Assault in Election Row

London Editors See Repudiation Of Wilson in U.S.

Leading Publications of Britain Comment on Overwhelming Majority That Will End One Man Rule.

ish provincial newspapers consider the election of Senator Harding to the presidency as an indication that the electorate is tired of what the journals call "one-man rule," The Liverpool Post says:

"Senator Harding goes to the White House as the representative of a profound belief, long maturing among the larger part of the nation, that Wilsonism is alien to American traditions and that America should not entangle herself in the affairs of

distracted Europe." This newspaper expresses the opin ion that the election of Senator Harding does not mean antagonism to the league of nations and believes "that America is searching in her heart of or some method of achieving ust purpose of the covenant he can approve without mis-

Tax Problems That the New Administration Must Face

Of vital concern to every one of us, because indissolubly linked with the high cost of living, is the problem of tax revision that confronts the new Administration at Washington. "There is no question that Federal taxation is a burning issue the coutry over," dclares the Philadelphia Public Ledger (Ind. Rep.), which adds that "if the country is to be saved from the inequalities of the present taxation, which is both sectional and too arbitrary in its class distinctions, it must be through the combined common sense of both parties, and not through any doctrinaire adherence to partizan systems."

During the fiscal year 1920 Federal taxes amounted to \$5,408,075,468, an increase of a billion and a half over 1919. And since the cost of running the Government next year will be at least \$4,000,000,000, according to the estimates of Secretary of the Treasury Houston, the problem for the present is to devise a better, not a smaller, tax.

The leading article in THE LITERARY DIGEST this week, November 6th, presents the many suggestions offered to meet this acute situation, including the list of the articles upon which new taxation is contemplated. It also shows the criticisms for and against the various measures proposed.

The greatest master-piece in the Art Gallery of Life is Nature's "Picture of Health."

It is a marvelous portrayal of the human body at its best. One beholds in its composite detail a true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, strong limbs, steady nerves and firmmuscles; fairly vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant in color and illuminated
