You've probably heard of this well-known plan of making cough syrma at home. But have you ever used it? Thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will soon earn it a permanent place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready made for three times its cost.

It is really wonderful how quickly where, or thinks he has, which is all the same so far as good intent goes. Courtesy acknowledges courtesy. To give the cut direct and the stony stare to any one who offers a pass-ing salutation is the act of a selfcentered snob. A thoroughbred is never afraid to return salute for salete. "There is nothing so kingly as kindness." A gentleman acknowledges courteously even the salutation of a beggar.

Honoree at Holiday Tea

Mrs. B. L. Carter will entertain it a tea at her home Tuesday aftermoon. December 21, in honor of her daughter, Ruth. This is Miss Car-ter's first year out of school. She has attended St. Marys College in Notre Dame, Indiana, and Columbia University in New York City.

When to Use Crackers. There are times when cracker crumbs are more to be desired than bread crumbs.

If crumbs are being used with a vegetable that is a bit acid with milk to moisten, cracker crumbs supply just enough soda to neutralize he acidity and keep the milk from curd-

ling. For crumbling in deep fat frying, bread crumbs are better to use than cracker and are more economical.

Ten Years Younger Than His Years

Doesn't it make you feel good-cause you to straight-en up and feel "chesty"when someone guesses your age at ten years or so younger than you really are? You look into your mirror, smile with satisfaction and say to yourself: "Well, he didn't make such a bad guess, at that."

The point is: You're no older than your vitality. If a man is strong, vigor-

ous. mentally alert, fine and fit at 50 he has a better chance of living up to 80 than a man of 30 who is weak and run-down has of living up to 60. While none of us can stay the years nor stop time, we should all make an heroic effort to successfully resist the effects of time by ever keeping our vitality at par.

When you sense a feeling of slowing down of your physical forces--when your stomach, liver, kidneys and other organs show signs of weakness-when you notice a lack of your old time "pep" and "punch"—in other words, when you feel your vitality is on the wane, you should com-
