Historic Find Made In Remote Section of Northwestern Corner of State.

Denver, Colo., Nov. 25.—Discovery of what is said to be pre-historic ruins of two cliff dwelling settlements in a canon west of the junction of the Yampa and Green rivers in a remote section of the northwestern corner of Colorado has been reported to Prof. Jean A. Joanon, agent of the United States anthropology.

James Loftus, ranchman, of Young, Colo., brought word of the findings, together with a detailed description of the ruins, here today.

Discoveries of incalculable value to science and history have been made in the ruins, according to Prof. Joanon.

Homesteaders' curiosity, aroused by the ancient and peculiar canon walls and overhanging ledges, partially eclipsed by the long, deep opening, resembling a great pair of lips with flat, stone-colored teeth, led Loftus to make an investigation of the ruins, he said today.

In the rooms he declared he found wicker baskets filled with what appeared to be grain. Two skeletons were found in one of the rooms. Pieces of pottery and baked clay were littered about the floor of the houses.

Prof. Joanon is in Colorado for the purpose of investigating the antiquities of the state. These discoveries, together with similar ones on the western slope recently, have been reported to Washington.

### Three Men Who Are Held as Robbers of Bank in Wisconsin

Chas. C. Stewart

John J. Bohmer

Herbert Ryan

Charles C. Stewart, J. J. Bohmer and J. H. Ryan, whose pictures have been identified by Cashier H. E. Erickson, and Miss Nell Mulligan, clerk, of the Superior State bank, Superior, Wis., as those of the three unmasked bandits who held up and robbed the bank in broad daylight November 16. Police say Ryan's real name is "Chicago" Daly.

### Seven Pals of Bank Bandits Are Sought

(Continued From Page One.) admitted today he has information they are in Omaha.

Pictures of Mack and McCarthy have also been sent to Wisconsin for identification.

Three unmasked men held up the Superior State bank November 16 at 10:40 a. m. The bank carries the payroll for the Daisy mill of the Duluth-Superior Milling company, one of the largest single flour mills in the world.

The mill pays on the second and 17th of each month, instead of the first and 16th. It is believed the bandits intended to get the \$50,000 cash payroll.

The bandits secured \$7,215, all that was in the vault at the time. While covered by the bandits' revolvers, H. E. Erickson, cashier, ran to close the door of the vault.

One bandit fired. The bullet grazed his clothing. He and Martha Nelson, clerk, were forced into the vault.

Mrs. W. J. Leader, wife of the county clerk, was dragged into the vault as she entered the bank just behind the bandits.

Girl Gave Alarm. Nell Mulligan, another clerk, crawled on her stomach to a washroom 20 feet from where the clerks and customers were told to lie face down on the floor and gave the alarm before the bandits had left the bank.

Chief of Police Osborne believes the quick spread of the alarm made the bandits afraid to return to their rendezvous in St. Paul, which is but a four hours' drive from Superior.

Miss Mulligan released the others from the vault as soon as the bank door slammed behind the retreating robbers, who fled in a waiting automobile.

Erickson and Miss Mulligan have not identified the photographs of the three men held in Omaha as the bandits.

### Signal Officer's Report Tells of Research Work

Number of Messages Now Can Be Transmitted Simultaneously Over Same Cable Result of Experiments.

Washington, Nov. 25.—That a number of messages may be sent over submarine cables simultaneously through the use of alternating current and that the trunks of growing trees may be utilized at times in the place of sending and receiving antennae for radio apparatus was disclosed by experiments conducted in the research laboratories of the army signal corps during the past year, according to the annual report of Maj. Gen. George O. Squier, chief signal officer, to Secretary Baker, made public today.

Interesting experiments suggested by General Squier's recent discovery that uninsulated conductors might be used under water successfully also were conducted, the report says.

"With suitable apparatus, messages may be transmitted and received practically between any two points on surface of the globe and speed of this form of communication operates to place any two points of earth in practically instantaneous connection," General Squier said.

It was stated that radio operators were trained and sent to the western aerial forest fire patrol and the Alaskan military cable service and particularly good success was met in developing the army's carrier pigeon service.

Among the achievements of the corps chronicled in the report were the design and completion of a cavalry radio pack set for field service, and the completion of an army observation plane radio telegraph and telephone set with a range of 80 to 100 miles telephone and 200 to 250 miles telegraph, in addition to the designing of a large number of minor parts calculated to improve existing communication sets.

### Thanksgiving Quiet in Lincoln; Police Are Busy

Lincoln, Neb., Nov. 25.—(Special.)—Thanksgiving was a quiet day in Lincoln and outside of the Washington-Nebraska foot ball game the people contented themselves with going to church in the morning, partaking of the usual Turkey day feast and putting in the rest of the day either at the ball game or with family parties.

The police spent the day in an attempt to establish a clue to the breaking in of a couple of jewelry stores this week, in each case the perpetrators of the act breaking the plate glass front during the early morning hours and making away with gems on display in the window.

The police are puzzled over the acts performed within a few minutes after a policeman had passed the stores.

### New Lincoln Fire Chief Arrives From Canal Zone

Lincoln, Neb., Nov. 25.—(Special.)—Olaf Olson, Lincoln's new fire chief, appointed to take the place of Chief Sommer, killed in an automobile accident while going to a fire a couple of months ago, arrived from the Panama zone where he has been connected with the fire department at Cristobal.

Chief Olson has had plenty of experience as a fire fighter. For several years he was a captain of the Omaha department and later held a similar position with the Lincoln fire department, from which place he went to Panama. The new chief brought his family with him and will immediately take charge of the work here.

