"DANDERINE"

Girls! Save Your Hair! Make It Abundant!

Immediately after a "Danderine" massage your hair takes on new life, lustre and wonderful beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken.

My skin was even worse than yours, and I, too, had tried so many remedies I was discouraged. But Resinol Ointment and Resinol Soap relieved the soreness almost immediately, and I was amazed when the blotches began to disappear and the pores to clear.

Wife Walks Two Miles Daily in Kitchen

Mother walks miles in her kitchen! In tests made in the kitchen of a practical cottage at the University of Wisconsin it was found that in doing daily work in preparing three meals a day the housewife walked two miles.

To cut down the number of steps in the daily work in the kitchen Miss Jean Krueger, of the home economic department, offers these suggestions: "Steps are saved by grouping the equipment used in preparing meals as well as the equipment used in clearing away after meals."

"If the icebox, food cupboard or pantry is to the left of the working table the stove to the right of the working table and the serving table to the right of the stove then the housewife does not cross her own path unnecessarily. The clearing away equipment might be arranged as follows: Table to right of sink, drain to left of sink, china shelves to left of drain."

The best floor covering is a good quality of linoleum. It saves time, strength, and reduces the jar in walking. The cracks should be cemented and the corners carefully fixed in order to be sanitary.

What's What

By HELEN DECIE

"A good size for a large kitchen is 12 feet by 14 feet. A small kitchen with an alcove dining space will save many steps. An 8-foot by 10-foot size is good for this plan. In kitchens of these dimensions, of course, every bit of space should be used for storage and working surfaces. A pantry is often unnecessary if kitchen wall space is carefully used."

"Avoid a long passageway from kitchen to dining room. If possible do not have more than two doors: one to the dining room and the other to back hall and porch. The best location for the kitchen is south and east or south and west."

Box Parties. Mrs. G. Walter Silver has reserved a box of 10 for members of the Amateur Musical club at the Anna Case concert Thursday evening at the Brandeis. Boxes have also been taken by Mr. and Mrs. Forrest Richardson, Mr. and Mrs. A. V. Kinsler and Mr. and Mrs. R. Beecher Howell.

It is discourteous to the performers and to the audience to pass to the occupancy of seats during the progress of a scene. Some artists insist upon the discipline of holding late comers in the foyer until the next intermission, and refuse to appear wherever this rule is not enforced. Every one should arrive early enough to be seated before the first curtain goes up.

When a man is accompanied by women, they pass in before him as he presents the tickets to the doorman. If he does not check his overcoat he removes it in the vestibule and enters, carrying it over his arm, as it is awkward to remove a coat in the aisle of seat-row. The man walks immediately after the usher, going down the aisle, the women following him. When the proper section has been reached, he stands aside until his guests are seated, then he takes the last vacant chair of his reservations. (Copyright, 1924, by Public Ledger Co.)

A Gift of Gordon's

Indicates A Particular Appreciation

ANYONE who receives a box of Gordon's Chocolates as a gift, can be sure that the giver desires to confer more than an ordinary favor.

Not only do Gordon's Chocolates cost a little more than others, but their unequalled purity and quality of flavor, makes their selection as a gift a mark of sincere esteem.

No happier solution of the gift problem than a box of Gordon's Chocolates. Gordon's not only makes new friends, but makes old friends better friends. To be had wherever good candy is sold.
