CALIFORNIA LANDS If you wish to live in California, and go into a money making business, communicate with the owner of a tract of land located in the heart of one of the richest oil-bearing zones in that State. This land is now being developed for oil, but the owner has not sufficent capital to finance the proposition himself, consequently he is seeking one or more men who will invest a moderate amount, and also take an active part in this work, if so wishing, but not absolutely necessary. This place is so located that even if there is no oil one cannot lose his money, as the land is worth many hundreds of dollars an acre as land for residential purposes, fruit ranches, etc. Before going to California this winter it will pay you to investigate this proposition.
