THE DRUMS OF JEOPARDY. By Har-old MacGrath. Published by Double-day, Page & Co., New York, Price \$1.90. MacGrath believes in grabbing the

reader's attention on the first page with a mystery, or the exciting entrance of some character, and then maintaining the excitement at a high pitch throughout. This last book of his is no exception. And it has

a strictly modern setting—bolshevik intrigues in America.

The three principal characters are all haeable, but "Cutty," war correspondent, agent of the federal government. trament in the campaign against the reds, courageous, resourceful and self-sacrificing, stands out above the others. The story deals with a Rus-van noble who has escaped to Amerivan noble who has escaped to America, bringing with him all of the tamily jewels, including two immense emeralds, the "Drums of Jeopardy." All of his relatives had been killed, and the reds are following him to get him out of the way and obtain the precious stones. A girl who is a newspaper reporter, and friend of "Cutty" saves the Russian's life, and then a series of exciting events re-"Cutty" saves the Russian's life, and then a series of exciting events re-sult over the recovery of the jewels, and the capture of the bolsheviks, In this "Cutty" plays the leading role, his apartments proving a refuge for the Russian. A pretty three-sided romance is woven into the story, with "Cutty" who is much older, stepping aside and starting them on their way to happiness. An entertaining and exciting story! It entertaining and exciting story! It appeared serially in one of the national weekly magazines.

SCHOOLING OF THE IMMIGRANT. By Frank V. Thompson. Published by Harper & Bros., New York and London. Harber & Bross, New York and London.

Of 13,000,000 immigrants in this country in 1910 who were more than 10 years of age 3,000,000 of them could not speak the English language. Ten million could not speak English when they came to this country. Only-760,000 of them were of the age where they were subject to the compulsory school laws. A census in 1916 would undoubtedly have shown even more startling figures. Knowledge of these facts at the time of our entry into the world war, occasioned uneasiness in some quarters and resulted in legislation quarters and resulted in legislation part in it would be at an end. To be

in many of the states.

This book by Mr. Thompson, superintendent of public schools, Boston, is the first of 11 studies of Americanization aimed to establish Americanization aimed to establish a common viewpoint, social, political and industrial, between native Americans and the immigrant population, in the interest of national unity. Mr. Thompson does not believe that the night school is more than scratching the surface. He takes up the different organizations which are working to Americanize the immigrant and outlines their work. A summary of legislation is also given, including comment on the recent Nebraska laws. One section deals with methods of teaching English. An instructive book for any interested in this class of work.

BOY HEROES IN FICTION, AND GIRL HEROINES IN FICTION, two books by Ines N. McFee, Published by Thomas Y, Crowell company, New York.

girl heroines in fiction who have endured through generations, and who always will endure. In these two volumes the author has gathered several of these different youthful characters together. In so far as possible she has left the stories in the words of the original writer, condensing them, and presenting only those parts of the longer books which pertain to the boyhood or girlhood days. In the first book the girlhood days. In the first book the seven characters are: Little Gav-roche from Les Miserables, David Balfour from Kidnaped, Oliver Twist, Jim Davis from Jim Davis by John Masefield, Jim Hawkins from Treasure Island, and John Halifax, from John Halifax, Gentle-

"IN THE HOUSE OF ANOTHER." By Beatrice Mantle. Published by The Cen-tury company, New York tury company, New York
"Is it going to be another fantastic, improbable tale?" the reader is inclined to ask himself as he peruses the first pages of this book. Will it even go beyond those stories in which one person so easily assumes the life of another and masquerades the life of another and masquerades successfully? Is it going to imply the possibility that the souls of two woman can exchange bodies? We are inclined to revolt at this sugges-tion. And then the author throws in a hint that possibly we are on the wrong track—that the woman who regains consciousness after an auto-mobile accident and, loking in the mirror, sees the face of the one whom she thought was in the other car, has a different problem to work

And a difficult problem it proves. An unknown house and servant, an unknown man who she gathers is her husband, a series of questionable and unpleasant incidents in the past to overcome, a fear that her secret will be discovered and that she will

be deemed insane! How the author has worked out this problem, how she has drawn a good lesson here and there from the unique position in which she has placed Elsie and her husband, and low she points out where both had erred in their past life, makes this interesting story. The first impression of the reader disappears and he fol-lows the clever unfolding of the plot with careful attention.

"CARRANZA AND HIS BOLSHEVIK REGIME," by Jorge Vera Estanol, Pub-lished by Wayside Press, Los Augeles, Cal.

Senor Estanol, former secretary of the interior, as well as secretary of public education in Mexico, declares in this book that the Carranza constitution, and the Carranza govern-ment is bolshevik "because they are the constitution and government of a caste—the armed caste of the lowest social order—without any national constructive inspiration, dominated by an appetite and a thirst for riches for its own members, and by a hatred or contempt for all others." He declares that those at present at the head of the government are the men who battled with Carranza in 1913, and who drew up the constitution of 1917, which is still in force. He goes into detail to prove his point that this constitution is spurious and bolshevik.
