Heals Running Sores and Conquers Piles. Also Stops All Itching of Eczema Almost Immediately. "I felt it my duty to write you a letter of thanks for your wonderful Peterson's Ointment. I had a running sore on my left leg for one year. I began to use Peterson's Ointment three weeks ago and now it is healed."—A. C. Gilbrath, 703 Reed Street, Erie, Pa.

Recommend Resinol to that friend with skin trouble. If you have a friend suffering with eczema or other itching, burning eruption, what greater kindness could you do him than to say: "Why don't you try Resinol? I know you have experimented with a dozen treatments, but I believe Resinol is different. It does not claim to be a 'cure-all'—simply a soothing, healing ointment, free from all harsh drugs, that physicians prescribe widely in just such cases as yours. Do get a jar today!"

How to Know Chicken

In a young chicken of good quality the eyes will be bright and the feet smooth and rather soft, while a fowl or older chicken will have rough feet and often spurs, and the eyes will be dull. By opening the bill and smelling of the mouth one can determine somewhat the freshness of the bird. Also by feeling of the bone on the under part of the chicken between the legs. If it is soft and pliable the chicken is young and tender.

Advertisement for Rupture Kills 7,000 Annually. Text: "Seven thousand persons each year are laid away—the burial certificate being marked 'Rupture.' Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment. But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known. The PLAPAO PAD when adhering closely to the body cannot, possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—impermeable. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached. Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Send your name today to PLAPAO CO., Block 849, St. Louis, Mo., for FREE trial Plapao and the information necessary."
