### Arguments in Case Of Christian Science Trial Made by Hughes

Boston, Nov. 30.—Charles E. Hughes completed his argument for the trustees of the Christian Science Publishing society in the various actions that have been grouped for a decision by the Massachusetts Superior court, hearing on the dispute between the directors of the Christian Science church and trustees, over questions of authority.

"There is a harmony which results from despotic power and another one which results from unity of religious views," said Mr. Hughes. "It seems unfair to Mrs. Eddy to believe that she relied for harmony on the despotic power of the directors of the mother church."

"There were indications that Mrs. Eddy feared the despotic power of the directors when she drew the deed of trust creating the publishing society, and therefore gave the first members concurrent power with the directors."

"The unity which these directors wish is the unity of despotic power. This is a unity which must destroy the organization they profess to uphold."

**Receiver Appointed for Standard Ship Company**  
New York, Nov. 30.—Theodore J. Keane was appointed federal receiver in equity for the Standard Steamship company, Inc. of this city, on application of the Carter and Weekes Stevedoring company of West Virginia.

The Stevedoring company entered a claim of \$32,000. Liabilities of the steamship company were placed at \$657,238. Assets were not estimated but were said to include vessels bought from the government, on which payment had not been completed.

**Resorts Closed.**  
Chicago, Nov. 30.—Federal Judge Landis granted 32 temporary injunctions to close as many "black and tan" resorts and road houses on application of Attorney General Edward I. Brundage of Illinois. Mr. Brundage filed 72 such petitions under the prohibition act last week.

**Incorporation Papers for Denver and Rio Grande Filed**  
Denver, Nov. 30.—Articles of incorporation for the Denver and Rio Grande Western Railroad company were filed with the secretary of state. The company will have a capital stock of \$50,000,000. It will take over, rehabilitate and operate the Denver and Rio Grande railroad system, sold here November 20.