### Poles Avoid Fight With Bolsheviki

Bombardment of Podwoczyzka by Reds Ends When Poles Formally Protest.

Warsaw, Nov. 25.—(By The Associated Press.)—Armed conflict between Polish forces and bolshevik troops, which have reached the Polish frontier along the Zbrucz river, was narrowly averted Tuesday when the bolsheviks bombarded the town of Podwoczyzka, about 25 miles east of Tarnopol. Polish military authorities protested and when the bombardment stopped it was found five persons had been killed and 16 seriously injured.

The bolsheviks explained they believed the place was east of the armistice line and in the hands of Ukrainians.

General Permyk's Russian army, which has attempted to co-operate with Simon Petlura's Ukrainians, has virtually been destroyed, it is said in dispatches from Tarnopol, and the bolsheviks have reached the eastern bank of the Zbrucz along its entire length. Reports also indicate that Petlura's army, commanded by General Pavlenko, has been wiped out. More than 25,000 fugitives from these armies recently crossed the Polish frontier and have been disbanded by the Poles and sent to various internment camps.

### Alliance Women Held In Probe of Death of Baby at Sterling, Colo.

Alliance, Neb., Nov. 25.—(Special Telegram.)—Two young women of Alliance, Ruth McClelland and Dorothy Brownell, were arrested in a rooming house here and taken to Sterling, Colo., by a deputy sheriff from that city in connection with the finding of a newborn baby in an ash can, near where the young women are said to have roomed. One of the young women is alleged to be the mother of the infant, which was dead when found. The infant's body was frozen. There was evidence of the infant having been strangled before being placed in the ash can, police say. It was reported the young women left Alliance about two months ago and went to Sterling.

### Federal Judge Holds Court On Thanksgiving

Federal court attaches didn't begin giving "thanks" until yesterday afternoon. Because of a crowded docket Federal Judge Wade kept court in session until noon, when he called a recess until 9 this morning.

Testimony in the \$50,000 suit against Douglas county brought by William S. Weathers, administrator of the estate of Everett Weathers, for alleged defective road building on the Dodge street road, which resulted in an accident causing the death of Everett Weathers, occupied the time of court and jury this morning.

All other offices were closed in the federal building yesterday.

### CUT THIS OUT

OLD ENGLISH REMEDY FOR CATARRH, EARACHE, DEAFNESS AND HEAD NOISES If you know of some one who is troubled with Catarrh of the Ear, Head Noises or Deafness, send them this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions. Secure from your druggist 1 ounce of Parechal (Double Strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parechal used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to take. Every person who has catarrh or head noises or is liable of hearing should give this treatment a trial.

### Miss Jean Matters Weds Accountant Turkey Day Eve

Romance of Otto Lambert and Daughter of T. H. Matters Culminates In Sudden Marriage.

Miss Jean Matters, daughter of Mr. and Mrs. T. H. Matters, was married Wednesday night to Otto Lambert, an accountant.

The marriage was the culmination of a romance which began a few months ago, when Mr. Lambert was introduced to Miss Matters by a mutual friend. Since then they have been seen together very frequently, at the theater, driving in Miss Matters' car and at other places.

"They had intended to be married last month," said Miss Jean Matters, "sister of the bride, but it wasn't convenient. Just a few days ago they decided to be married on Thanksgiving eve."

The ceremony was performed by the Rev. Earl Moneymaker, pastor of the Benson Presbyterian church. Mr. Lambert sings in the choir at Thanksgiving eve.

The beautiful Matters home, 315 Happy Hollow boulevard, was decorated for the marriage with chrysanthemums and other flowers. Only a few relatives and close friends were present.

Daughter of T. H. Matters. The young couple did not go on a wedding trip and will make their

### Wedding at Alliance Follows English and American Romance

Alliance, Neb., Nov. 25.—(Special Telegram.)—"A Romance of Two Continents" would be a fitting title for the story of a long-distance courtship which culminated in a wedding at the court house here. Joseph M. Holloway, 28, of Alliance and Miss Edith A. Burkett, 21, of Lincoln, England, were the principals.

Neither had seen each other until half an hour before the wedding ceremony.

The romance began several years ago, when Holloway, who was serving in the United States navy before the war, met a brother of Miss Burkett at a coaling station in the Philippines. Holloway was charmed with Miss Burkett's picture, which her brother showed him, and a correspondence started which resulted in the engagement.

Then the world war came on and their plans were delayed. They continued to correspond, however, and a little more than two weeks ago

home for the present at the Matters home. The bride is a daughter of T. H. Matters, an Omaha attorney. Miss Helen Matters and Mrs. Joy Sutphen are her sisters and she has a brother, Tate Matters of New York City.

### Bodies of 2 Men in Box Car Identified

One Was Trying to Beat Way To Family at Salem, Ohio.

Nick Sesu, whose dead body was found in the refrigerator compartment of a box car of apples in the local railroad yards Wednesday, was trying to "beat" his way back to his family in Salem, O., according to evidence discovered by Chief Deputy Coroner Steinwender.

Nick Vintilla, a Wyoming rancher, who is at the Castle hotel, reported that last Sunday in Cheyenne he met Sesu and the other man whose body was found with Sesu's.

"They are both Roumanians," he said. "The other man's name is Szocs Marton. They had almost nothing. I gave my overcoat to Sesu and that was the last I saw of them."

Vintilla came to Omaha bringing a carload of sheep from his ranch to the local market. A telegram received from Salem, O., states that Sesu lived there, but that his wife is not there now. In regard to Marton, the Salem authorities say it may be a man who has a brother there.

Mr. Steinwender stated yesterday that he does not think an inquest will be held over the bodies.
