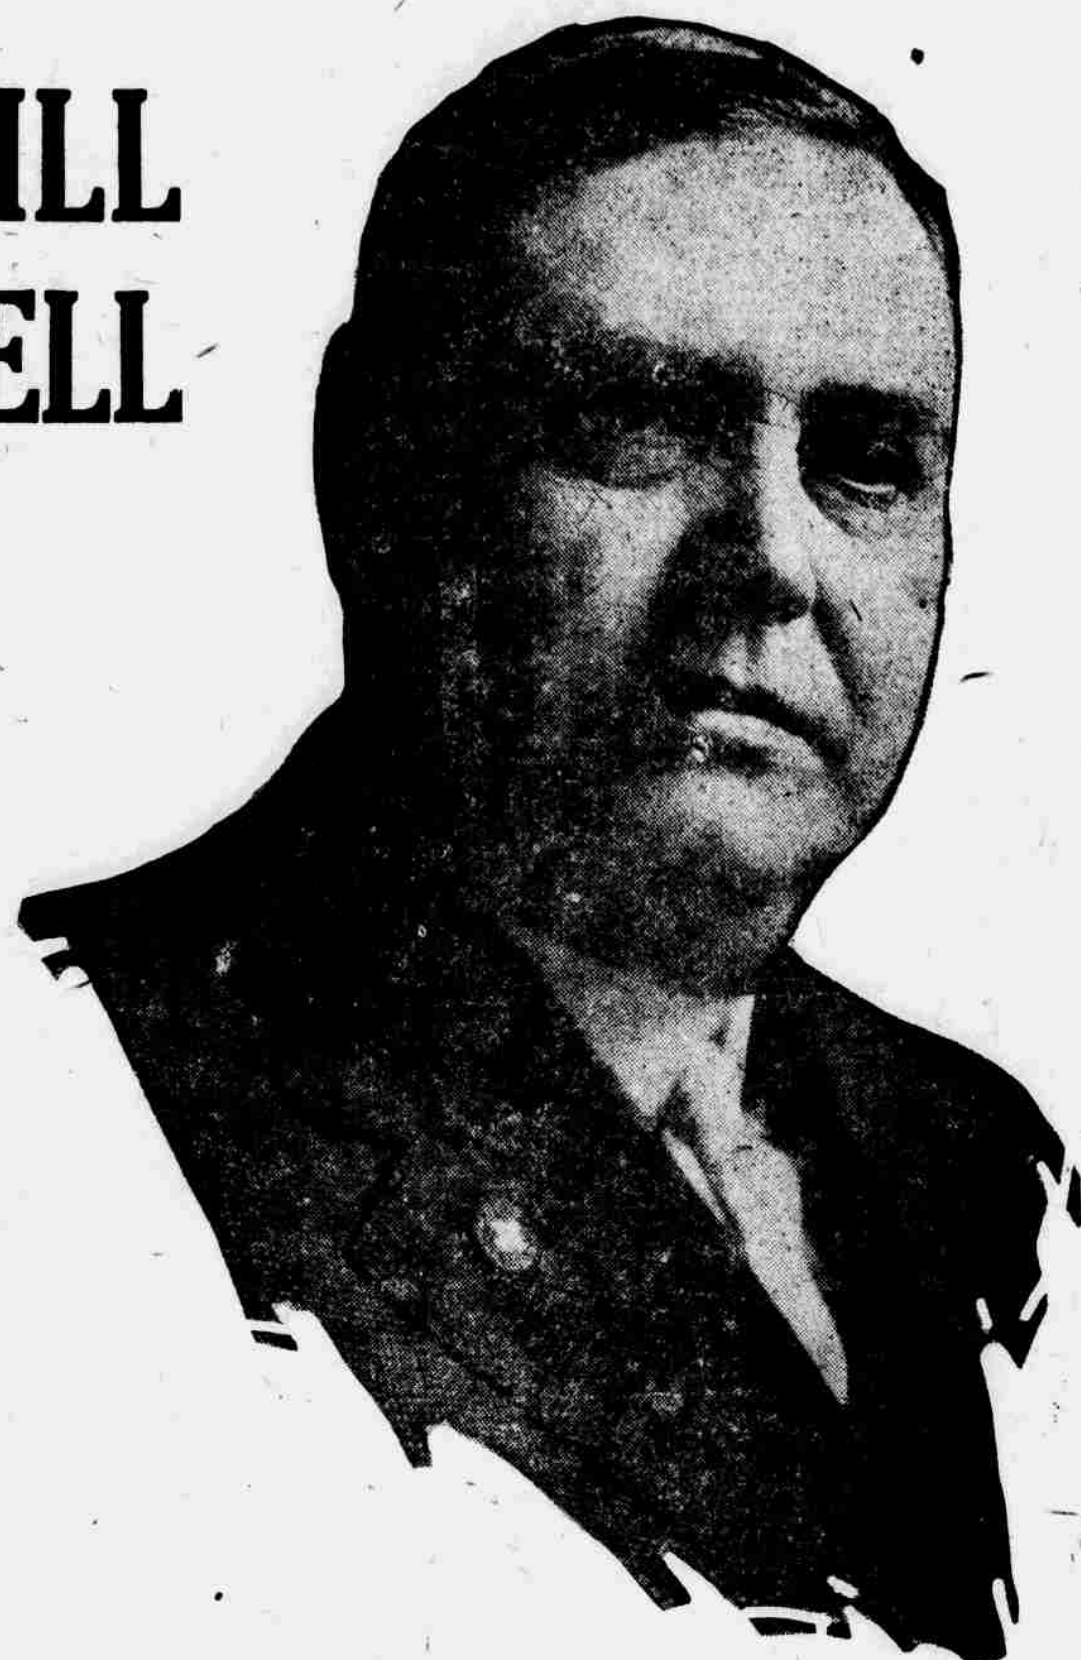

In keeping with the progress of the times and equal in importance to educational progress has come "health progress." Habit, born of centuries of dependence of the race upon drugs or incantations of the "medicine man" of olden days, that keeps you from trying Chiropractic, the modern progressive health miracle, which uses your inherent energy to make and keep you well.

Chiropractic removes the cause of all dis-ease. Mind you, we do not say the cause of one dis-ease. Chiropractic removes the cause of all dis-eases. It is not like anything you have ever tried. It is a science separate and distinct. You do not wonder, how it is that the same electricity lights your home, heats your toaster and runs the street cars. Within your body you have electric energy far more wonderful. Every function of life is run by this human electricity. The chiropractor does not create this electricity, he merely sees that there are no short circuits in your spine.

A short circuit means that one of the spinal switches is shut off, thus cutting off the flow of human energy at that point. The chiropractor uses his bare hands alone, and turns the switch.

When the human switches are all turned on, the wonderful human electricity will run every function in your body as nature intended it to run.

No matter where your illness; no matter its name, Chiropractic can reach the cause.

DR. LEE W. EDWARDS has been engaged in health work ever since his graduation, in 1893, from the Omaha Medical College, now known as the Medical Department for the University of Nebraska. Ten years ago he gave up the practice of medicine because he became interested in the greater possibilities of chiropractic. Dr. Edwards practices chiropractic exclusively, because after ten years' trial he KNOWS that it can do what medicine cannot do. Unless you know both sides of the question you are not qualified to judge.

Dr. Edwards says: "I have been telling the public for ten years how chiropractic gets results. I have come to the conclusion that the average person merely wants to get well. After he gets well, he may be interested in knowing the way the doctor did it, but not before. I have seen so many cases in the last twenty-five years that I know I can locate your trouble. I have had marvelous results during my ten years' practice of chiropractic that I know I can get fully 95 per cent of the sick people well. I want YOU TEACHERS to let me show you what chiropractic has in store for you. Here is my offer:

Bring this advertisement to my office. Your convention badge will entitle you to a free consultation and spinal analysis. I will locate your trouble and tell you what I can do for you. If you need my services I will give you the best or give you the name of a Chiropractor in your vicinity.
