Syndicate of Sportsmen Offers Rickard Site for Dempsey-Carpentier Fight.

New York, Dec. 3.-An offer of a site for the holding of the Dempsey-Carpentier heavyweight championship fight in Canada, was received yesterday by Promoter Tex Rick-Erd.

It was stated that \$250,000 was available as a guarantee and Rickard was requested to discuss the matter with a representative of the Canadian Ohio State Invited syndicate.

Rickard said that no definite plans had been made for staging the battle at any particular place. Under the contract the bout can be held rywhere in the United States, Can-

> Indications point to this being a most successful skating season. The McLean-Mathieson world's championship skating match in Noray last February did much to revive interest in the sport and things are picking up now just where they left off last winter. There is a possi-bility that McLean and Mathieson will race again. Promoters are trying to get the pair together in this country. It may be possible to get these skaters together, and McLean is more than willing to skate the Noregian.

Getting Mathieson to skate, however, is something else. When lathieson defeated McLean last February, the first thing he did when e got off the ice was to take off his skates and nail them to the wall the dressing room of the Christiania club, with the remark that he ad skated his last race.

We have known athletes who could be induced to make their return the track for a consideration and Mathieson, too, may be suscep-ble when the golden lucre is spread in front of him. The Norwegian got about \$40,000 out of the McLean races, which is about \$38,000 more

than he got out of all his other races, and why he should retire is some thing we cannot understand.

Pugilistic Bout McLean may have some skating to do at home. Norval Baptie has challenged the Chicago flyer to a series of races for the American championship and McLean will skate Baptie or any one else just as soon as ome one offers something for them to skate for. So much for speed skating.

There will be big doings in hockey. A new arena has been opened in Boston and there is talk of one in New York, and talk also of amateur and professional hockey leagues. There will be a professional hockey league in the western part of Canada and the usual number of stars will be there. D. R. Scanlon has visions of a pro-jockey league with Philadelphia, Boston, New York, Pittsburgh and Buffalo as the rival cities. Scanlon is in the east trying to put the idea over.

Last winter there was talk of a International Hockey league among the amateurs, but this has gone by the boards with the formation of the Canadian Hockey league. An effort is being made to form a United States league with Boston, Philadelphia, Pittsburgh, St. Paul and Cleve-

land in it. The European and International hockey matches will be played at Stockholm in February.

## Creighton May Not Have New Athletic

Creighton's chances of having a new athletic field by next grid season, received a setback yesterday when athletic officials at the local university amounced that in all probability the local school would not have an up-to-date stadium until 1922 or 1923, because of lack of junds.

According to the plans, the new stadium when completed will face east and west. The seats in the new stadium are to be constructed of concrete and the seating capacity will total more than 7,500. There will be parking space for 150 autos. A quarter-mile track will sur-

round the gridiron and when completed is expected to be one of the fastest tracks in the middlewest.
