President-Elect Believed to Have Decided on But One Member of Cabinet; Other Names Mentioned.

By ARTHUR SEARS HENNING. Chicago Tribune-Omaha Bee Leased Wire. Chicago, Nov. 6 .- Henry Cabot

Lodge, Gen, Leonard Wood, Theodore Roosevelt and Herbert Hbover are regarded as the leading possibilities for membership in the Harding cabinet by republican leaders. who are closely associated with the It is understood that Senator Harding has not decided whom he

will invite to accept places in his cabinet, with one exception. That exception is General Wood, who is believed to have been asked to-become secretary of war. The selection of a secretary of state is bound up with the formulation of the Harding policy of foreign

affairs, particularly with reference to the peace treaty and the league of nations. It is not likely that the president-elect will choose the This dandy, stude bungalow built by premier of his administration until he has mapped his course definitely into a high and sightly location just off Fontenelle boulevard. Mr. Root favors a league, the thief feature of which would be the maintenance of an international court of justice, such as he helped to plan-at The Hague last summer.

From the viewpoint of qualifica-tion for the post, Mr. Root is the logical choice. He is widely re-garded as the "brains of the republican party," and he is indisputably one of the foremost world statesmen of the age. He drafted the league of nations plank in the republican platform, though it was revised in some particulars by the resolutions committee.

Bitter opposition to the selection of Mr. Root, however, has developed already among the irreconcilables headed by Senators Johnson and Borah. Allied with them are western progressives, who look upon Mr. Root as a reactionary, who is the incarnation of Wall Street influence, and the "drys" who never forgave him for arguing the unconstitutionality of the prohibition amendment before the supreme

Omaha's interest in the affair arises from the fact that the statuary is the work of Solon N. Borghum.

One piece, "The Spirit of the Dew," is described as the figure of young girl, kneeling, the posture and figure said to be exquisitely done in pure white marble and embodying the thought of the artist in a most effective manner. "Lonely Girls" Fail to Appear Bolshevist Who Slew At Party In Kansas City

Kansas City, Mo., Nov. 6.-Like the rich man in the Bible who made a wedding feast and found himself without guests, young women of the Linwood Presbyterian church who had announced a party for lonely girls of the city waited in vain for visitors to put in an appearance. Finally the hostesses themselves had to play the games they had prepared and dispose of the refreshments. However, the "lonely girl" parties will be continued. # Newspapermen of Austria Granted Special Standing

Unusual Safeguards for Their Positions Are Set Up by Action of National Assembly.

Vienna, Nov. 6 .- By an act of the national assembly, the newspaper fraternity of Austria is given a special standing in its relation to employers. Members of the news departments of papers always have enjoyed the customary legal protection as regards notice of discharge, vacations and similar matters, but the new law sets them apart with unusual safeguards.

The act covers editors, editorial writers, artists and reporters engaged on a fixed salary, but not persons to whom newspaper work is a secondary employment. Under its provisions the employe must be given a written agreement describing the nature of the work for which he is employed, amount of salary, allowance for special work and stipulations for repayment of ex-penses incurred in the discharge of his work. It also provides for increased pay at intervals of five years up to the 60th year of age.

Que Month's Leave.

One month's annual leave is guaranteed with pay, and after 10 years ix weeks with pay. Three months' notice must be given of discharge and, after five years' continuous employment, one month additional for

nto a pension fund a minimum of to appear to prosecute. The details of the pension system to be promulgated in the form of ordinances by the departments of education and interior.

The provisions as applying to the sale of a newspaper are interesting. A new proprietor may within one month give notice to an editorial employe that he will not continue his employment whereupon the latter is entitled not only to the pay of the period as above provided for but, he has served the former owner less than five years, also to one year's full pay and, if his service was for a period between five and 10 years, to pay for a year and a half.

Must Give Notice.

Should a new proprietor fail to rive notice of discharge within 30 days the employes are entitled to one year's notice. Both the seller and buyer of a property are bound to guarantee the

claims of editorial employes. In event of the suspension of paper, six months notice or an equivalent of salary are required. Should a paper alter the political policy the employe can claim the same privileges as if the paper had been sold. In case of dispute an arbitration court is provided for, two members being chosen by the parties affected, the fifth to be a member of

the national assembly. Judge Doesn't Believe In . Hell, His Removal Sought

Springfield, Mass., Nov. 6 .- Removal of Judge Charles L. Long of the probate court, or appointment of an associate judge who believes in hell, is demanded by Rev. Thomas A. McGovern of the Holy Name church.

The priest's action followed disposition of the Alexander case in prohate court when the five children of Robert O. Alexander, cotton broker and evangelist, of Charleston, N. C., were waarded to the mother's custody on grounds that the father's religious beliefs made him unfit.

The unfitness was reported as he dies," said the old miner. McBee based partially on Alexander's belief is being held because he cannot raise in hell.
