New York, Nov. 13.—After so troubled week in the market, the first point of interest in Wall street to-uay was the weekly bank statement. Neither the associated banks nor the federal reserve bank published their statement until the Stock Exchange had closed after a day of declining prices, but both made an unexpectedly favorable showing. The clearing house banks have reduced their loans \$47,900,000 during the week, and the gesultant curtailment of deposit liabilities were supplemented by an increase of \$30,700,000 in reserve credits at the Federal

If you have from \$100 to \$500 that you can afford to invest for a year, here is a proposition that offers you an opportunity to multiply your investment many times within this period. The risk involved is reduced to a safe minimum.

We have an option on a 20-year oil lease on 800 acres of the most promising oil land in the country. It is right on the structure of the Houck Dome in Fergus County, Mont. This location has been passed on by a well-known geologist as having every indication that oil in large quantities lies at a depth of about 1,500 feet. The development around this location bears out the geologist's report.

We can buy this lease at the rate of \$12.50 an acre-by holding it for a year, we stand every chance of getting as high as \$200 an acre for it. Your profits will accrue on this basis. We are going to carry half of this acreage ourselves. If you want to get in on this opportunity

Chicago Grain

By CHARLES D. MICHAELS. Chicago, Nov. 13.-An oversold 33 cars about equaling the total of condition was disclosed in wheat Am. T.

around \$1.831/2 for December offerings increased materially, and a reaction followed. Failure of a New York grain and oil house has some effect on the market as did a report Chicago people were trying to buy 1,000,000 bushels dark spring wheat at Minneapolis.

Country Offerings Limited.

Country Offerings Limited.

The December-March spread widened to around 10c at one time, compared with 1½c over at the inside difference on Tucaday, but at the last December was 9½c over. Twenty thousand bushels were sold to go to store at December ber price. Country offerings in the southwest are limited, farmers holding tightly. Some export demand was reported at the guif. Corn made its highest prices shortly after the opening, when local shorts covered on the strength in wheat, but the upturn was lost later, with December closing at the same price as on Friday, gaining ½c on the May There was some selling of May and buying July by the Armour Grain company which widened the difference ½c. Eastern demand was fair. Omaha reported the country as selling new corn freely, but reports from other sections indicated farmers were still holding. December cats—showed fair strength early, hut later broke sharply to the low roint of the previous day, with the close the lowest on the crop. Eastern demand showed improvement. Foreigners were reported after rye at the seaboard, but no sales were liven. No. 2 on track brought 2c over December.

Pis Notes.

Bearlsh influences were amplified today by new reductions in prices of com-

Pis Notes.

Bearish influences were amplified to day by new reductions in prices of commodities, by failure of a New York oil and grain house, and by other factors. Sentiment and general conditions were regarded as too bearish for bulges to hold long, as there is a lack of contidence on the part of the public. At the same time, grainfutures have been well liquidated and there is a nervous feeling which results in sharp fluctuations. The bulge in wheat today was only natural after the recent heavy break.

Every possible thing to depress prices is being brought out in a way regarded by conservative men as likely to reach unfavorably on the grain trade in general later. Sensational reports sent out regarding the banks in the country "forcing holders to sell" is a specimen. Shipping of grain from the country to terminal elevators will require money to carry regardless of who owns it.

Liberal buying of corn and oats against weekly bids was a sustaining factor at the last, but failed to prevent corn from closing practically at the bottom for December and July.

Reports from Nebraska indicate farmers in the southwest are likely to sell corn in the near future and a larger movement is expected. This was the

Bonds and Notes

the close was at net gains of 1 to 114 cents.

Corn was 14 cent lower to 14 cent higher. Oats, 14 to 38 cent lower; rye, 1½ to 2½ cents higher, and barley, 1½ cents lower.

Liquidation was on in all grains during the last week and, while the finish was on a rally, wheat finished with net losses of 10 to 11 cents, March leading. Corn declined 634 to 7 cents; oats, 4½ to 4½ cents Rye, 4½ to 8½ cents and barely at 7½ cents.

General buying of wheat in small fots by commission houses found limited selling orders early and prices advanced 5 to 5¾ cents, but around \$1.83½ for December offer-

Investing without · · · Capital · · ·

Many people now invest in high grade listed stocks and bonds without capital—that is, they buy them on the Kriebel Systematic Saving Plan and pay for them out of their monthly earnings.

They are finding it highly profitable. It is not a short cut to wealth, but it invariably yields liberal interest plus a profit.

What can be accomplished by this plan is told in Peter Perkins' story, "Getting Ahead." By investing \$25 per month for 10 years he accumulated \$10,000. The booklet tells you what stocks he Bought, the divi-

usted \$10,000. The booklet tells you what stocks he bought, the dividends received each year, and the market advance of each stock.
