Solid South Is Broken By Harding

Tennessee Gives President Elect Good Majority and Also Elects Republican As Governor.

Oklahoma for G. O. P.

By The Associated Press.

New York, Nov. 4.-Tennessee has swung into the swelling republican column, shattering democratic traditions of a "solid south," unofficial but nearly complete returns from the volunteer state showed

Her shift from the democratic ranks, coupled with a similar upset in Oklahoma, reported late last night, assured Warren G. Harding of 386 electoral votes as against 127 definitely in the James M. Cox column and left in doubt but 18 seats in the electoral college, divided among Arizona (3), Montana (4). Nevada (3), New Mexico (3), and North Dakota (5). In all of these states, save New Mexico, Harding was in the lead on available returns and even in New Mexico republican managers were claiming a Harding plurality, though available returns showed a Cox lead.

Tennessee Goes for G. O. P. Tennessee, on the face of returns tabulated by the Memphis Commercial Appeal from 93 of 95 counties, with 50 precincts missing, gave Harding 199,759 votes and Cox 189,782, a Harding plurality of 9,977. Governor Roberts, democrat, was swept out on the republican tide and Alf Λ . Taylor, unsuccessful candidate for governor against his brother in 1886, was elected.

The republican congressional sweep assumed larger proportions as belated returns continued to come in. The victory of Samuel D. Nicholson, republican candidate for the senate from Colorado, assured President-Elect Harding a majority of at least 10 in the upper house and of five states where senatorial choices had not been determined the republicans were in the lead in four—Arizona, Oregon, Nevada and North Dakota. In the Fifth Kentucky republican leaders still clung to the hope that late returns would overcome the advantage held by Senator L. C. W. Beekheen over Bickerd P. J. C. W. Beckham over Richard P.
